Invading the Realm of Demons, Disease, and Death Carl E. Roemer, 2024-01-29 This study of the miracles attributed to Jesus in the Gospels begins with a survey of the sciences because in our present cultural context materialism is the dominant approach to and understanding of our world of history and of our very selves If the materialist's understanding is true then there is no such thing as miracles because every event must occur as the result of some previous material events Contemporary biblical scholarship mostly approaches the miracle stories from a materialist point of view It questions their historicity because they violate what has now become the entrenched modus operandi in our culture and society operating with the idea that the universe is a closed nexus of cause and effect The miracles are understood then as products of the community and not historical reports although according to this line of scholarship they may be based on some vague recollection of Jesus's activity that somehow had healing effects Modern science however as one scientist has put it in climbing the mountain of knowledge has reached its peak and found a theologian at the top The sciences in other words have led to the implication that our universe has a creator and that the universe and the human genome have been designed

The Merovingians Alexander Murray, 2022-05-17 The studies collected here cover a period of about 33 years from 1986 to 2019 and represent a sustained effort to understand the institutions of the Merovingian kingdom and its history There has long been a predisposition to cast the Merovingian period in the dark colours of barbarism or to treat it with reference to personal relationships and archaic institutions The present volume instead recognizes the Merovingian world not as an archaic primitive intrusion on the Mediterranean civilization of the Roman Empire but simply as a participant in the wider commonwealth that existed before

and remained after the dissolution of the western imperial system in so doing it serves to refute the scholarly tendency to primitivize Merovingian governance its underlying institutions and the broader culture upon which these rested The collection is divided into four parts Part I considers the question of whether Merovingian kingship should be viewed as a species of archaic sacral kingship Part II on institutions has chapters that deal with various offices the grafio and centenarius public institutions especially immunity and public security and the broader makeup of the Merovingian state system Part III on charters procedure and law has chapters on the profile of the charter evidence as now presented in the new MGH edition of the Merovingian diplomas and one on particular procedures before the royal tribunal mistakenly referred to in scholarship as fictitious trials a final chapter provides a reflection on and basic guide to the law in general of the successor kingdoms with an eye to the evidence of Merovingian Gaul Part IV a slight change of pace deals with historiography both the modern variety Reinhard Wenskus and the Merovingian Gregory of Tours All chapters deal extensively with the historiography of their subjects This book will appeal to students and scholars alike interested in Early Medieval European history Merovingian history Early Medieval law and society Early Medieval historiography and the influence of Merovingian law and governance on later centuries CS 1104 Know Thy Enemy Donna Andes,2003 **Demon Dagger** Russell James,2022-08-16 A Demon Hunter with a gift that becomes a curse A Demon that hunts the hunter A thrilling tale of darkness and vengeance for fans of the TV series Supernatural A thrilling game of supernatural cat and mouse Publishers Weekly A fast paced thriller filled with all the gore of a disemboweled beast In the world of demon slaying tales this novel is unique City Book Review Drew Price has a gift or perhaps a curse When a demon possesses a person Drew can see the horrific looking demon that dwells within This ability has made him a demon hunter armed with the one weapon that can send these fiends back to Hell the demon dagger A demon named Nicobar sets its sights on punishing this hunter It starts by taking the soul of Drew s son condemning the boy to life as a psychopath This fast paced chilling novel follows Drew s attempt to save his son s soul and then use the blade to end Nicobar s time on Earth FLAME TREE PRESS is the imprint of long standing independent Flame Tree Publishing dedicated to full length original fiction in the horror and suspense science fiction the award winners and exciting original voices Learn more about Flame Tree Press at www.flametreepress.com and connect on social media FlameTreePress

Demons in Late Antiquity Eva Elm,Nicole Hartmann,2020-01-20 The perception of demons in late antiquity was determined by the cultural and religious contexts Therefore the authors of this volume take into consideration a wide variety of texts stemming from different religious milieus ranging from spells apocalypses martyrdom literature to hagiography and focus specifically on the literary aspects of the transformation of the demonic in this period of transition **In the Demon's Bedroom** Jeremy Asher Dauber,2010-01-01 This important study is the first to offer a sustained look at a variety of early modern Yiddish masterworks and their writers and readers paying particular attention to their treatment of supernatural themes and beings **The Enemies of Paul: Demons, Satan, Betrayers, and Apostles** Roger S. Busse,2018-08-23 Paul s

conflict with viscous enemies human and otherwise led him to employ efficacious powers charismata charismatic powers and controversial and sometimes illegal practices that are only coherent when placed in context of the first century Hellenistic Roman world These included soul and spirit transportation possession and exorcisms special techniques to repel demonic attack as well as what was considered the darkest of black magic in the ancient world the casting of death curses which called on Satan to infect harm and even kill his enemies All of these can be recovered in striking detail using risk analysis of his undisputed writings and comparing them with contemporary sources papyri and documents independent of the New Testament The results demonstrate that Paul s letters are so much more than simply intellectual and rhetorical correspondences they are infused with dangerous mystical and charismatic powers feared in an ancient world that was saturated with prevalent active dark forces and multi layered human and supernatural conflicts of angels and demons at war of charismata and anathemata deadly curses and Paul s expectation of the hemera kuriou Day of the Lord that would defeat Satan and the curse of death via pistis faith in the efficacious euangelion gospel of agape love *The Encyclopedia of Demons and Demonology* Rosemary Guiley,2009 Explores this dark aspect of folklore and religion and the role that demons play in the modern world Includes numerous entries documenting beliefs about demons and demonology from ancient history to the present **The Fear of Witchcraft and Witches in Imperial China** Barend Ter Haar,2025-01-27 In historical surveys of witches and witchcraft the Chinese case is surprisingly absent This book intends to fill that gap Traditional China had at least two different strands of fear directed at women and sometimes also men The fear of witches harming people through figurines remained limited to individual social and personal conflicts for instance between women competing for the attention of their partner or a carpenter and his customers There was usually a clear winning party The fear of witches using animal or demon familiars to harm members of their own community indiscriminately led to social exclusion or worse

Keener,2011-11-01 Christianity Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship s 2012 Award of Excellence 2011 Book of the Year Christianbook.com s Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume s argument that uniform human experience precluded miracles Yet current research shows that

human experience is far from uniform In fact hundreds of millions of people today claim to have experienced miracles New Testament scholar Craig Keener argues that it is time to rethink Hume s argument in light of the contemporary evidence available to us This wide ranging and meticulously researched two volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts lending credence to the biblical miracle reports
