Demons Fyodor Dostoyevsky,1994 Mirrors the turmoil of nineteenth century Russia denouncing both nihilists and revolutionaries *The New Demons* Simona Forti,2023-05-25 The Italian philosopher and author of *Totalitarianism* rescues the concept of evil as an element necessary for guidance in political reflection *Dialogue Canadian Philosophical Review* As long as we care about suffering in the world says political philosopher Simona Forti we are compelled to inquire into the question of evil But is the concept of evil still useful in a postmodern landscape where absolute values have been leveled and relativized by a historicist perspective Given our current unwillingness to judge others what signposts remain to guide our ethical behavior Surveying the nineteenth and twentieth century Western philosophical debates on evil Forti concludes that it is time to leave behind what she calls the Dostoevsky paradigm the dualistic vision of an omnipotent monster pitted against absolute helpless victims No longer capable of grasping the normalization of evil in today's world whose structures of power have been transformed this paradigm has exhausted its explanatory force In its place Forti offers a different genealogy of the relationship between evil and power one that finally calls into question power's recurrent link to transgression At the center of contemporary evil she posits the passive attitude towards rule following the need for normalcy and the desire for obedience nurtured by our contemporary mass democracies In our times she contends evil must be explored in tandem with our stubborn desire to stay alive at all costs as much as with our deep need for recognition the new modern absolutes A courageous book *The New Demons* extends an original inspiring call to ethical living in a biopolitical age Demons Fyodor Dostoevsky,2010-05-19 Inspired by the true story of a political murder that horrified Russians in 1869 Fyodor Dostoevsky conceived of *Demons* as a novel pamphlet in which he would say everything about the plague of materialist ideology that he saw infecting his native land What emerged was a prophetic and ferociously funny masterpiece of ideology and murder in pre-revolutionary Russia Conspiracy Culture Keith A. Livers,2020-09-08 This book examines the uses of conspiracy tropes in post-Soviet culture providing the first systematic in-depth analysis of Russia's most paranoid contemporary authors *Lyric Complicity* Daria Khitrova,2019-07-16 For many nineteenth century Russians poetry was woven into everyday life in conversation and correspondence scrapbook albums and parlor entertainments Blending close literary analysis with social and cultural history Daria Khitrova shows how poetry lovers of the period all became nodes in a vast network of literary appreciation and constructed meaning Poetry during the Golden Age was not a one-way avenue from author to reader Rather it was participatory interactive and performative *Lyric Complicity* helps modern readers recover Russian poetry's former uses and functions life situations that moved people to quote or perform a specific passage from a poem or a forgotten occasion that created unforgettable verse **The Oxford Handbook of Deification** Aquinas Chair in Theology and Philosophy Paul L Gavriluk,Ordinary Professor of Patristics and Ancient Languages Andrew Hofer O P,James N Jr and Mary D Perry Chair of Theology Matthew Levering,2024-09-06 This handbook offers a comprehensive and varied study of

deification within Christian theology Forty six leading experts in the field examine points of convergence and difference on the constitutive elements of deification across different writers thinkers and traditions **Encyclopedia of Philosophy** Donald M. Borchert,2006 This volume covering entries from Determinables and determinates to Fuzzy logic presents articles on Eastern and Western philosophies medical and scientific ethics the Holocaust terrorism censorship biographical entries and much more Requiem for Reality Harry G. Hutchison,2023-02-14 Critical Race Theory like most ideologies before it promises an earthly paradise premised on ceaseless revolution but instead of delivering on this promise it produces a terrestrial hell echoing the inner nihilism of modern life Contemporary social justice movements just like progressivism the New Deal and post Civil War Southern Democrats place Westerners in bondage rather than delivering on the promise of unlimited freedom Requiem for Reality responds to the widening pendulum shifts of our age These developments consume and incense the nation These shifts offer a bewildering set of claims grounded in the presumption that race and other forms of human identity explain all forms of disparity and inequality Against such claims it is crucial to distinguish between a development narrative and a bias narrative for the purpose of explaining ethnic disparity The development narrative is grounded in data that often deliver unwelcome facts The facts show that Asian Americans as well as West Indian blacks often do better than white Americans in schooling per capita income and crime rates Indeed Syrian Americans Korean Americans Indonesian Americans Taiwanese Americans and Filipino Americans experience significantly higher median household incomes than whites and higher test scores lower incarceration rates and longer life expectancies Oblivious to such facts the bias narrative on the other hand grounds itself in the white privilege thesis suggesting that only race matters Surfacing from the toxic pit of ideology the bias narrative emphasizes the racist claim that African Americans are the only ethnic group in the world who cannot succeed under less than ideal conditions Separated from important facts this narrative often substitutes absolute Neo pagan certainties originating in a make believe world for commonplace notions of truth and reality As such the white privilege thesis rather than improving the conditions of African Americans and others offers a utopian dream that threatens to become a national nightmare The urgent pursuit of utopia reflects trends that are largely anthropological sociological and more spiritual than political Responding to these developments which have given rise to victimhood claims within gender and transgender categories will require more than argumentation rational analysis superior logic or even the inauguration of a Hanging Judge It will require courage because otherwise Chairman Mao s forecast stating that there is a great disorder under heaven and the situation is excellent may come true here just like it has already come true for China **Subordinated Ethics** Caitlin Smith Gilson,2020-08-21 With Dostoyevsky s Idiot and Aquinas Dumb Ox as guides this book seeks to recover the elemental mystery of the natural law a law revealed only in wonder If ethics is to guide us along the way it must recover its subordination description must precede prescription If ethics is to invite us along the way it cannot lead either as politburo or even as public orthodoxy It cannot be smugly symbolic but must be by way of

signage of directionality of the open realization that ethical meaning is en route pointing the way because it is within the way as only sign not symbol can point to the sacramental terminus The courtesies of dogma and tradition are the road signs and guideposts along the longior via not themselves the termini We seek the dialogic heart of the natural law through two seemingly contradictory voices and approaches St Thomas Aquinas and his famous five ways and Fyodor Dostoyevsky's holy idiot Prince Myshkin It is precisely the apparent miscellany of these selected voices that provide us with a connatural invitation into the natural law as subordinated as descriptive guide not as prescriptive leader Violence and Nihilism Luís Aguiar de Sousa, Paolo Stellino, 2022-07-05 Nihilism seems to be per definition linked to violence Indeed if the nihilist is a person who acknowledges no moral or religious authority then what does stop him from committing any kind of crime Dostoevsky precisely called attention to this danger if there is no God and no immortality of the soul then everything is permitted even anthropophagy Nietzsche too emphasised although in different terms the consequences deriving from the death of God and the collapse of Judeo Christian morality This context shaped the way in which philosophers writers and artists thought about violence in its different manifestations during the 20th century The goal of this interdisciplinary volume is to explore the various modern and contemporary configurations of the link between violence and nihilism as understood by philosophers and artists in both literature and film *Dostoevsky's Political Thought* Richard Avramenko, Lee Trepanier, 2013-05-23 Recognized as one of the greatest novelists of all time Fyodor Dostoevsky continues to inspire and instigate questions about religion philosophy and literature However there has been a neglect looking at his political thought its philosophical and religious foundations its role in nineteenth century Europe and its relevance for us today Dostoevsky's Political Thought explores Dostoevsky's political thought in his fictional and nonfictional works with contributions from scholars of political science philosophy history and Russian Studies From a variety of perspectives these scholars contribute to a greater understanding of Dostoevsky not only as a political thinker but also as a writer philosopher and religious thinker

**Nihilism** Nolen Gertz, 2019-09-10 An examination of the meaning of meaninglessness why it matters that nothing matters When someone is labeled a nihilist it's not usually meant as a compliment Most of us associate nihilism with destructiveness and violence Nihilism means literally an ideology of nothing Is nihilism then believing in nothing Or is it the belief that life is nothing Or the belief that the beliefs we have amount to nothing If we can learn to recognize the many varieties of nihilism Nolen Gertz writes then we can learn to distinguish what is meaningful from what is meaningless In this addition to the MIT Press Essential Knowledge series Gertz traces the history of nihilism in Western philosophy from Socrates through Hannah Arendt and Jean Paul Sartre Although the term nihilism was first used by Friedrich Jacobi to criticize the philosophy of Immanuel Kant Gertz shows that the concept can illuminate the thinking of Socrates Descartes and others It is Nietzsche however who is most associated with nihilism and Gertz focuses on Nietzsche's thought Gertz goes on to consider what is not nihilism pessimism cynicism and apathy and why he explores theories of nihilism including those

associated with Existentialism and Postmodernism he considers nihilism as a way of understanding aspects of everyday life calling on Adorno Arendt Marx and prestige television among other sources and he reflects on the future of nihilism We need to understand nihilism not only from an individual perspective Gertz tells us but also from a political one **Stranded on**
