This workbook is designed for students of Class VII having aspiration of preparing for NTSE and IMO. Some of the basic content areas assigned in National Curriculum Framework are incorporated in this workbook. This book cannot replace any textbook of the referred standard of National Curriculum. It will be an added content upon the prescribed ones for developing and strengthening the basic understanding of mathematical concepts that the fellow students want to aspire for. It will also confer the regular mathematical practice with which one should move for reducing any specific problems related to the understanding of mathematical concepts. It is true that we cannot remember hundreds and thousands of different types of problems related to mathematics. We must try to equip ourselves differently for addressing all sorts of numerical and space related problems. Daily Practice Problem (DPP) series of publications deals with facilitation of fellow students and their associates. This workbook is suitable for students of class 3 of National Curriculum. It can be used by other fellow students of Primary section for improving their mathematical skills. It can be used by students who are willing to opt for IMO, NTSE and other similar examinations. It will also develop the basic understanding related to Mathematical Skills. It will enhance the competency set up of those students and equip them differently so as to make them competent for addressing higher challenges. Focus is entirely made on the content areas which felt difficult for students under observation.

Math Problem Solving in Action Nicki Newton, 2017-02-10. In this new book from popular math consultant and bestselling author Dr Nicki Newton you will learn how to help students become more effective and confident problem solvers. Problem solving is a necessary skill for the 21st century but can be overwhelming for both teachers and students. Dr Newton shows how to make word problems more engaging and relatable, how to scaffold them and help students with math language, how to implement collaborative groups for problem solving, how to assess student progress and much more. Topics include Incorporating problem solving throughout the math block, connecting problems to students' real lives and teaching students to persevere.

Unpacking word problems across the curriculum and making them more comprehensible to students Scaffolding word problems so that students can organize all the pieces in doable ways Helping students navigate the complex language in a word problem Showing students how to reason about model and discuss word problems Using fun mini lessons to engage students in the premise of a word problem Implementing collaborative structures such as math literature circles to engage students in problem solving Getting the whole school involved in a problem solving challenge to promote schoolwide effort and engagement and Incorporating assessment to see where students are and help them get to the next level Each chapter offers examples charts and tools that you can use immediately The book also features an action plan so that you can confidently move forward and implement the book's ideas in your own classroom Free accompanying resources are provided on the author's website www.drnickinewton.com
