

These standard features make the Carrier furnace a reassuring choice

- ① Steel heat exchanger provides even heat extraction and ample space between coils for large volume airflow for winter heating or summer cooling. Optional STRATOSTEEL[®] ceramic-coated heat exchanger provides increased durability for longer life. See your Carrier dealer for extended warranty.*
- ② Aluminized steel slotted-port burners provide balanced, quiet combustion.
- ③ Intermittent pilot ignition system (Model 58GS only) eliminates constant pilot flame to save energy.
- ④ Printed-circuit board regulates sequencing and furnace operation. Soft-start blower control activates blower after main burners ignite to eliminate cold air blowing into rooms.
- ⑤ Adjustable blower speed for precise airflow selection.
- ⑥ Direct drive blower motor moves air quietly.
- ⑦ Air filter (not shown) is washable and reusable to save on periodic replacement costs.
- ⑧ Bottom closure panel effectively seals furnace from dust and air leakage inside inlet applications.

Safety Features

- ⑨ Blower door switch shuts off AC power to furnace whenever blower door is opened.
- ⑩ Redundant gas valve on Model 58GP and GS furnaces shuts off gas to burners if one of the valves (pilot or main gas) fails to close completely for any reason.
- ⑪ Power interruption protection (Model 58GS only): In the event of a power failure, the pilot ignition system shuts off its gas supply to both the pilot and main burners. Upon resumption of power, pilot flame is automatically ignited before gas is released to burners (prevents further gas control flow unless pilot flame is "pilot on").
- ⑫ Combustion air switch shuts off furnace when it senses excess heat in the control compartment caused by insufficient combustion air.

*Optional 20 year Warranty available on specific units only. Check dealer for availability and details.
