unsure of their role in their children's learning and the best ways to help their children to succeed academically. Moreover, with the changes in how math and literacy are being taught, parents often struggle with helping even first-grade children with their homework. In this book, we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education, communicate with teachers, and support their children in learning mathematics and literacy. After providing an overview of the current educational climate and tips for communication with teachers, we share strategies and suggestions parents can use to assist their children in language arts and mathematics. We provide detailed descriptions of activities, games, books, and conversations that connect with what children will be learning at each grade level.

**Math in a Minute, Grade 4** Brighter Child, 2014-02-03. Math in a Minute for grade 4 includes essential math skills such as finding factors and multiples, analyzing patterns and relationships, and understanding the place value system. This 96-page workbook also includes adding, subtracting, multiplying, and dividing multi-digit whole numbers, drawing and identifying geometric lines and angles, and measuring angles, and more. Math in a Minute has fun math activities with pages separated by skill theme and completion time. Activities range in complexity from 1 minute to 10 minutes depending on the grade level. This allows children to gradually build their way up to more and more intense work. The repetition gives children an opportunity to reinforce basic skills and concepts. Beat the clock for fast-paced math practice.

*Every Math Learner, Grades K-5* Nanci N. Smith, 2017-02-01. Differentiation that shifts your instruction and boosts ALL student learning. Nationally recognized math differentiation expert Nanci Smith debunks the myths surrounding differentiated instruction, revealing a practical approach to real learning differences. Theory lite and practice heavy, this book provides a concrete and manageable framework for helping all students know, understand, and even enjoy doing mathematics. Busy K-5 mathematics educators learn to provide practical structures for assessing how students learn and process mathematical concepts, design, implement, manage, and formatively assess and respond to learning in a standards-aligned differentiated classroom, and adjust current instructional materials to better meet students' needs. Includes classroom videos and a companion website.
