Matteo Nicolini, Alice Valdesalici, 2023-11-10 The book provides a comprehensive analysis of local government in federations It fills the gap in current legal research and positions local government in federal studies through the lenses of comparative law adopting a more nuanced approach to local government The book considers the shortcomings between the black letter constitution and its operational rules Whether and how the regime of local government is implemented is more relevant than its formal but ineffective recognition The comparative survey discloses the variety local institutions take in different federal contexts Divided into three parts the book comprises chapters investigating local government in systems that to various degrees have been examined and classified as federal Scholars throughout the world have examined the federal local connection in aggregative federations the USA Canada Switzerland Germany Australia and Austria devolutionary ones Belgium Bosnia Herzegovina Italy Spain the UK Argentina Brazil Mexico and the Russian Federation as well as in federations beyond the West where federalism as a colonial legacy has undergone a process of reinvention affecting the federal local connection South Africa Ethiopia India Nigeria Comoros Democratic Republic of Congo Nepal Palau Federated States of Micronesia St Kitts and Nevis United Arab Emirates and Pakistan *Constitutional Change in the Contemporary Socialist World* Ngoc Son Bui, 2020 Comparative constitutional law has a long and distinguished history in intellectual thought and in the construction of public law As political actors and the people who create or modify their constitutional orders they often wish to learn from the experience and learning of others This cross fertilization and mutual interaction has only accelerated with the onset of globalization which has transformed the world into an interconnected web that facilitates dialogue and linkages across international and regional structures Oxford Comparative Constitutionalism seeks to publish scholarship of the highest quality in constitutional law that deepens our knowledge of local national regional and global phenomena through the lens of comparative public law Book jacket [The Constitution of the United States of America](#) Mark Tushnet, 2015-08-27 This is the second edition of Professor Tushnet s short critical introduction to the history and current

**Constitutional Asymmetry in Multinational Federalism** Patricia Popelier, Maja Sahadžić, 2019-02-18 This edited volume examines the link between constitutional asymmetry and multinationalism in multi-tiered systems through a comprehensive and rigorous comparative analysis covering countries in Europe Africa and Asia Constitutional asymmetry means that the component units of a federation do not have equal relationships with each other and with the federal authority In traditional federal theories this is considered an anomaly The degree of symmetry and asymmetry is seen as an indicator of the degree of harmony or conflict within each system Therefore symmetrisation processes tend to be encouraged to secure the stability of the political system However scholars have linked asymmetry with multinational federalism presenting federalism and asymmetry as forms of ethnic conflict management This book offers insights into the different types of constitutional asymmetry the factors that stimulate symmetrisation and asymmetrisation processes and the ways in which constitutional asymmetry is linked with multinationalism

**Territorial Governance in Southeast Asia** Andrew Harding, 2025-01-23 This book assesses territorial governance that is all forms of subnational governance as a constitutional artefact in five Southeast Asian countries Indonesia Malaysia Myanmar the Philippines and Thailand Starting with the linked ideas of localism and subsidiarity the argument is that these states have used various forms of subsidiarity for dealing with ethnic and religious pluralism and the social diversity for which Southeast Asia is especially noted Territorial governance mechanisms discussed range from decentralisation to special regional autonomy federalism and local government including village autonomy A silent revolution has occurred in which our view of these states as highly centralised developmental states is in need of serious modification Southeast Asia the book argues presents a high degree of originality in the framing of territorial governance

The conference covers the topic of governance, international relations, law, education, humanities, and social sciences. The COVID-19 pandemic, first time that occurred in 2019, has brought many changes that constrain all countries to adapt quickly. The crisis has shown vulnerabilities and gaps in several primary systems, including healthcare, social protection, education, value chains, production networks, financial markets, and the ecosystem. One of the efforts that each country can take to rise from the COVID-19 pandemic is through strengthening multilateralism, international solidarity, and global partnerships. Hence, this conference raises the central theme: Strengthening Global Partnership for Resilience. This theme covers sub-themes that allow prospective scholars to submit their papers for Virtual Conferences presentation under the following scopes: Social Sciences, Humanities, Educations, and Religious Studies. Presented papers will also get a chance to be published in our remarkable partner publishers. Through the International Symposium on Social Humanities Education and Religious Studies (ISSHERS) and Asian Conference on Comparative Laws (Asian COL), we hope that participants will express
