## **Charlotte Mecklenburg School Pacing And Alignment Guide:**

The School Improvement Planning Handbook Daniel L. Duke, Marsha Carr, William Sterrett, 2012-12-27 Developing and updating school improvement plans is an annual ritual for virtually all school principals and their school improvement committees. Still, large numbers of schools continue to produce disappointing outcomes. The authors believe that part of the problem is the result of plans that focus on the wrong targets and that rely on ineffective strategies for improvement. To help principals and their school improvement committees develop and implement plans with a greater likelihood of success, the authors offer a step by step process for school improvement planning. They go on to pinpoint specific school improvement goals including raising reading and mathematics achievement, building robust school cultures, addressing the needs of English language learners, improving instruction, and reducing absenteeism and dropouts. For each goal, a variety of objectives and proven strategies is presented along with sample school improvement plans. The book addresses the differences in planning to turn around a low performing school, planning to sustain improvements over time, and planning to move a good school to a great school.

**Transforming Teaching Through Curriculum-Based Professional Learning** James B. Short, Stephanie Hirsh, 2022-08-12 The future of professional learning starts here. Even the most experienced teachers provided with the highest quality instructional materials benefit from additional support to ensure student success. Simply adopting new instructional materials is unlikely to significantly change teacher practice. Ensuring a level of excellence that benefits all students calls for an approach to professional learning that is anchored in the use of high quality curriculum and grounded in immersive learning experiences for all teachers. Transforming Teaching Through Curriculum Based Professional Learning offers a framework for practitioners looking to undertake this work. The curriculum based professional learning detailed here enables teachers to deepen their understanding of the essential components of successful curriculum implementation and work together to provide instruction that has a positive impact on student engagement and learning. Features include Detailed case studies based on actual schools and districts that illustrate the elements of curriculum based professional learning in action. Detailed guidance on the roles and responsibilities of teachers, administrators, and other stakeholders. Comparison charts that show the distinctions between curriculum based professional learning and more traditional forms of professional development. Elements icons that help readers navigate each chapter of the book. Teachers' jobs are changing in real time. When they are supported with both high quality instructional materials and curriculum based professional learning, they can position our schools to achieve the dual goals of equity and excellence.

**Teacher Perception of Pacing Guide Use in the Secondary Classroom** Donna Michele Smith Turner, 2015 Historically, teachers have exercised considerable autonomy in the day to day learning that occurs in their classrooms. Now it is growing increasingly rare for a teacher to

experience this type of professional freedom In response to high stakes testing national and state academic content standards and most recently the common core standards pacing guides are one of the more recent devices schools are using to implement and monitor curriculum The purpose of this research project is to investigate teacher opinion toward these pacing guides An online survey called the Pacing Guide Survey was delivered to secondary regular and special education teachers in core subject areas of mathematics science social studies and language arts The teachers were asked about whether or not they use pacing guides their attitude and comfort level in using pacing guides as well as Information concerning the population of their high school such as demographics enrollment and single or multiple high schools Building level factors such as professional development initiatives methods of curriculum monitoring and pacing guide development and revisions processes teacher factors such as years teaching years using pacing guides confidence in content area and educational background Administrators were also interviewed to form a complete picture of pacing guide development and implementation in the secondary education environment Quantitative data were analyzed using bivariate Spearman s rank order correlation and qualitative data were analyzed using a combination of thematic data analysis and quasi statistical methods Recommendations based on the data collected are Teachers should be provided with the flexibility to address student needs in the classroom Teacher input into pacing guide development implementation and revision process is necessary to ensure that student needs are addressed Team autonomy is key and teacher teams need to be provided with the necessary support structure to provide meaningful learning experiences for their students
