Democracy From Scratch Hardcover December 12 1994:

The Crisis of Democratic Capitalism Martin Wolf, 2023-02-07 From the chief economics commentator of the Financial Times a magnificent reckoning with how and why the marriage between democracy and capitalism is coming undone and what can be done to reverse this terrifying dynamic Martin Wolf has long been one of the wisest voices on global economic issues He has rarely been called an optimist yet he has never been as worried as he is today Liberal democracy is in recession and authoritarianism is on the rise The ties that ought to bind open markets to free and fair elections are threatened even in democracy's heartlands the United States and England Around the world powerful voices argue that capitalism is better without democracy others argue that democracy is better without capitalism This book is a forceful rejoinder to both views Even as it offers a deep lucid assessment of why this marriage has grown so strained it makes clear why a divorce of capitalism from democracy would be a calamity for the world They need each other even if they find it hard to live together For all its flaws argues Wolf democratic capitalism remains far and away the best system for human flourishing But something has gone seriously awry the growth of prosperity has slowed and the division of its fruits between the hypersuccessful few and the rest has become more unequal The plutocrats have retreated to their bastions where they pour scorn on government's ability to invest in the public goods needed to foster opportunity and sustainability But the incoming flood of autocracy will rise to overwhelm them too in the end Citizenship is not just a slogan or a romantic idea it's the only idea that can save us Wolf argues Nothing has ever harmonized political and economic freedom better than a shared faith in the common good This wise and rigorously fact based exploration of the epic story of the dynamic between democracy and capitalism concludes with the lesson that our ideals and our interests not only should align but must do so for everyone's sake Democracy itself is now at stake *Official Congressional Directory, 2009-2010: 111th Congress, Convened January 2009 (Hardcover)* Congress (U S) Joint Committee on Printing, Congress (U S) Joint Committee on Print, 2010-01-22 The Congressional Directory presents short biographies of each member of the Senate and House listed by state or district and additional data such as committee memberships terms of service administrative assistants and or secretaries and room and telephone numbers It also lists officials of the courts military establishments and other Federal departments and agencies including D C government officials governors of states and territories foreign diplomats and members of the press radio and television galleries **Transnationalism in Practice** Paul Giles, 2019-07-30 This volume brings together a collection of 14 essays in the fields of American studies literature and religion written between 1994 and 2009 by the UK's leading critic in this area There is also a new introduction *Journalism Worthy of the Name* Herdís Thorgeirsdóttir, 2005-06-01 The subject of this study is freedom within the press the nature and limits of the protection afforded to the journalistic imparting process which has been a neglected area of research The analysis draws on the classical defenders of freedom of speech Milton and Mill to show that at the dawn of the 21st century the intertwined alliance

between big business and public authorities resulting in the widespread phenomena of self censorship within the media constitutes an almost insurmountable obstacle Instead of enlightening the public and inspiring the individual the press may be contributing to an inert public and individual cowardice antithetical to the objectives of human dignity and democracy The core of the problem is that prima facie the infringement of freedom within the media is not exercised on legal premises and cannot therefore be solved within the legal framework The operation of the press in society is conditioned by three types of regulation legal regulation market regulation and self regulation Legal regulation does not adequately presuppose the impact of the latter as it is based on the assumption that press freedom is mainly a negative liberty The book explores the affirmative side of Article 10 of the European Convention on Human Rights to guarantee press freedom that is not merely illusory but practical and effective Convention jurisprudence has not only influenced the domestic courts of the Contracting Parties but also the legislators of the Member States In an era of globalization dominant media operators wield power in their own domestic markets to impede national regulators in adopting interventionist media policies to secure journalistic freedoms The Convention jurisprudence represents a kind of European ius commune which is here set in the context of an analysis reflecting the problems and values at issue and offering recommendations to alleviate a situation which threatens democratic ideals and public spirited journalism

The Networked Leviathan Paul Gowder,2023-08-03 Governments and consumers expect internet platform companies to regulate their users to prevent fraud stop misinformation and avoid violence Yet so far they ve failed to do so The inability of platforms like Facebook Google and Amazon to govern their users has led to stolen elections refused vaccines counterfeit N95s in a pandemic and even genocide Such failures stem from these companies inability to manage the complexity of their userbases products and their own incentives under the eyes of internal and external constituencies The Networked Leviathan argues that countries should adapt the institutional tools developed in political science to democratize the major platforms Democratic institutions allow knowledgeable actors to freely share and apply their understanding of the problems they face while leaders more readily recruit third parties to help manage their decision making capacity This book is also available Open Access on Cambridge Core For more information visit <https://networkedleviathan.com>
