Democratic Decision Making Historical And Contemporary Perspectives:

Democratic Decision-making David Lewis Schaefer, 2012 Democratic Decision Making Historical and Contemporary Perspectives contains eight essays by political scientists all but one of them previously unpublished addressing various aspects of the democratic decision making process *Democratic Decision-Making* David Lewis Schaefer, 2012-02-20 Democratic Decision Making Historical and Contemporary Perspectives contains eight essays by political scientists addressing various aspects of the democratic decision making process The book is divided into four parts democratic statesmanship the extent to which limitations of the democratic principle of majority rule are desirable the contemporary doctrine of deliberative democracy and informal modes of democratic decision making Under these four headings the contributors discuss a wide variety of issues including the practice of political opportunism by such statesmen as Hamilton and Madison the historical development of legal restraints on democracy in America ranging from judicial review during the colonial period to the filibuster the operation of classical Athenian democracy the defects of which may have been exaggerated by the American Founders the significance of the reflections of Tammany Hall boss George Washington Plunkitt for the development of the American party system the relation of deliberative democracy theory to the thought of Rousseau and the means by which cooperative land use agreements have been arrived at in California eliciting the voluntary consent of the affected parties instead of relying on judicial or bureaucratic dictates The book is well suited for use in courses on American political thought democratic theory American political development and related subjects *Roma Tre Law Review* - 01/2020 Giulio Napolitano, Giorgio Resta, 2020-07-14 The Roma Tre Law Review R3LR is an open source peer reviewed e journal which aims to offer a digital forum for scholarly debate on issues of comparative law international law law and economics law and society criminal law legal history and teaching methods in law Student Engagement Handbook Elisabeth Dunne, Derfel Owen, 2013-11-05 This book highlights some of the national and global agendas and issues from emerging sectors to the meaning of student engagement for different stakeholders It provides a backdrop to themes of student engagement as well as examples of innovative and inspiring means of engaging with students in practice empowering them to take responsibility wi *Research Handbook on the History of Political Thought* Cary J. Nederman, Guillaume Bogiaris, 2024-06-05 This insightful Handbook reviews the key frameworks guiding political scientists and historians of political thought Comprehensive in scope it covers historical methodology traditions epochs and classic authors and texts spanning from ancient Greece until the nineteenth century *Populism, Demagoguery, and Rhetoric in Historical Perspective* Giuseppe Ballacci, Research Fellow at the Centre for Ethics Politics and Society (Ceps) Giuseppe Ballacci, Associate Professor of Politics and Public Administration Rob Goodman, Rob Goodman, 2024-10-25 *Populism Demagoguery and Rhetoric in Historical Perspective* explores the connections between contemporary populism populist rhetoric and a wide range of thinkers and topics in the history of political thought from the ancient to the modern world

Throughout the volume contributors demonstrate links between contemporary populism and the tradition of rhetoric as well as new connections between populism and demagoguery a phenomenon that has been discussed by political theorists and philosophers since antiquity With this wide range of connections in mind the volume draws on diverse perspectives and methodologies to theorize populist politics in historical perspective and to enrich the debate surrounding it *Citizenship and Multiculturalism in Western Liberal Democracies* David Edward Tabachnick, Leah Bradshaw, 2017-03-16 This volume explores some of the tensions and pressures of citizenship in Western liberal democracies Citizenship has adopted many guises in the Western context although historically citizenship is attached only to some variant of democracy How democracy is configured is thus at the core of citizenship Beginning in ancient Greece citizenship is attached to the notion of a public sphere of deliberation open only to a small number of males Nonetheless we take from these origins an understanding of citizenship that is attached to friendship preservation of a distinct community and adherence to law These early conceptions of citizenship in the west have been dramatically altered in the modern context by the ascendancy of individual rights and equality expanding the inclusiveness of definition of citizenship The universality of rights claims has led to debate about the legitimacy of the nation state and questioning of borders A further development in our understanding of citizenship and one that has shifted citizenship studies considerably in the last few decades is the backlash against the universalism of rights in the defense of cultural recognition within democratic polities Multiculturalism as a broad spectrum of citizenship studies defends the autonomy and recognition of cultural and sometimes religious identity within an overarching scheme of rights and equality This collection draws upon the many threads of citizenship in the Western tradition to consider how all of them are still extant and contentious in contemporary liberal democracy **The Lottocratic Mentality** Cristina Lafont, Nadia Urbinati, 2024-11-14 In recent years there has been great interest in new forms of citizen participation such as citizens assemblies or deliberative polls that involve ordinary citizens in political decision making Many see these innovations as the best solution to the current crisis of democracy The most radical among them propose replacing elections with the random selection of ordinary citizens transforming electoral democracy into a lottocracy These developments are driven by a lottocratic mentality that is deeply transforming our understanding of democracy political equality representation and more In *The Lottocratic Mentality* Lafont and Urbinati focus on this way of thinking which is flourishing in public debates inspiring the organization of citizens assemblies worldwide and bridging democratic and nondemocratic regimes in the vision of a unified global order based on problem solving allotted assemblies free from electoral competition The authors analysis shows that it amounts to a worrisome form of technopopulism that justifies conferring legislative power on randomly selected assemblies based on a mixture of populist and technocratic grounds This lottocratic mentality legitimizes the anti democratic idea that the many should be ruled by the few chosen by chance Against this view they show how lottery based institutions could be used with the democratic aim of empowering the citizenry but only if the lottocratic mentality is rejected **The**

Citizen and Political Community Pasquale De Marco, 2025-04-22 The Citizen and Political Community is a groundbreaking exploration of the complexities of democracy in the 21st century. With insightful analysis and thought provoking perspectives, Pasquale De Marco offers a comprehensive examination of the fundamental principles, challenges, and prospects of democratic governance. This book delves into the core values of democracy, emphasizing the importance of liberty, equality, and justice. It explores the mechanisms of democratic governance, providing a comparative analysis of various systems and their strengths and weaknesses. Pasquale De Marco delves into the role of citizens in a democracy, highlighting the significance of civic education and active participation. The book also examines the challenges to civic engagement in contemporary societies and proposes innovative strategies to promote democratic citizenship. The Citizen and Political Community analyzes the relationship between democracy and the state, examining the separation of powers and the system of checks and balances. It explores the delicate balance between the state and civil society, identifying the challenges to democratic governance in an era of globalization. The book also explores the interrelationship between democracy and the economy, examining the impact of economic inequality on democratic societies. It analyzes the role of economic policies in promoting democratic governance and the challenges of economic globalization to democracy. Furthermore, The Citizen and Political Community explores the relationship between democracy and the environment, highlighting the impact of environmental degradation on democratic societies. It examines the role of environmental policies in promoting democratic governance and the challenges of climate change to democracy. The book also analyzes the concept of democratic culture, exploring the values, beliefs, and practices that shape democratic societies. It examines the influence of culture on democratic institutions and practices, as well as the role of the media in shaping democratic culture. The Citizen and Political Community concludes with a thought provoking examination of the future of democracy, envisioning the challenges and opportunities that lie ahead. It proposes innovative strategies to strengthen democracy in the face of contemporary challenges such as populism, nationalism, and the impact of technology on democratic institutions. This book is an essential read for anyone interested in the future of democracy and the role of citizens in shaping their societies. If you like this book, write a review on Google Books.

Contemporary Perspectives on Social Learning in Early Childhood Education Olivia Saracho, Bernard Spodek, 2007-06-01 Social epistemology is a broad set of approaches to the study of knowledge and to gain information about the social dimensions. This intellectual movement of wide cross disciplinary sources reconstructs the problems of epistemology when knowledge is considered to be intrinsically social. In the first chapter, Social Epistemology and Social Learning, Olivia Saracho and Bernard Spodek discuss the social and historical contexts in which different forms of knowledge are formulated based on the perspective of social epistemology. They also discuss the emergence of social epistemology, which guides researchers to investigate social phenomena in laboratory and field settings. Social factors external to the appropriate business of science have a major impact in the social studies researchers' historical case studies. Thus, social studies

researchers may be considered social epistemologists because a they focus on knowledge of social influences and b they infer epistemologically significant conclusions from their sociological or anthropological research In addition analyses indicate that studies of scientific paradigms are basically a struggle for political power rather than reflecting reliable epistemic merit Social studies researchers focus on knowledge of social influences on knowledge which is analogous to the knowledge of the social epistemologists They also use their sociological or anthropological research to infer epistemologically significant conclusions

Teaching for Social Justice and Sustainable Development Across the Primary Curriculum Anne Marie Kavanagh, Fionnuala Waldron, Benjamin Mallon, 2021-03-21 This volume supports educators in integrating meaningful education for social justice and sustainability across a wide range of curricular subjects by drawing on educational theory innovative pedagogical approaches and creative ideas for teaching and learning Both practical and theoretical in its approach it addresses subject areas ranging from mathematics to visual arts to language teaching Chapters provide subject entry points for teachers seeking to embed social justice and sustainability principles and pedagogies into their work Transferable across various areas of learning a range of pedagogical approaches are exemplified ranging from inquiry approaches to ethical dilemmas to critical relational pedagogies Ready to use teaching exemplars activities and resources address issues which are of interest and relevance to children s lives including gender stereotyping racism heterosexism climate change and species extinction Practical guidance is provided on how to engage children in dialogue and reflection on these complex issues in a safe and ethical way This accessible and unique volume is essential reading for student teachers teachers educational leaders teacher educators and anyone interested in inspiring children to work towards creating a more socially just and sustainable world

Contemporary Chinese Politics in Historical Perspective Brantly Womack, 1991-11-29 Eight distinguished China specialists provide broad gauged original essays that attempt to explain the dynamics of contemporary Chinese politics by analyzing the preceding patterns of development

The Middle Class and Democracy in Socio-Historical Perspective Glassman, 2023-07-24 One of the basic theories of politics put forth by Aristotle centuries ago is the theory of the middle class and its causal link with democracy According to Aristotle a large prosperous middle class may mediate between rich and poor creating the structural foundation upon which democratic political processes may operate Beyond Aristotelian theory the specifically commercial nature of the middle class is also made central as the democratic institutions of law power limitation and electoral participation were carried by a commercial middle class This volume traces the development of democracy and the rise of the commercial middle class from ancient Greece to Renaissance Italy to post feudal Europe Socialism communism and fascism are discussed as reactions to capitalist democracy The book concludes with an analysis of the structural and cultural bases of democracy

Historical Perspectives on Democracies and their Adversaries Joost Augusteijn, Constant Hijzen, Mark Leon de Vries, 2019-08-07 This book historicizes the debate over how democratic regimes deal with anti democratic groupings in society Democracies across the

world increasingly find themselves under threat from enemies ranging from terrorists to parties and movements that undermine democratic institutions from within This compilation of essays provides the first historical exploration of how democracies have dealt with such anti democratic forces in their midst and how this impacted upon what democracy meant to all involved From its inception in the nineteenth century modern democratic politics has included fundamental debates over whether it is undemocratic and dangerous to ban parties with anti democratic objectives and whether democracies should defend themselves if necessary with violence against perceived anti democratic forces This volume shows that implicit conceptions of democracy and democratic repertoires become explicit fluid and contested throughout these confrontations not only within democratic parties but also among their adversaries Both sides have at times used force or limited the expression of ideas thus blurring the lines between who is democratic and who is not

Voices of Historical and Contemporary Black American Pioneers Vernon L. Farmer, Evelyn Shepherd-Wynn, 2012-05-15 The stories of black American professionals both historic and contemporary reveal the hardships and triumphs they faced in overcoming racism to succeed in their chosen fields This extraordinary four volume work is the first of its kind a comprehensive exploration of the obstacles black men and women both historic and contemporary have faced and overcome to succeed in professional positions Voices of Historical and Contemporary Black American Pioneers includes the life and career histories of black American pioneers past and present who have achieved extraordinary success in fields as varied as aviation and astronautics education social sciences the humanities the fine and performing arts law and government and medicine and science The set covers well known figures but is also an invaluable source of information on lesser known individuals whose accomplishments are no less admirable Arranged by career category each section of the work begins with a biographical narrative of early black pioneers in the field followed by original interviews conducted by the editors or autobiographical narratives written by the subjects In all more than 150 scholars and professionals share inspiring insights into how they persevered to overcome racism and succeed in an often hostile world

Reviewing Leadership Robert J. Banks, Bernice M. Ledbetter, 2004-06 Explores the idea of leadership in our culture today and in the past through theological evaluation theory and practice and examples of exemplary leaders

Europa en el ocaso del milenio. Un estudio sobre el capitalismo europeo en el cambio de época Ernesto Domínguez López, Obra con una interesante propuesta de análisis del fin del milenio hist rico en Occidente alejada del eurocentrismo y la unilateralidad del estudio del viejo Continente El autor propone un cuadro integral de las dinámicas más importantes ocurridas en Europa desde finales de los años sesenta hasta inicios del presente siglo y define el milenio hist rico no por su tiempo cronológico sino la importancia cronológica de los procesos que suceden Este texto nos brinda la oportunidad de conocer nuevos puntos de vista y miradas diferentes al capitalismo en el cambio de época
