The Dash Camera features a number of different recording modes:

**The Infinite Loop:** With a high quality, industrial grade micro SD card, the footage will continuously record up to 170 minutes of 1080p HD footage (Standard mode, Bit rate: 6.2 Mbps) in an infinite loop, allowing you to capture every moment of your drive. The accompanying software will allow you to save any footage to your smartphone using Wi-Fi data transmission or simply take the microSD card out of the camera to save your files to your computer.

**Incident Recording:** With the help of the G-sensor impact detection, the footage will automatically lock on the microSD card for retrieval at a later time and you will not have to worry about anything else but the safety of everyone involved.

**Parking Surveillance:** Shortly after impact, the device will record up to 60 seconds following the impact and the file will be locked on the microSD card.

**Interesting event recording:** At the push of a button, automatically save 12 seconds before and 8 seconds after an event.

**Adventure Mode:** With Adventure mode, you can manually save up to an hour of footage at the highest quality video setting.
