Making the Modern Reader Barbara M. Benedict, 2018-12-04 Inquiring into the formation of a literary canon during the Restoration and the eighteenth century Barbara Benedict poses the question Do anthologies reflect or shape contemporary literary taste She finds that there was a cultural dialectic at work miscellanies and anthologies transmitted particular tastes while in turn being influenced by the larger culture they helped to create Benedict reveals how anthologies of the time often created a consensus of literary and aesthetic values by providing a bridge between the tastes of authors editors printers booksellers and readers Making the Modern Reader the first full treatment of the early modern anthology is in part a history of the London printing trade as well as of the professionalization of criticism Benedict thoroughly documents the historical redefinition of the reader once a member of a communal literary culture the reader became private and introspective morally and culturally shaped by choices in reading She argues that eighteenth century collections promised the reader that culture could be acquired through the absorption of literary values This process of cultural education appealed to a middle class seeking to become discriminating consumers of art By addressing this neglected genre Benedict contributes a new perspective on the tension between popular and high culture between the common reader and the elite This book will interest scholars working in cultural studies and those studying noncanonical texts as well as eighteenth century literature in general Originally published in 1996 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Late-Victorian Heroic Lives in the Writings of Frank Mundell Moniez

Baptiste, 2017-08-21 This study explores the work of Frank Mundell a late Victorian author for the Sunday School Union Mundell focused on heroism and represented various kinds of heroic deeds and figures regardless of gender in his books Writing for educative as well as entertaining purposes he avoided the use of didacticism and he endeavoured to combine the traditional and the modern in the stories he chose to tell Mundell s favourite format was that of the prosopography putting

together several heroic lives or incidents He was careful to dedicate each of his volumes to one topic in particular thus distinguishing the different types of heroic deeds from one another His writings belong to four series or collections each highlighting a specific version of heroism from instances of the mundane performed in a familial context to extraordinary deeds He wrote about such bold acts as those featuring in the stories of brave firemen fighting devouring flames fearless sailors in tempestuous seas determined miners risking their lives to save their comrades or intrepid explorers facing perils in the wide world This book analyses each of his publications highlighting the elements belonging to his representation of heroism as a whole

The Legacy of the Moral Tale Patrick C. Fleming,2024-01-12 The Legacy of the Moral Tale made me understand in a way I never had before the form s complexity and vitality and most of all its centrality to any reading of nineteenth century British literature Fleming s lucid and engaging prose makes reading it a pleasure A vibrant voice an original recovery a dynamic rethinking of the tradition Laurie Langbauer author of Novels of Everyday Life The Series in English Fiction 1850 1930 The moral tale was foremost among the new genres of children s literature that emerged in Britain during the late eighteenth and early nineteenth centuries Written expressly to impart moral lessons to their young readers such tales had a profound impact on the generation we now know as the Victorians including such esteemed novelists as Charles Dickens William Thackeray and

George Eliot In this original and discerning study Patrick Fleming traces the rise and subsequent impact of the moral tale through the works of representative authors like Thomas Day whose *Sandford and Merton* was a perennial best seller and Maria Edgeworth whose stories Queen Victoria herself was reading on the eve of her coronation We then see how the popular Newgate novels of the 1830s a genre portraying the lives of criminals adapted the moral tale s narrative conventions to guide readers reactions to the characters vices and how Dickens from *Oliver Twist* 1837 through such later writings as *Hard Times* 1854 and *Great Expectations* 1860 developed his own brand of experiential didacticism which clearly had roots in the moral tales he read as a child By 1859 Fleming shows the impact of the moral tale began to decline amid growing skepticism over systematized education and as Darwinian theory complicated the link between experience and character Scholars studying Victorians childhood reading have typically emphasized fairy tales and eighteenth century novels rather than works especially written for children while children s literature scholars have focused on the Golden Age which began around 1860 and is epitomized by such works as Lewis Carroll s *Alice s Adventures in Wonderland* 1865 However as *The Legacy of the Moral Tale* makes clear children s literature began long before the Golden Age and the moral tale was prominent among the genres the Victorians remembered In revealing this long overlooked connection the book expands our understanding of the history of the novel and highlights the moral instruction to which nineteenth century readers were accustomed PATRICK C FLEMING is an assistant professor of English at Fisk University in Nashville His articles have appeared in *Eighteenth Century Studies* the *Journal of Narrative Theory* and the *Victorian Periodicals Review* *British Women Missionaries in Bengal, 1793-1861* Sutapa Dutta, 2017-11-30 *British Women Missionaries in Bengal 1793-1861* looks at the arrival of the early British women missionaries in Bengal especially when travelling to India or working in missions was neither a spontaneous nor an acceptable career decision for white women The book aims to throw light on a key moment in colonial contact a new interface between two races religions and ways of life From a hesitant beginning as helpmeets to a more confident phase of mission activities in the form of setting up formal educational institutions writing books and so on comprise a long legacy of white women s participation in overseas colonial encounters Historicizing imperial feminism will enable those who choose to use the past to locate and interrogate its ramifications on more modern notions of feminism The advent of the Baptist missionary William Carey in Bengal in 1793 followed by others significantly altered how mission activity was perceived in India From Hannah Marshman who helped her more famous missionary husband Joshua Marshman to open schools for girls to Mary Ann Cooke the first single British woman missionary to come and work in India to Hannah Mullens s contributions to zenana education were all part of a long journey which helped professionalize women s missionary work in the colonies With the death of Hannah Mullens in 1861 the early phase of missionary work came to an end and then began a more proactive phase of evangelization and missionary activity in India **The Legacy of Boadicea** Jodi Mikalachki, 2014-06-17 *The Legacy of Boadicea* explores the construction of personal and national identities in early modern

England It highlights the problems and anxieties of national identity in a nation with no native classical past Written in an accessible style The Legacy of Boadicea offers powerful new readings of the ancient British past in Shakespeare's King Lear and Cymbeline persuasively illuminates a Boadicean heritage in royal iconography drama and the social symptoms of religious dissent articulates parallels between the eventual domestication of Britain's warrior queen in Restoration drama and the social political and legal decline in the status of women
