study was undertaken In its prosecution the effort has continually been made to avoid the complexities of too great detail and to reduce the information which ought to be given to the simplest and most intelligible form In order to do this it is necessary to know with some definiteness two things 1 Who are the persons who make use of financial reports from colleges and 2 What do those who examine such reports wish to ascertain from them From the somewhat extended inquiry which has been made it may be stated with definiteness that the reports of the financial officers of colleges are read by very few people and these may be classified in the following three groups 1 Trustees alumni and friends of the institution who are directly interested in its welfare 2 Men of means who contemplate gifts to colleges or who have made such gifts 3 Individuals and agencies like the United States Bureau of Education engaged in a study of educational methods and cost About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
