

Carson PowerChart View-Only Quick Start Guide

- All Health Inc. affiliated providers and their employees can view the CCHLite remote viewing system for video and print medical records that have been created in the PowerChart EMR for all patients.
- Nonetheless, Carson will keep a log of every record you view, so only video records created in the year 2011. However, viewing is a valid historical purpose, so you can explore in 2011 with your provider's patients.
- To access medical records, you must first log into the All Health network through the Information Management Group. All computers at All Health (Pitts, Bedford, and Birmingham) are now on the AllHealth network.
- You can use <http://www.healthinc.org> to log in from a computer and use the AllHealth network. To do this, you must also use All Health's Multi-Point Authentication System.
- Once you log into CCHLite, the applications window from there will need the data received to you. The data received this is: <http://www.healthinc.org/PowerChart/View>
- Please note: your screen looks very different from the screenshots. There are many different view types in Carson, so your screen may vary.
- After logging into CCHLite, there are two ways you can see the medical records:
 - 1. Use Carson to see lab results, radiology reports, and transcriptions. Carson is maintained by All Health Information Management Exchange. Records are not logging in through All Health, so you only see records in Carson created at All Health.
 - 2. Use Carson PowerChart to see those records, and everything in the patient's chart. This document focuses on PowerChart. For more on this document go to Carson.
