**Jackal** John Follain,2011-07 The biography of the twentieth century s most potent and ruthless terrorist Carlos the Jackal with exclusive revelations about his life his missions and his ultimate The Films of Carlos Saura Marvin

D'Lugo,2021-01-12 Spanish filmmaker Carlos Saura who began his career under the censorship of Franco s regime has forged an international reputation for his unique cinematic treatment of emotional and spiritual responses to repressive political conditions In films such as Carmen and El Dorado where reality and fantasy are deliberately fused together Saura reveals the illusions of Franco s mythologized Spain a chaste Catholic and heroic Spain of the Golden Age that tend to isolate Spaniards from the rest of Europe from each other and from their own individuality In this first English language book on Saura Marvin D Lugo looks at the social and artistic forces behind this film auteur s highly personal cinema Tracing Saura s career over three decades D Lugo discusses each work from Hooligans 1959 a realist film about a Madrid street gang member trying to become a bullfighter to The Dark Night 1989 a film dealing with the persecution of the religious reformer St John of the Cross in the late sixteenth century Throughout he argues that Saura s cinematic style results from a highly original response to the political and historical constraints of Spanish culture D Lugo shows how in order to explore the complex cultural politics of Spanishness as it was institutionalized under Franco Saura frames his narrations through the eyes of characters who question the forces that shape personal and collective identity Moving beyond the limits of traditional

auteur studies this book addresses the relationship between the filmmaker and the cultural ideology that historically has thwarted and manipulated the expressions of individuality in Spanish society

**The Return of the Mexican Gray Wolf**  
Bobbie Holaday, 2016-12-15 The return of the Mexican gray wolf to Arizona's Blue Range in 1998 marked more than a victory for an endangered species Long hated by ranchers the gray wolf had been hunted to the brink of extinction until one woman took on the challenge of restoring it to its natural habitat Inspired by the plight of the Mexican gray wolf retiree Bobbie Holaday formed the citizens advocacy group Preserve Arizona's Wolves P A W S in 1987 and embarked on a crusade to raise public awareness She soon found herself in the center of a firestorm of controversy with environmentalists taking sides against ranchers and neighbors against neighbors This book tells her story for the first time documenting her eleven year effort to bring the gray wolf back to the Blue As Holaday quickly learned ranchers exerted considerable control over the state legislature and politicians in turn controlled decisions made by wildlife agencies Even though the wolf had been listed as endangered since 1976 opposition to it was so strong that the Arizona Game and Fish Department had been unable to launch a recovery program In *The Return of the Mexican Gray Wolf* Holaday describes first hand the tactics she and other ordinary citizens on the Mexican Wolf Recovery Team adopted to confront these obstacles Enhanced with more than 40 photographs 32 in color her account chronicles both the triumphs of reintroduction and the heartbreaking tragedies the wolves encountered during early phases Thanks to Holaday's perseverance eleven wolves were released into the wild in 1998 and the Blue Range once again echoed with their howls Her tenacity was an inspiration to all those she enlisted in the cause and her story is a virtual primer for conservation activists on mobilizing at the grassroots level *The Return of the Mexican Gray Wolf* shows that one person can make a difference in a seemingly hopeless cause and will engage all readers concerned with the preservation of wildlife All royalties go to the Mexican Wolf Trust Fund administered by the Arizona Game and Fish Department

*The Brujo's Way* Gerald W. McFarland, 2014-03-15 Don Carlos Buenaventura a powerful brujo in his sixth life practices a benign form of sorcery based on his motto Do no harm His great powers derive from intensive training in heightened awareness akin to Eastern yogic disciplines rather than from incantations spells or aid from demon allies He is accidentally born in 1684 into an aristocratic Catholic family in Mexico City a social and religious milieu in which his identity as a brujo if known would put him in mortal danger In repressing any sign that he is other than an ordinary young man he forgets both his brujo powers and who he really is Exiled at nineteen to the remote frontier town of Santa Fe New Mexico he is exposed during the journey northward to wild desert landscapes that awaken his forgotten powers In Santa Fe he resumes his conventional persona to protect what he now recognizes is his true identity and is caught in the tension of trying to live two lives An arduous return trip to Mexico City and back further intensifies his brujo powers leading to many adventures including dangerous encounters with an evil sorcerer an Apache war party and a woman devotee of an ancient Aztec goddess and also stimulates his recall in dreams of his brujo training in past lives A chance meeting in Mexico City with a woman

trained in Tantric spirituality is life changing opening him to other dimensions of consciousness Returning to Santa Fe he faces the task of learning to unite his Brujo s Way with his new spiritual path **French Ghost** Corinne

Hartson,2017-09-13 The rise of consumerism in the twentieth and twenty first centuries radically changed the way we perceive ourselves and the world around us And as it has throughout history the social construct of ideal masculinity both reflects and responds to that lived reality helping individuals adapt Through a close study of Spanish film of the twentieth and twenty first centuries this book investigates hegemonic or dominant masculinity in the wake of dramatic consumer changes that occurred in Spain It explores the ways in which masculine identity as represented in Spanish film positions itself in relation to desire and consumption focusing especially on representations of hegemonic masculinity from the almost 40 year dictatorship of General Francisco Franco through the transition to democracy and into the early 1990s Using psychoanalytic theory as employed primarily by Todd McGowan and Slavoj i ek this book analyzes cinematic representations of hegemonic masculine models along with those portrayed as less favorable to understand how political social and economic changes in Spain in the twentieth and early twenty first centuries affect the process of masculine identity formation In the shift from a society of prohibition to a society of commanded enjoyment hegemonic masculinity as represented in Spanish film changes dramatically initially organizing itself around prohibition and self renunciation in the early Franco dictatorship and later with neoliberal reforms and mass media promotion of consumerist values starting in the 1950s reorienting itself around desire and enjoyment embodied for example in the sexually promiscuous fashionable young man of the 1970s Personal pleasure and the satisfaction of one s desires replace submission obedience and self abnegation leading to a reconstruction of masculine identities in a social context that appears increasingly fragmented plural and individualistic The primary innovation of this text involves the repositioning of consumerism as a fundamental force in the formation of Spanish masculinity and showing how widely disseminated masculine models serve to accommodate political social and economic demands **The Eye of the Beholder** Mark Jay Gang,2020-11-22 On a bright sunny day Connecticut senator Theodore Lucci is driven home to his waterfront estate in Greenwich An unexpected sight meets him several police vehicles parked by his front door As he exits his car he is placed under arrest and his life is changed forever According to authorities Theodore

killed two men in cold blood and robbed 30 000 from a local bank but there s no motive Theodore is the son of a self made billionaire and has a beautiful wife twin boys and a successful political career Nothing makes sense unless Theodore is in the midst of a conspiracy It s possible his father Anthony Lucci and his father s best friend and head of a Columbian drug cartel could be involved Perhaps the eyewitnesses who identified Theodore are wrong but if Theodore is innocent who was the mystery man at the bank There are too many questions not enough answers and a man s life at stake as authorities struggle to uncover a truth that is deeply buried

*Paradox* John A. Shivik,2015-04-14 An expert in wildlife management tells the stories of those who are finding new ways for humans and mammalian predators to coexist Stories of backyard bears and cat eating coyotes are becoming increasingly common even for people living in non rural areas Farmers anxious to protect their sheep from wolves aren t the only ones concerned suburbanites and city dwellers are also having more unwanted run ins with mammalian predators And that might not be a bad thing After all our government has been at war with wildlife since 1914 and the death toll has been tremendous federal agents kill a combined ninety thousand wolves bears coyotes and cougars every year often with dubious biological effectiveness Only recently have these species begun to recover Given improved scientific understanding and methods can

we continue to slow the slaughter and allow populations of mammalian predators to resume their positions as keystone species As carnivore populations increase however their proximity to people pets and livestock leads to more conflict and we are once again left to negotiate the uneasy terrain between elimination and conservation In *The Predator Paradox* veteran wildlife management expert John Shivik argues that we can end the war while still preserving and protecting these key species as fundamental components of healthy ecosystems By reducing almost sole reliance on broad scale death from above tactics and by incorporating nonlethal approaches to managing wildlife from electrified flagging to motion sensor lights we can dismantle the paradox have both people and predators on the landscape and ensure the long term survival of both As the boundary between human and animal habitat blurs preventing human wildlife conflict depends as much on changing animal behavior as on changing our own perceptions attitudes and actions To that end Shivik focuses on the facts mollifies fears and presents a variety of tools and tactics for consideration Blending the science of the wild with entertaining and dramatic storytelling Shivik s clear eyed pragmatism allows him to appeal to both sides of the debate while arguing for the possibility of coexistence between ranchers and environmentalists wildlife managers and animal welfare activists and humans and animals
