Commitment, Character, and Citizenship Hanan A. Alexander, Ayman K. Agbaria, 2012 As liberal democracies include increasingly diverse and multifaceted populations the longstanding debate about the role of the state in religious education and the place of religion in public life seems imperative now more than ever The maintenance of religious schools and the planning of religious education curricula raise a profound challenge Too much state supervision can be conceived as interference in religious freedom and as a confinement of the right to cultural liberty Too little supervision can be seen as neglecting the development of the liberal values required to live and work in a democratic society and as abandoning those who within their communities wish to attain a more rigorous education for citizenship and democracy This book draws together leading educationalists philosophers theologians and social scientists to explore issues problems and tensions concerning religious education in a variety of international settings The contributors explore the possibilities and limitations of religious education in preparing citizens in multicultural and multi religious democratic societies On the Edge Ina ter Avest, 2013-02-12 For the first time leading scholars in Religious Education and Citizenship Education reflect upon the making of their theoretical framework in honour of Siebren Miedema In this Liber Amicorum in retrospect these scholars recognize implicitly or more explicitly critical incidents and they honour critical persons for the decisive voice each of them had in the articulation of the theoretical frame of reference the scholars developed in the field of pedagogy of religion s and citizenship education Or to use the words Siebren Miedema prefers the field of religious citizenship education The eminence grise in the field of Pedagogy is brought together in this volume like John Hull Bob Jackson and Wolfram Weisse scholars from the United States of America like Jack Seymour and Mary Elizabeth Moore scholars from Latin America like G nther Dietz scholars from the Netherlands like Cok Bakker Chris Hermans Henk Kuindersma Alma Lanser Wilna Meijer Bram de Mynck and Doret de Ruyter scholars from Western Europe like Hans G nther Heimbrock and Friedrich Schweitzer scholars from Eastern Europe like Fedor Kozyrev scholars from up North like Geir Skeie scholars from down South like Cornelia Roux and Marian De Souza They all responded to the question of the editor Ina ter Avest to reflect upon the relationship between their biography and their developed theoretical framework For everybody interested in the field of religious citizenship education this volume offers a thorough introduction to their theories We hope this comprehensive book will provoke readers to balance on the edge of different perspectives and to stimulate the development of their own line of thought on religious citizenship education *Presidential Message on Spoliations Committed by France on Commerce of the United States* United States. Department of State, 1826 *The Committed Workforce* Yannis Markovits, 2012-12-21 Organizational commitment and job satisfaction are two interrelated work attitudes and the kind of relationship which is influenced by the economic sector and the type of employment Employees develop commitment profiles that relate differently to job satisfaction and its facets Furthermore individuals experience two different regulatory foci that relate to the forms of

organizational commitment and these foci develop into separable characters that moderate the commitment satisfaction relationship Since commitment predicts organizational citizenship behaviours and satisfaction relates to these behaviours then job satisfaction mediates the relationship between organizational commitment and organizational citizenship behaviours OCBs Study 1 investigates the research hypotheses based on the moderating role of the economic sector in relation to job satisfaction organizational commitment relationships especially in regard to the forms of commitment and the facets of satisfaction extrinsic satisfaction and intrinsic satisfaction Overall 618 employees successfully completed the questionnaires 258 from private sector companies and 360 from the public administration Then distinguishable organizational commitment profiles were developed and constructed from the forms or constructs of commitment Two different samples are used in Study 2 in order to test the relevant hypotheses 1 119 employees from the private sector and 476 from the public sector Study 3 uses the concept of regulatory focus where the two foci relate differently to forms of organizational commitment and these two states moderate the satisfaction commitment relationship furthermore individuals develop four separable regulatory focus characters based on the two major regulatory foci Moreover the moderating intervention is crucially influenced by the employment status of the individuals The research hypotheses developed in this part are tested through two samples of employees 258 working in the private sector and 263 in the public sector Study 4 examines the mediating role of job satisfaction on the organizational commitment organizational citizenship behaviours relationship It argues that job satisfaction mediates the relationship between the forms of commitment and OCBs and furthermore job satisfaction more strongly mediates the relationship between these forms and loyal boosterism one of the OCB dimensions The relevant hypotheses were tested through a combined sample of 646 employees equally drawn from the two sectors The results are discussed implications and contributions analyzed and limitations and recommendations for future research presented

Defining Australian Citizenship Brian Galligan, John Chesterman, 2016-10-18. During our first century as a nation, citizenship for a majority of Australians has meant the enjoyment of progressive political, social, economic, and legal rights. Yet many groups in our society have been denied the usual benefits of citizenship, including the vote, equality before the law, freedom of speech, religion, and movement, health care, education, and a minimum wage. Unlike that of the United States of America, Australia's constitution provides no definition of the rights and obligations of its citizens. John Chesterman and Brian Galligan have searched Commonwealth and State legislation, parliamentary debates, law reports, official correspondence, United Nations conventions, and works of historical scholarship, and provide surprising evidence to show that the concept of citizenship in Australia is an elusive but crucial one. It pervades Australian politics and has determined the course of individual lives in many different areas, including female suffrage, the White Australia Policy, compulsory voting, Aboriginal rights, equal pay, sex discrimination, wartime internment, and Menzies' attempt to ban the Communist Party. In *Defining Australian Citizenship*, they reveal for the first time the complexity of Australian legislation as it has tried over the years to accommodate changing ideas about exactly what citizenship entails and
