Deng Xiaoping And The Chinese Revolution A Political Biography Routledge In Asia:

Deng Xiaoping and the Chinese Revolution David S. G. Goodman, 1994 David Goodman reaches beyond China's spectacular economic success of recent years to understand the sources of Deng's political power. This is a balanced evaluation of the career of one of the century's great political survivors.

Deng Xiaoping and the Chinese Revolution David Goodman, 2002-09-11 To the outside world Deng Xiaoping represents a contradiction: he is both China's most successful moderniser and the Butcher of Beijing, China's supreme leader who must take responsibility for the events surrounding Tiananmen Square in June 1989. However, Deng the politician has no such contradiction; only the Chinese Communist Party can bring modernisation to China. For Deng, any threat to the Communist Party is a threat to the project of China's modernisation. This book attempts to reach beyond the spectacular economic success of recent years to understand Deng's own particular role and the sources of his political power. Deng Xiaoping was involved with the communist movement before there was even a Communist Party of China, and his entire career has been shaped by both the party and the network of relationships and people within it. David Goodman explores the way in which Deng has survived being purged three times via his contacts with key politicians: Zhou Enlai in Paris in the early 1920s and Mao Zedong from 1933 to the early 1960s. His close relationship with the military from the Sino-Japanese War of 1937 through to the present day has also enabled him to survive difficult political periods. Indeed, Deng's wartime experience in the Taihang Mountains plays a central but often overlooked role in his later career, particularly as a source of political support. David Goodman has been able to draw on the substantial documentary sources that have become available from China since 1989, as well as the analysis of Deng's political life that has proliferated inside the People's Republic in recent years. In addition, there is included a catalogue and analysis of the speeches and writings of Deng Xiaoping since 1938 that will prove to be an invaluable reference aid to his years of influence and power. The result is a balanced evaluation of Deng the politician that provides fresh insights into the career of one of the twentieth century's greatest political survivors.

Bully of Asia Steven W. Mosher, 2017-11-27 The Once and Future Hegemon In a world bristling with dangers only one enemy poses a truly mortal challenge to the United States and the peaceful and prosperous world that America guarantees That enemy is China a country that invented totalitarianism thousands of years ago whose economic power rivals our own that believes its superior race and culture give it the right to universal deference that teaches its people to hate America for standing in the way of achieving its narcissistic dream of world domination that believes in its manifest destiny to usher in the World of Great Harmony which publishes maps showing the exact extent of the nuclear destruction it could rain down on the United States Steven Mosher exposes the resurgent aspirations of the would be hegemon and the roots of China's will to domination in its five thousand year history of ruthless conquest and assimilation of other nations brutal repression of its own people and belligerence toward any civilization that challenges its claim to superiority The naive idealism of our China hands has lulled America into a fool's dream of engagement with the People's Republic of China and its peaceful evolution toward democracy and freedom Wishful thinking says Mosher has blinded us to the danger we face and left the world vulnerable to China's overweening ambitions Mosher knows China as few Westerners do Having exposed as a visiting graduate student the monstrous practice of forced abortions he became the target of the regime's crushing retaliation His encyclopedic grasp of China's history and its present day politics his astute insights and his bracing realism are the perfect antidote for our dangerous confusion about the Bully of Asia

Making the Foreign Serve China Anne-Marie Brady, 2003-09-08 This book provides the first detailed analysis of a crucial and distinctive element of Chinese foreign policy Anne Marie Brady follows the development of the Chinese Communist Party's foreign affairs system since 1921 focusing on waishi the external policies intended to influence and control both foreigners themselves as well as Chinese citizens contact with and perception of outsiders The term also comprises China's external relations both official state to state and so called unofficial or people to people diplomacy In effect waishi activities encompass all matters related to foreigners and foreign things not merely diplomacy By managing the foreign presence in China and China's contacts with the outside world and by controlling the Chinese population the author argues that waishi has proven to be one of the most effective tools in the CCP's repertoire for building and then sustaining its hold on power Drawing for the first time on policy documents that underpin the phenomena they describe Brady analyzes trends and developments in waishi during each chronological period The book elucidates how the CCP's policies evolved In the 1930s the need for a broad united front in international relations warred with the desire to

control the foreign presence in China in the 1940s and 1950s the Sino Soviet alliance and ridding China of the traces of the semi colonial past took precedence in the 1960s the Sino Soviet split led to China's claim as the center of world revolution and in the past twenty years of reform the focus has been the ongoing quest to create a modern nation state as China opens up to the outside world The author considers waishi's deeper meaning as an overriding approach to the foreign which links state to state diplomacy with the management of the foreign presence in China Her groundbreaking research is based on a previously unexplored genre of waishi materials almost all classified in Chinese extensive interviews with waishi officials and foreign participant The International Environment and China's Twin Models of Development Lai Sing Lam, 2007 Mao's

twin political cum economic development models did not evolve alone from the internal environment Rather they were historically constructed in relation to the developments in the Sino US and Sino USSR relations This work traces the complex role that these relations had in the formation of Mao's worldview of the West and the Soviet Union as a hostile international environment The author looks at the intricate interactions between China and each of the twin superpowers or both in unison Mao's leadership and the masses and his development model during his time as well as the post Mao's development model he created in a favourable international environment starting in 1971 The book seeks to explain how political economic and cultural changes were produced through various processes of interactions whether the Great Leap Forward the Cultural Revolution the present on going modernization revolution trade or global participation **The Nature of Chinese Politics:**

From Mao to Jiang Jonathan Unger, 2016-09-16 This book describes and analyzes how politics among the Chinese leadership has operated and evolved from the period of Mao's court up to the present day Part I explores politics under Mao and Deng For this section the five leading western analysts of elite Chinese politics Lowell Dittmer Lucian Pye Frederick Teiwes Andrew Nathan and Tsou Tang have contributed major papers that measure the empirical evidence against political science theory recent Chinese history and Chinese political culture Part II explores and analyzes the ongoing changes in Chinese politics during Jiang's tenure and includes analyzes by almost all the leading English language scholars in the field

China Into Its Second Rise: Myths, Puzzles, Paradoxes, And Challenge To Theory James Chieh Hsiung, 2012-03-20 This book seeks to demystify the re ascendency of China as a civilization state China's politics and society are examined in the light of its living civilization which is the only one of the ancient civilizations that has survived to this day The book also contrasts China's development with that of the West and Japan By combining the impact of internal political and socio economic developments in China and its external relations from the silk routes the tribute system to the modern day it unravels the existing myths puzzles and paradoxes surrounding China and questions the adequacy of most of the Western political theories such as realism in international relations in an attempt to explicate China's re emergence as a world power It attempts to tackle squarely the question Is China a threat to world order The book traces the rationale for contemporary developments in China to the roots in the country's tradition as well as foreign influences and seeks to unravel the puzzle

about the unique China Model that defies conventional thinking in political economy with its sustained and incredibly rapid economic growth over the past three decades This study on China's second rise provides a broad background that includes a meaningful scrutiny of the country's behavior during its first rise 713 1820 and beyond In comparing China's ongoing second rise with its first ascent the book not only refocuses on and reinterprets the example set during its first rise but also takes into account the crucial lessons it learned during its century in eclipse in the interregnum for the effects they have on the country's current orientation and behavior The book follows an interdisciplinary approach combining the cultural intellectual historical normative ideological and social scientific perspectives to lend a more solid grasp of the present day China It ends with an educated speculation based on the foregoing analyses on the contours of a Pax Sinica that is likely to result from the impact of China's second rise as a world power
