Common Good Uncommon Questions A Primer In Moral Theology:

Common Good, Uncommon Questions ,2014 **Cultural Landscapes** Gabriel R. Ricci,2018-02-06 A dualism between man and nature has been a persistent feature of Western thought and spirituality from ancient times to the present. The opposition of mind and body, consciousness and world, has tended to obscure the ways in which humans are ecologically part of interconnected systems, some of which are obvious while others operate in hidden but life-sustaining ways. *Cultural Landscapes* explores the physical ways in which we are intimately linked to the land and the intellectual and aesthetic connections human consciousness has with the landscape. Following the editor's introductory essay, the lead article by Jame Schaeffer, "Quest for the Common Good: A Collaborative Public Theology for a Life-Sustaining Climate," assesses the lightning rod issue of global warming in the context of a public and ecumenical theology and sets the tone for this normative assessment of our relationship with nature. Likewise, David Kenley's essay "Three Gorges be Dammed: The Philosophical Roots of Environmentalism in China" reveals the traditional philosophical and cultural values that can sustain a vital environmentalism in the East. David Brown's historical insights into the use of the American landscape to define historical writing complement Patricia Likos Ricci's historical treatment of nineteenth-century landscape painting and the first call to preserve wilderness in the United States. Matt Willen, An Feochszn, and David Martinez, "What Worlds are Made of: The Lakota Sense of Place," both demonstrate how space is transformed into place through song and mythic tales. On a metaphysical note, Andreas Philippopoulos Mihalopolos' essay "On the Line of the Horizon: Anxiety in de Chirico's Metaphysical Spaces" provides the reader with psychological and existential insights into the disorienting paintings of de Chirico. And Gabriel Ricci's concluding essay tours the landscape that underpins Heidegger's ontological speculations. The contributions to this volume are posited on the belief that culture, society, and human history are ultimately rooted in the natural world. This integration may explain why humanity has always looked to nature for moral and ethical guidelines. Gabriel R. Ricci is associate professor of humanities and the chair of the Department of History at Elizabethtown College in Pennsylvania. He is the author of *Time Consciousness: The Philosophical Uses of History*, published by Transaction. **Leader's Guide for Primary Source**

100 Days Closer to Christ William C. Graham, 2014-03-01 We all have moments of grace in our lives glimpses of God's presence and God's mystery The Word made flesh God with us inspires these moments and sometimes lets us see and feel that transformation in grace In *100 Days Closer to Christ* Father William C. Graham invites us to consider these moments and experience the transforming presence of God in our lives These compelling essays invite you to immersion in joyful hope dreams disciplines and promises fond embraces and quiet satisfaction plans and prospects awe and wonder The chapters consider moments of grace through encounters that resemble lectio divina inviting reflections flowing from God's word or the church's life of prayer giving flashes of insight and meaning on a pilgrim's way The essays in *100 Days Closer to Christ* are meant to inspire thoughtful prayer Whether they are seasonal or attitudinal each seeks to stand before Mystery in awe wonder praise and thanksgiving *Forthcoming Books* Rose Arny, 1997-04 *Claiming the Courageous Middle* Shirley A. Mullen, 2024-04-16 Today's political and cultural polarization has led to suspicion and animosity in our churches our workplaces and even our families It has also led to a false sense that our options are limited to choosing a side But there is a better way Shirley Mullen invites readers to claim the powerful redemptive potential of the courageous middle Far from being a place of bland averaging moral cowardice wobbling indecisiveness or lazy indifference the courageous middle is a place where thoughtful individuals work with urgency to foster attentive rather than dismissive listening in order to garner what is true and praiseworthy even from those with whom they disagree Their Christian faith which makes it impossible for them to align themselves fully with one side or the other uniquely equips them to call their communities to imagine a more hopeful grace filled future This book offers a Christian theological framework for the work of middle space drawn from the Old and New Testaments It also includes practical advice on how to prepare for this work examples of those who have called

their communities to alternatives beyond binary options and discussion questions

Leadership, God's Agency, and Disruptions Mark Lau Branson, Alan J. Roxburgh, 2021-02-16 Leaders in congregations and Christian organizations wrestle with an unraveling of the world in which they have little experience and training While they are offered unending resources by experts on leadership some with claims to biblical blueprints the challenges seem mismatched to those methods Branson and Roxburgh frame the situation as one in which modernity's wager the conviction that God is not necessary for life and wisdom and meaning has defined the Western imagination Because churches and leaders are colonized by this ethos even when God is named and beliefs are claimed approaches to leadership are blind to God's agency Branson and Roxburgh approach this challenge as a work in practical theology attending to our cultural context narratives of God's disruptive initiatives in Scripture and a reshaping of leadership theories with a priority on God's agency With years of experience as teachers consultants and guides they name practices which lead to more faithful participation Leadership God's Agency and Disruption is wide ranging in cultural and biblical scholarship challenging in its engagement with numerous leadership studies and practical with its focus toward the on the ground life of churches and organizations

God Hides Ned Wisniewski, 2010-02-18 GOD HIDES is a critique of contemporary christian faith It argues that faith should not be understood as the result of spiritual seeking but rather as rooted in moral living Starting with the challenge of Bonhoeffer's religionless Christianity it argues for a common morality and then shows how that morality leads to Christian faith The thesis is that in order for us to serve our neighbor whom we see and not seek God whom we cannot see God hides Drawing upon the rich tradition of religious thought from Luther Kant Kierkegaard and Bonhoeffer this book offers a way past the religious battles in the current culture war Wisniewski points to the emptiness of the Christian promise of salvation in a time when virtually no one believes there is a hell to be saved from Instead he shows that it makes sense today in view of our nuclear arsenals and environmental crisis to claim that life is threatened by death Our present circumstances provide new understanding into the biblical view that primeval chaos threatens creation A distinctive feature of the book is that it develops the traditional understanding that sin and death are powers threatening creation Christian faith accordingly is best understood as the living hope that creation will be saved from the violence and destruction that threaten to return it to chaos
