Cartographers Toolkit Colors Typography Patterns:

Cartographer's Toolkit Gretchen Peterson, 2012 Cartographer's Toolkit is like a big cheat sheet for cartography. Its three chapters Colors Typography and Composition Patterns build from individual map components to cohesive cartographic constructions. The book contains Colors 30 color palettes of 10 colors each in 3 categories coordinated palettes color ramps and differentiated Typography 50 typefaces showcased in 3 categories standard free and for fee and Composition Patterns 28 patterns illustrated with 36 maps by many of today's leading cartographers. Here you will find design tools for the advanced cartographer and those who wish to become advanced cartographers for producing the high level static and interactive maps required in our current innovative environment. The information presented in this book along with the more fundamental cartography theory in the author's first book GIS Cartography: A Guide to Effective Map Design equips cartographers with the tools they need to perform at the top of the map making field producing maps that are informative inspired and original.
