**Commanding Right and Forbidding Wrong in Islamic Thought** Michael Cook, 2000 What kind of duty do we have to try to stop other people doing wrong The question is intelligible in just about any culture but few of them seek to answer it in a rigorous fashion The most striking exception is found in the Islamic tradition where commanding right and forbidding wrong is a central moral tenet already mentioned in the Koran As an historian of Islam whose research has ranged widely over space and time Michael Cook is well placed to interpret this complex subject His book represents the first sustained attempt to map the history of Islamic reflection on this obligation It covers the origins of Muslim thinking about forbidding wrong the relevant doctrinal developments over the centuries and its significance in Sunni and Shi ite thought today In this way the book contributes to the understanding of Islamic thought its relevance to contemporary Islamic politics and ideology and raises fundamental questions for the comparative study of ethics Commanding Right and Forbidding Wrong in

**Democracy** Mohamed Zayani, 2022-10-13 In the tumultuous aftermath of the Arab uprisings Tunisia charted a unique path that has earned it praise as a beacon of hope in a troubled region Since the 2011 revolution it has embraced a new culture of democracy based on pluralism civilian rule and the peaceful transfer of power Equally noteworthy are the country's burgeoning civil society its various institutional reforms and its progressive new constitution which upholds individual freedoms and champions women's rights But in spite of these achievements daunting challenges remain Although Tunisia has succeeded in defusing many crises its transition has been uneasy its democracy is fragile and its future continues to be uncertain As the country emerges from decades of authoritarian rule it faces enormous political social economic and security challenges which are undermining its peaceful evolution It is this state of fragility that A Fledgling Democracy seeks to capture Focusing on the socio political dynamics that have unfolded in this North African nation since the revolution the contributors to this volume shed light on how Tunisia has navigated its first decade of democratic transition and reflect on what the ongoing changes and challenges mean for the country today **Beyond Jihad** Lamin O. Sanneh, 2016

Over the course of the last 1400 years Islam has grown from a small band of followers on the Arabian peninsula into a global religion of over a billion believers How did this happen The usual answer is that Islam spread by the sword believers waged jihad against rival tribes and kingdoms and forced them to convert Lamin Sanneh argues that this is far from the whole story Beyond Jihad examines the origin and evolution of the African pacifist tradition in Islam beginning with an inquiry into the faith's origins and expansion in North Africa and its transmission across trans Saharan trade routes to West Africa The book focuses on the ways in which without jihad the religion spread and took hold and what that tells us about the nature of religious and social change At the heart of this process were clerics who used religious and legal scholarship to promote Islam Once this clerical class emerged it offered continuity and stability in the midst of political changes and cultural shifts helping to inhibit the spread of radicalism and subduing the urge to wage jihad With its policy of religious and inter ethnic accommodation this pacifist tradition took Islam beyond traditional trade routes and kingdoms into remote districts of the Mali Empire instilling a patient Sufi inspired and jihad negating impulse into religious life and practice Islam was successful

in Africa Sanneh argues not because of military might but because it was made African by Africans who adapted it to a variety of contexts      Sharia and Social Engineering R. Michael Feener, 2013-12 Arguing for new consideration of calls for implementation of Islamic law as projects of future oriented social transformation this book presents a richly textured critical overview of the day to day workings of one of the most complex experiments with the implementation of Islamic law in the contemporary world that of post tsunami Aceh
