The Indonesian Way Jürgen Rüländ,2017-12-12 On December 31 2015 the ten member Association of Southeast Asian Nations ASEAN ushered in a new era with the founding of the ASEAN Community AC The culmination of 12 years of intensive preparation the AC was both a historic initiative and an unprecedented step toward the area s regional integration Political commentators and media outlets however greeted its establishment with little fanfare Implicitly and explicitly they suggested that the AC was only the beginning Southeast Asia they seemed to say was taking its first steps on a linear process of unification that would converge on the model of the European Union In The Indonesian Way J rgen R land challenges this previously unquestioned diffusion of European norms Focusing on the reception of ASEAN in Indonesia R land traces how foreign policy stakeholders in government civil society the legislature academe the press and the business sector have responded to calls for ASEAN s Europeanization ultimately fusing them with their own distinctly Indonesian form of regionalism His analysis reframes the nature of ASEAN as well as the discipline of international relations more broadly writing a narrative of regional integration and norm diffusion that breaks free of Eurocentric thought

Chinese Indonesians in Post-Suharto Indonesia Wu-Ling Chong,2018-10-02 Selfish obscenely rich insular and opportunistic these remain how Chinese minorities in Indonesia are perceived by the indigenous population However far from being passive victims of discrimination and marginalisation Chong presents a forceful case in which Chinese Indonesians possess the agency to shape their future in the country particularly in the changing political business and socio cultural environment after the fall of Suharto While a lack of good governance that promotes the rule of law and accountability allows or even encourages some Chinese to maintain the status quo by perpetuating corrupt business practices inherited from Suharto s New Order regime there are other Chinese Indonesians who make full use of the democratic space opened up under the new administrations acting as agents of reform by participating in electoral politics and establishing inter ethnic socio cultural organisations Building on Anthony Giddens s structure agency theory and Pierre Bourdieu s notions of habitus and field Chong shows that the Chinese minorities have played an active role in the democratic process even though they continue to occupy an ambivalent position in Indonesia The Chinese Indonesians diverse strategies to safeguard their personal interests and cultural identities make a stimulating case study of what an ethnic minority could do to make a difference Backed by formidable research Chong has produced an intriguing and original view of the political

social and economic activity of the still precariously placed Chinese minority in Indonesia Donald L Horowitz Duke University author of *Constitutional Change and Democracy in Indonesia* In this illuminating study Chong traces the political economy of Indonesia's ethnic Chinese minority as they navigate the country's post 1998 politics which is more free but still lacks strong rule of law Focusing especially on Medan and Surabaya she analyses how some have strongly supported reforms while many continue old practices of surviving and profiting by participating in massive corruption and extortion Jeffrey A Winters

Northwestern University author of *Oligarchy* **Oligarchic Cartelization in Post-Suharto Indonesia** Boni Hargens, 2021-12-20 *Oligarchic Cartelization in Post Suharto Indonesia* By Boni Hargens As detailed in *Oligarchic Cartelization in Post Suharto Indonesia* a few ruling individuals from party organizations overpowered Indonesia's post authoritarian representative democracy The legislative process of the 2017 Election Act was the case study employed to examine this assumption The underlying thinking was that there was a contest between wealth power oligarchy and participation power democracy The power of wealth controls the party and government institutions Notwithstanding the presence of participation power there was however no balance between wealth power and participation power because the formal control of politics was in the hands of party oligarchs This study is purposed to bridge the gap in knowledge by exploring how the party oligarchs maintain the policymaking reputedly using cartelized strategies to defend the status quo By employing the oligarchy and cartelization concepts the central question of this inquiry focused on how the party oligarchs mastered the policy process in post Suharto Indonesia Qualitative findings indicated that the party oligarchs engineered the legal process in parliament applying cartelized strategies to defend privileges they obtained from collusive interpenetrations with the state Understanding the oligarchic cartelization theoretical postulate is a fundamental step for party members to improve their performance in public offices The results of this study can also be a useful reference for pro democracy activists to defend the ontological essence of public participation in implementing representative democracy at an appropriate level

Democracy for Sale Edward Aspinall, Ward Berenschot, 2019-04-15 *Democracy for Sale* is an on the ground account of Indonesian democracy analyzing its election campaigns and behind the scenes machinations Edward Aspinall and Ward Berenschot assess the informal networks and political strategies that shape access to power and privilege in the messy political environment of contemporary Indonesia In post Suharto Indonesian politics the exchange of patronage for political support is commonplace Clientelism argue the authors saturates the political system and in *Democracy for Sale* they reveal the everyday practices of vote buying influence peddling manipulating government programs and skimming money from government projects In doing so Aspinall and Berenschot advance three major arguments The first argument points toward the role of religion kinship and other identities in Indonesian clientelism The second explains how and why Indonesia's distinctive system of free wheeling clientelism came into being And the third argument addresses variation in the patterns and intensity of clientelism Through these arguments and with comparative leverage from political practices in India

and Argentina Democracy for Sale provides compelling evidence of the importance of informal networks and relationships rather than formal parties and institutions in contemporary Indonesia
