Metafolklore Alexander V. Avakov,2012-12-11 The book is organized in Folklore Units Each Folklore Unit has Context and may have one or more Metacontexts with citations of works of great philosophers or writers hence the title of the book is Metafolklore The book covers the life of immigrants from the USSR in the U S remembers life in Russia and gradually concentrates on the modus operandi of the KGB FBI CIA NYPD NSA ECHELON Foreign Intelligence Surveillance Court Al and ISI It covers frontiers of legal theory of surveillance What distinguishes this book is the intensely personal account of the events and issues Community Newspapers and the Japanese-American Incarceration Camps Ronald Bishop,2015-06-03 Though much has been said about Japanese American incarceration camps little attention is paid to the community newspapers closest to the camps and how they constructed the identities and lives of the occupants inside Dependent on government and military officials for information these journalists rarely wrote about the violation of the evacuees civil rights Instead they concentrated on the economic impact the camps and the evacuees who would replace workers off to enlist in the military and work for defense contractors would have on the areas they covered Newspapers like the Cody Enterprise and Powell Tribune in Wyoming the Lamar Daily News and the Casa Grande Dispatch regularly published overly optimistic updates on the progress of construction the size of the contractor payrolls and the amount of materials used to build the camps Ronald Bishop and his coauthors reveal how journalists positioned the incarceration camps as a potential economic boon and how evacuees were framed as another community group there to contribute to the region s economic well being Community Newspapers and the Japanese American Incarceration Camps examines the rhetoric and journalistic approach of the local papers and how they informed the communities just outside their walls This book will appeal to scholars of history and journalism *Censored* ,2009 *Music Education in an Age of Virtuality and Post-Truth* Paul G. Woodford,2018-10-25 This is a deliberately provocative book crossing many disciplinary boundaries and locating music and art education within a context of contemporary social and political problems in a time of growing disruption and authoritarianism Intended firstly for music teacher educators practicing music teachers and graduate and undergraduate music education majors the book also speaks to arts and media studies teachers parents or others interested in exploring how composing performing improvising conducting listening dancing teaching learning or engaging in music or education criticism are all political acts

because fundamentally concerned with social values and thus inseparable from power and politics Among the book's central themes are the danger of democratic deconsolidation in the West and how music education can help counter that threat through the fostering of democratic citizens who are aware of music's ubiquity in their lives and its many roles in shaping public opinion and notions of truth and for better or for worse The arts can obviously be used for ill but as George Orwell demonstrated in his own work they can also be employed in defense of democracy as modes of political thought and action affording opportunities for the revitalization of society through its reimagining Media Capitalism Thomas Klikauer, 2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism also creates pro-capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book's historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post-media capitalist society

Sousveillance, Media and Strategic Political Communication Vian Bakir, 2010-05-27 Fusing perspectives from politics media studies and cultural studies and focusing on Iraq offers detailed insights into the impact of different media forms
