Denying the Truth M. A. Crang, 2015-12-18 AN UNAUTHORIZED SEARCH FOR THE TRUTH Denying The Truth examines the impact of 9 11 on the popular and critical reception of the television text The X Files Although it was once one of the most culturally resonant television shows of the 1990 s The X Files guickly dropped in popularity following the events of 9 11 This book asks the question why as well as attempting to explain the reasons for the show s initial success The author examines the political and ideological perspectives of the show and also offers an in depth analysis of the narrative and filmic techniques that set the events of the series in the real world Featuring a concise analysis of every instalment in the series so far this book offers a fan's perspective of The X Files For a completely unauthorized look at the reception of this remarkable Focus On: 100 Most Popular Canadian Films Wikipedia contributors, series the truth is in here Luís Duarte d'Almeida, John Gardner, Leslie Green, 2014-07-18 Forty years after his death Hans Kelsen 1881 1973 remains one of the most discussed and influential legal philosophers of our time This collection of new essays takes Kelsen's Pure Theory of Law as a stimulus aiming to move forward the debate on several central issues in contemporary jurisprudence The essays in Part I address legal validity the normativity of law and Kelsen's famous but puzzling idea of a legal system's basic norm Part II engages with the difficult issues raised by the social realities of law and the actual practices of legal officials Part III focuses on conceptual features of legal systems and the logical structure of legal norms All the essays were written for this volume by internationally renowned scholars from seven countries Also included in English translation is an important polemical essay by Kelsen himself **Piercing the Fog of 9/11** Charles Giuliani, 2007-05-19 We have been told that we were attacked by 19 Muslim fanatics on 9 11 This story works well for those who don't look carefully at it But upon close inspection this whole account crumbles to dust faster than the Twin Towers did Find out the shocking truth about who really perpetrated this terrible crime and why Richard Rorty: Mind, language and truth James Tartaglia, 2009 British Concepts of Heroic "Gallantry" and the Sixties Transition Matthew J. Lord, 2021-05-03 This book examines the relationship between concepts of heroic gallantry as projected by the British honours system and the sociocultural political military and international transitions of the supposed Sixties cultural revolution In so doing it considers how a conservative hierarchical and state orientated concept both evolved and endured during a period of immense change in which traditional assumptions of deference to elites were increasingly challenged Covering the period often defined as The Long Sixties from 1955 79 this study concentrates on four distinct transitions undergone by both state and non state gallantry awards including developments within the welfare state class and gender discrimination counterinsurgency and decolonisation It ultimately sheds fresh light upon the importance of postwar decades to the continued evolution of concepts of gallantry and heroism in British culture using a range of underexplored government and media archives It will be of interest to scholars students and general researchers of heroism in modern Britain the Sixties revolution postwar military history and both the social and
