Jung, 2009-10-13 The most influential unpublished work in the history of psychology When Carl Jung embarked on an extended self exploration he called his confrontation with the unconscious the heart of it was The Red Book a large illuminated volume he created between 1914 and 1930 Here he developed his principle theories of the archetypes the collective unconscious and the process of individuation that transformed psychotherapy from a practice concerned with treatment of the sick into a means for higher development of the personality While Jung considered The Red Book to be his most important work only a handful of people have ever seen it Now in a complete facsimile and translation it is available to scholars and the general public It is an astonishing example of calligraphy and art on a par with The Book of Kells and the illuminated manuscripts of William Blake This publication of The Red Book is a watershed that will cast new light on the making of modern psychology **Reading the Red Book** Sanford L. Drob, 2023-03-28 The long awaited publication of C G Jung's Red Book in October 2009 was a signal event in the history of analytical psychology Hailed as the most important work in Jung's entire corpus it is as enigmatic as it is profound Reading The Red Book by Sanford L Drob provides a clear and comprehensive guide to The Red Book's narrative and thematic content and details The Red Book's significance not only for psychology but for the history of ideas *Lament of the Dead: Psychology After Jung's Red Book* James Hillman, Sonu Shamdasani, 2013-08-26 With Jung's Red Book as their point of departure two leading scholars explore issues relevant to our thinking today In this book of dialogues James Hillman and Sonu Shamdasani reassess psychology history and creativity through the lens of Carl Jung's Red Book Hillman the founder of Archetypal Psychology was one of the most prominent psychologists in America and is widely acknowledged as the most original figure to emerge from Jung's school Shamdasani editor and cotranslator of Jung's Red Book is regarded as the leading Jung historian Hillman and Shamdasani explore a number of the issues in the Red Book such as our relation with the dead the figures of our dreams and fantasies the nature of creative expression the relation of psychology to art narrative and storytelling the significance of depth psychology as a cultural form the legacy of Christianity and our relation to the past and examine the implications these have for our thinking today **The Red Book: Reflections on C.G. Jung's Liber Novus** Thomas Kirsch, George Hogenson, 2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of The Red Book and to

debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung s Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung s Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung s account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians *The Red Book of C.G. Jung* Walter Boechat, 2018-05-08 This book focuses on some of the main aspects and importance of The Red Book for the understanding of the work of C G Jung It sheds light on the great mysteries of human nature and the new dimension uncovered by Jung and Freud the universe of the unconscious and the possible ways to approach it **Jung's Red Book For Our Time** Murray Stein, Thomas Arzt, 2021-09-25 Edited by Murray Stein and Thomas Arzt the essays in the series Jung s Red Book for Our Time Searching for Soul under Postmodern Conditions are geared to the recognition that the posthumous publication of The Red Book Liber Novus by C G Jung in 2009 was a meaningful gift to our contemporary world The Red Book can be considered as a contribution to the Golden Chain aurea catena of the world s imaginative literature reaching back to the ancient Sumerian Epic of Gilgamesh As Jung describes this tradition in a letter to Max Rychner Faust is the most recent pillar in that bridge of the spirit which spans the morass of world history beginning with the Gilgamesh epic the I Ching the Upanishads the Tao te Ching the fragments of Heraclitus and continuing in the Gospel of St John the letters of St Paul in Meister Eckhart and in Dante The Red Book extends the Golden Chain into our era Each of the 18 essays in this third volume of the series Jung s Red Book for Our Time is unique and all of them converge on the central theme of the relevance of The Red Book for people today in search of soul under postmodern conditions This is the third volume of a multi volume series set up on a global and multicultural level and includes essays from the following distinguished Jungian analysts and scholars **The Red Book** Carl Gustav Jung, Ulrich Hoerni, 2009 When Carl Jung embarked on an extended self exploration the result was The Red Book a large illuminated volume he created between 1914 and 1930 However only a handful of people had ever seen it It has since been translated from the original German and is now it is available to scholars and the general public in both a large format version 40 cm height which includes facsimile reproduction of the handwritten German text and color illustrations or the smaller Reader s edition 23 cm height which consists of the English translation and translator s notes **Jung's Red Book for Our Time: Searching for Soul In the 21st Century** Murray Stein, 2022-12-10 Do we like Jung need to leave the spirit of the time and follow the spirit of the depths to call out my soul where are you through the windows of our now post modern homes We live in a digital world of incredible virtual inter connectedness but at the same time fragmented and divided on

many levels including the psychological The pace of life is rapid and ever accelerating The spirit of the time is flux It twitters There is no sense of coherence in the whole The guidance of a transcendent North Star is invisible to the naked eye of consciousness Our existential crisis is not about the individual alone It infects the entire human world like the Covid 19 pandemic Wars between cultural brothers and sisters increasingly dire effects of climate change economic disruptions hunger migration these conditions affect everyone on the planet Is there a spirit of the depths that can take us through this Inferno perhaps toward the emergence of a meaningful narrative that can stabilize the global community and provide a collective sense of supreme meaning This is the search for soul in the 21st Century *Jung's Nietzsche* Gaia

Domenici,2019-07-29 This book explores C G Jung s complex relationship with Friedrich Nietzsche through the lens of the so called visionary literary tradition The book connects Jung s experience of the posthumously published *Liber Novus* The Red Book with his own mis understanding of Nietzsche s Zarathustra and formulates the hypothesis of Jung considering Zarathustra as Nietzsche s *Liber Novus* both works being regarded by Jung as visionary experiences After exploring some visionary authors often compared by Jung to Nietzsche Goethe Holderlin Spitteler F T Vischer the book focuses upon Nietzsche and Jung exclusively It analyses stylistic similarities as well as explicit references to Nietzsche and Zarathustra in *Liber Novus* drawing on Jung s annotations in his own copy of Zarathustra The book then uses *Liber Novus* as a prism to contextualize and understand Jung s five year seminar on Zarathustra all the nuances of Jung s interpretation of Zarathustra can be fully explained only when compared with *Liber Novus* and its symbology One of the main topics of the book concerns the figure of Christ and Nietzsche s and Jung s understandings of the death of God **Journey into Jung's Red Book:**

Liber Primus Jules Okapi,2014-01-24 A personal and theoretical look at *Liber Primus* the first of the collection of books written by psychologist Carl Jung that were collectively entitled The Red Book Unpublished until October of 2009 The Red Book is considered by many including Jung himself to be the foundation of all of Jung s groundbreaking theories and writings to follow **Answer to Jung** Lynn Brunet,2018-11-08 The Red Book is C G Jung s record of a period of deep penetration

into his unconscious mind in a process that he called active imagination undertaken during his mid life period *Answer to Jung* Making Sense of The Red Book provides a close reading of this magnificent yet perplexing text and its fascinating images and demonstrates that the fantasies in The Red Book are not entirely original but that their plots characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry It argues that the fantasies may be memories of a series of terrifying initiatory ordeals possibly undergone in childhood using altered or spurious versions of these Masonic rites It then compares these initiatory scenarios with accounts of ritual trauma that have been reported since the 1980s This is the first full length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a message in a bottle that would someday come ashore *Answer to Jung* brings its message to shore providing a coherent but disturbing

interpretation of each of the fantasies and their accompanying images Chapters Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Jung, Dante, and the Making of the Red Book: Of Fire and Form Tommaso Priviero, 2023-08-04 This book explores the genesis of the Red Book or Liber Novus through the lens of Jung's lifelong confrontation with Dante and in doing so provides the first ever thorough comparative analysis of the intertextual and symbolical correspondences between Liber Novus and the Commedia Starting from Jung's multifaceted fascination with Dante and his pivotal role in the former's visionary material at historical hermeneutical and psychological levels the book challengingly envisions Liber Novus as Jung's Divine Comedy This work finds a new way of approaching Jung's understanding of concepts such as visionary works and visionary mind and considers how this approach can enhance our vision of depth psychology Through various thematics such as the metanoia and the symbolism of animals as well as the transformative role of the feminine and the erotic and spiritual imagery of the soul this work revolves around the Jung-Dante correlation Offering an original perspective within the field of Jungian and Dante scholarship this book will be of great interest to academics and postgraduate students studying in the areas of Jung-Dante analytical psychology depth psychology hermeneutics and Western esoteric currents and practices The book will also appeal to Jungian analysts and psychoanalysts more broadly

Jung's Red Book for Our Time Murray Stein, Thomas Arzt, 2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness as Max Weber wrote already a century ago This collective dark night of the soul is driven by climate change related disasters rapid technological innovations and opaque geopolitical realignments In the wake of what policy analysts refer to as Westlessness the post-modern age is characterized by incessant distractions urgent calls to responsibility and in humanly short deadlines which result in a general state of exhaustion and burnout The hovering sense of living in a time frame that is post-histoire induces states of confusion on a personal level as well as in the realm of politics Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis Thinkers scholars and Jungian analysts are increasingly looking to C.G. Jung's monumental oeuvre The Red Book as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus The essays in this series on Jung's Red Book for Our Time Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work
