machine graded free response mathematics practice quizzes and tests giving instructors the power to assess student understanding of skills in a more meaningful way Because the testing and course management system is browser based it can be used on a stand alone or networked computer or any computer with Internet access giving instructors the power to access course management information such as student progress time on task and grades anytime anywhere Students working off campus can access TLE assignments using the Internet anytime Adopting institutions may use Cengage Learning servers for course management at no additional cost
