ICT Systems and Sustainability Milan Tuba, Shyam Akashe, Amit Joshi, 2020-02-28 This book proposes new technologies and discusses future solutions for ICT design infrastructures as reflected in high quality papers presented at the

4th International Conference on ICT for Sustainable Development ICT4SD 2019 held in Goa India on 5-6 July 2019. The conference provided a valuable forum for cutting edge research discussions among pioneering researchers, scientists, industrial engineers and students from all around the world. Bringing together experts from different countries, the book explores a range of central issues from an international perspective. *History of Construction Cultures Volume 1* João Mascarenhas-Mateus, Ana Paula Pires, 2021-08-01. History of Construction Cultures Volume 1 contains papers presented at the 7ICCH Seventh International Congress on Construction History held at the Lisbon School of Architecture Portugal from 12 to 16 July 2021. The conference has been organized by the Lisbon School of Architecture FAUL NOVA School of Social Sciences and Humanities, the Portuguese Society for Construction History Studies and the University of the Azores. The contributions cover the wide interdisciplinary spectrum of Construction History and consist of the most recent advances in theory and practical case studies analysis following themes such as epistemological issues, building actors, building materials, building machines, tools and equipment, construction processes, building services and techniques, structural theory and analysis, political, social and economic aspects, knowledge transfer and cultural translation of construction cultures. Furthermore, papers presented at thematic sessions aim at covering important problematics, historical periods and different regions of the globe, opening new directions for Construction History research. We are what we build and how we build; thus, the study of Construction History is now more than ever at the centre of current debates as to the shape of a sustainable future for humankind. Therefore, History of Construction Cultures is a critical and indispensable work to expand our understanding of the ways in which everyday building activities have been perceived and experienced in different cultures from ancient times to our century and all over the world. 101 Weird Ways to Make Money Steve Gillman, 2011-07-26.
