Caring Democracy Markets Equality And Justice:

Caring Democracy Joan C. Tronto, 2013-04-12 A rethinking of American democracy that puts caring responsibilities at the center Americans now face a caring deficit there are simply too many demands on people's time for us to care adequately for our children elderly people and ourselves At the same time political involvement in the United States is at an all time low and although political life should help us to care better people see caring as unsupported by public life and deem the concerns of politics as remote from their lives Caring Democracy argues that we need to rethink American democracy as well as our fundamental values and commitments from a caring perspective What it means to be a citizen is to be someone who takes up the challenge how should we best allocate care responsibilities in society Joan Tronto argues that we need to look again at how gender race class and market forces misallocate caring responsibilities and think about freedom and equality from the standpoint of making caring more just The idea that production and economic life are the most important political and human concerns ignores the reality that caring for ourselves and others should be the highest value that shapes how we view the economy politics and institutions such as schools and the family Care is at the center of our human lives but Tronto argues it is currently too far removed from the concerns of politics Caring Democracy traces the reasons for this disconnection and argues for the need to make care not economics the central concern of democratic political life

Performing care

Amanda Stuart Fisher, James Thompson, 2020-03-26 This electronic version has been made available under a Creative Commons BY NC ND open access license This edited collection brings together essays presenting an interdisciplinary dialogue between theatre and performance and the fields of care ethics care studies health and social care The book advances our understanding of performance as a mode of care challenging existing debates in this area by rethinking the caring encounter as a performed embodied experience and interrogating the boundaries between care practice and performance Through an examination of a wide range of different care performances drawn from interdisciplinary and international settings the book interrogates how performance might be understood as caring or uncaring careless or careful and correlatively how care can be conceptualised as artful aesthetic authentic or even fake and staged

Care Justice

Nancy R. Hooyman, 2024-08-27 This book develops a care justice framework to critique and disrupt current policies and reframe a policy blueprint for elevating a just organization of care for unpaid family caregivers and underpaid home care workers assisting older adults In doing so Hooyman invites readers to envision a society that fully values the essential work of care The book is distinctive in its analysis of the interrelationships among both types of care laborers who often face structural constraints on their decision to care and whose work is devalued and marginalized Their care work affects every member of society but it is generally invisible to others and its economic value is rarely recognized by policymakers How care work is organized and unrewarded typically has the most financial physical and emotional costs for women people of color and immigrants across the life course Inequities for care workers by race immigrant status class and sexual orientation are

rooted in systemic racism sexism classism xenophobia and homophobia In this book policy priorities and change strategies are reframed to attain the six core components of a care justice framework which include fundamental structural changes to elevate care work ensure meaningful choice to care and reduce systemic inequities faced by care workers This framework is informed by feminism Black feminism intersectionality and care theory By conceptualizing care justice the author aims to stimulate new discourse and action related to the care of older adults the most important work in society and make the seemingly unattainable attainable This timely book will be salient to anyone committed to diversity equity and inclusion and with an interest in policy gerontology disability studies ethnic studies feminist studies social justice social work and social welfare

Justice, Care, and Value Thomas Randall,2023-07-21 In *Justice Care and Value* Thomas Randall argues for the radical potential of care ethics as a distinct and preferable theory of distributive justice Advancing the feminist literature this book defends a vision of society that can best enable caring relations to flourish Specifically Randall proposes a values driven theory of care ethics that derives normative criteria for evaluating the moral worth of caring relations and their surrounding institutions via a classification of the values of care They argue that such a theory gives us unique and meaningful solutions to contemporary questions of distributive justice across personal political global and intergenerational domains In doing so the book makes significant strides to engage care ethics with the broader moral and political philosophy literature Topical and interdisciplinary Randall demonstrates that care ethics has the conceptual resources to ground distributive theories of socialism territorial and natural resource rights obligations to future generations and historic redress The book will be of great interest to academics researchers and students of feminist philosophy but also of liberalism political economy and theories of global and intergenerational justice

Constitutional Change and Popular Sovereignty Maria Cahill,Colm Ó Cinnéide,Seán Ó Conaill,Conor O'Mahony,2021-07-15 This collection focuses on the particular nexus of popular sovereignty and constitutional change and the implications of the recent surge in populism for systems where constitutional change is directly decided upon by the people via referendum It examines different conceptions of sovereignty as expressed in constitutional theory and case law including an in depth exploration of the manner in which the concept of popular sovereignty finds expression both in constitutional provisions on referendums and in court decisions concerning referendum processes While comparative references are made to a number of jurisdictions the primary focus of the collection is on the experience in Ireland which has had a lengthy experience of referendums on constitutional change and of legal political and cultural practices that have emerged in association with these referendums At a time when populist pressures on constitutional change are to the fore in many countries this detailed examination of where the Irish experience sits in a comparative context has an important contribution to make to debates in law and political science

The Core of Care Ethics S. Collins,2015-02-17 The ethics of care has flourished in recent decades yet we remain without a succinct statement of its core theoretical commitment This study argues for a simple care ethical slogan dependency relationships generate

responsibilities It uses this slogan to unify specify and justify the wide range of views found within the care ethical literature

After Disruption Trevor Owens,2024-05-06 The digital age is burning out our most precious resources and the future of the past is at stake In After Disruption A Future for Cultural Memory Trevor Owens warns that our institutions of cultural memory libraries archives museums humanities departments research institutes and more have been disrupted and largely not for the better He calls for memory workers and memory institutions to take back control of envisioning the future of memory from management consultants and tech sector evangelists After Disruption posits that we are no longer planning for a digital future but instead living in a digital present In this context Owens asks how we plan for and develop a more just sustainable and healthy future for cultural memory The first half of the book draws on critical scholarship on the history of technology and business to document and expose the sources of tech startup ideologies and their pernicious results revealing that we need powerful and compelling counter frameworks and values to replace these ideologies The second half of the book makes the case for the centrality of maintenance care and repair as interrelated frameworks to build a better future in which libraries archives and museums can thrive as sites of belonging and connection through collections

Introducing Human Geographies Kelly Dombroski,Mark Goodwin,Junxi Qian,Andrew Williams,Paul Cloke,2024-07-09 Introducing Human Geographies is a travel guide into the academic subject of human geography and the things that it studies The coverage of the new edition has been thoroughly refreshed to reflect and engage with the contemporary nature and direction of human geography This updated and much extended fourth edition includes a diverse range of authors and topics from across the globe with a completely revised set of contributions reflecting contemporary concerns in human geography Presented in four parts with a streamlined structure it includes over 70 contributions written by expert international researchers addressing the central ideas through which human geographers understand and shape their subject It maps out the big foundational ideas that have shaped the discipline past and present explores key research themes being pursued in human geography s various sub disciplines and identifies emerging collaborations between human

geography and other disciplines in the areas of technology justice and environment This comprehensive stimulating and cutting edge introduction to the field is richly illustrated throughout with full colour figures maps and photos The book is designed especially for students new to university degree courses in human geography across the world and is an essential reference for undergraduate students on courses related to society place culture and space **The Discourse of Biorights** José-Antonio Seoane,Oscar Vergara,2024-09-30 This book provides answers to the questions that biomedical and biotechnological research has posed to our societies by proposing the introduction of biorights It shows how bioscience affects our individual and social lives by discussing and answering important questions such as Are we becoming more vulnerable and unable to protect ourselves How can we ensure fairness and justice with regards to the access to health care Are human dignity autonomy and equality at risk Do we need new and special rights neurorights genetic rights What is the meaning and scope of the right to life health privacy or non discrimination Biorights are the suggested solution for dealing with these challenges Healthcare professionals bio researchers policy makers scholars and citizens will in this book find a guide to knowing how bioscience affects our lives Furthermore this book provides a comprehensive method for biomedical and biotechnological decision making that comprises human or basic rights dimensions alongside technical and ethical dimensions Chapters 1 12 and 18 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) **Researching with Care** Tula Brannelly,Marian Barnes,2022-10-24 This book demonstrates how an ethics of care can help researchers work through challenges and solve complex issues Keeping social justice at the heart of research the book shows how an ethics of care can provide a systematic approach supporting good judgements about research practices from inception to impact *Social Work Theory and Ethics* Dorothee Hölscher,Richard Hugman,Donna McAuliffe,2023-03-17 This reference work addresses the ideas that shape social work Much of the social work literature addresses questions of theory and ethics separately so that the body of thought that is represented in social work scholarship and research creates a distinction between them However the differences between these categories of thought can be somewhat arbitrary This volume goes beyond this simple separation of categories Although it recognises that questions of theory and ethics may be addressed distinctly the connections between them can be made evident and drawn out by analysing them alongside each other Social work s use and development of theory can be understood in two complementary ways First theory from the social sciences and other disciplines can be applied for social work second considered systematic examinations of practice have enabled theory to be developed out of social work These different approaches are usually referred to as theory for practice and practice theory The advancement of social work theory occurs often through the interplay between these two dimensions through research and scholarship in the field Similarly social work ethics draw on principles and concepts that have their roots in philosophical inquiry and also involve applied analysis in the particular issues with which social workers engage and their practices in doing so In this way social work contributes to wider debates

through advancement of its own perspectives and knowledge gained through practice Social Work Theory and Ethics Ideas in Practice offers a unique approach by bringing together the complementary dimensions of theory with each other and at the same time with ethical research and scholarship It presents an analysis of the ideas of social work in a way that enables connections between them to be identified and explored This reference is essential reading for social work practitioners researchers policy makers academics and students as well as an invaluable resource for universities research institutes government ministries and departments major non governmental organisations and professional associations of social work

Researching Justice Agatha Herman, Joshua Inwood, 2024-07-31 Understanding justice for many begins with questions of injustice This volume pushes us to consider the extent to which our scholarly and everyday practices are or can become socially just In this edited collection international contributors reflect on what the practice of justice means to them and discuss how it animates and shapes their research across diverse fields from international relations to food systems political economy migration studies and criminology Giving insights into real life research practices for scholars at all levels this book aids our understanding of how to employ and live justice through our work and daily lives **Reckoning** Deva R.

Woodly, 2022 Examining the significance of the Movement for Black Lives Reckoning uncovers a broadly applicable argument for the democratic necessity of social movements Barack Obama famously said that the purpose of social movements is to get a seat at the table However as Deva Woodly argues in Reckoning a sweeping account of the meaning and purpose of the Movement for Black Lives M4BL the value of such movements is something much more profound they are necessary for the health and survival of democracy Drawing from on the ground interviews with activists in the movement Woodly analyzes the emergence of the M4BL its organizational structure and culture and its strategies and tactics She also shows how a unique political philosophy Radical Black Feminist Pragmatism served as an intellectual foundation of the movement and documents the role it played in transforming public meanings public opinion and policy Interweaving theoretical and empirical observations throughout Woodly provides both a unique portrait of the movement and a powerful explanation of the labor social movements do in democracy A major work that speaks to both scholars and activists Woodly's account of the rise and spread of M4BL will reshape our understanding of why the movement is so important and so necessary for democracy
