### **Cases on Communication Disorders in Culturally Diverse Populations**

Scott, Diane M., 2020-01-03 Communication disorders are impairments in the ability to receive, send, process, and comprehend hearing language and/or speech. While the number of culturally diverse populations is growing in the United States, speech language pathologists and audiologists lack information on serving these culturally diverse populations appropriately and effectively. *Cases on Communication Disorders in Culturally Diverse Populations* is an essential research publication that provides culturally competent hearing language and speech services and cases across age groups, communication disorders, and culturally diverse populations. These case studies offer a practical and detailed means for assisting professionals in providing culturally appropriate speech language and hearing services. Highlighting various topics such as counseling, language learning, and genetics, this book is indispensable for speech language pathologists, audiologists, counselors, administrators, academicians, researchers, practitioners, and students.

encourage the professional to ask questions about the child's internal experiences beyond a diagnosis of the external symptoms. Chapters bring together a range of international experts working in the field and interweave theories, practice and challenging and complex case material as well as identifying mistakes that therapists can avoid while working with children who dissociate. Filled with practical tools and examples, this book is a vital resource for professionals to enrich their practice with children who dissociate.

**Articulating Childhood Trauma** Kamayani Kumar, 2024-02-27 The volume addresses the pertinent need to examine childhood trauma revolving around themes of war, sexual abuse and disability. Drawing narratives from spatial, temporal and cultural contexts, the book analyses how conflict, abuse, domestic violence, contours of gender construction and narratives of ableism affect a child's transactions with society. While exploring complex manifestations of children's experience of trauma, the volume seeks to understand the issues related to translatability, representation of trauma bearing in mind the fact that children often lack the language to express their sense of loss. The book, in its study of childhood trauma, does a close exegesis of select literary pieces, drawings done by children, memoirs and graphic narratives. Academicians and research scholars from the disciplines of childhood studies, trauma studies, resilience studies, visual studies, gender studies, cultural studies, disability studies and film studies stand to benefit from this volume. The ideas that have been expressed in this volume will richly contribute towards further research and scholarship in this domain.

**The Child Survivor** Joyanna L. Silberg, 2021-08-18 In this second edition of Joyanna Silberg's classic *The Child Survivor*, practitioners who treat dissociative children will find practical tools that are backed up by recent advances in clinical research. Chapters are filled with examples of clinical dilemmas that can challenge even the most expert child trauma clinicians, and Silberg shows how to handle these dilemmas with creativity, attunement and sensitivity to the adaptive nature of even the most complex dissociative symptoms. The new edition addresses the impact of the Covid-19 pandemic on children and provides tips for working with traumatized children in telehealth. A new chapter on organized abuse explains how children victimized by even the most sadistic crimes can respond well to therapy. Clinicians on the front lines of treatment will come away from the book with an arsenal of therapeutic techniques that they can put into practice right away, limiting the need for restrictive hospitalizations or out-of-home placements for their young clients.
