Chaucerian Spaces William F. Woods, 2008-06-30 Chaucerian Spaces explores the affect and the significance of space and place in the first six tales in Chaucer's Canterbury Tales. Relatively little has been written about space in the Canterbury Tales yet the rewards for attending to this aspect of Chaucer's aesthetic are considerable. Space indicates the potential for characteristic action development and a more profound expression of being. In these tales characters inhabit a landscape and places within it that express their inner life. Emelye in her garden, Palamon and Arcite in the grove all occupy spaces or places that manifest social destiny and individual intention. Space and subjectivity change as territories give way to households and the horizons of consciousness shrink to the core of human intent. Most striking is the transformation of women in place. Emelye, Alyson, even Custance and the Wife of Bath dwell in places that express their social and economic potential. They are in place but place is also in them; they merge in metaphor with the places that express them, bringing the reader closer to the sensible, reflective experience of the medieval subject. [Annotated Chaucer bibliography](#) Mark Allen, Stephanie Amsel, 2015-11-01 An extremely thorough, expertly compiled and crisply annotated comprehensive bibliography of Chaucer scholarship between 1997 and 2010. **Water in Medieval Literature** Albrecht Classen, 2017-08-15 Ecocritical thinking has sensitized us more than ever before to the tremendous importance of water for human life as it is richly reflected in the world of literature. The great relevance of water also in the Middle Ages might come as a surprise for many readers but the evidence assembled here confirms that also medieval poets were keenly aware of the importance of water to sustain all life to provide understanding of life's secrets to mirror love and to connect the individual with God. In eleven chapters major medieval European authors and their works are discussed here, taking us from the world of Old Norse to Irish and Latin literature to German, French, English and Italian romances and other narratives. **Studies in the Age of Chaucer** David Matthews, 2011-01-17 Studies in the Age of Chaucer is the annual yearbook of the New Chaucer Society publishing articles on the writing of Chaucer and his contemporaries, their antecedents and successors and their intellectual and social contexts. More generally, articles explore the culture and writing of later medieval Britain, 1200-1500. Each SAC volume also includes an annotated bibliography and reviews of Chaucer-related publications. **Arts & Humanities Citation Index**, 2001. [Chaucer's Early Poetry](#) Wolfgang Clemen, 1963. **Chaucer's Dream-poems** James Winny, 1973. **Chaucer's Dream Poetry** Helen Phillips, Nick Havely, 2016-02-04 Dream literature is regarded as one of the most important genres in medieval literature and is widely studied. This text provides a succinct and clear introduction to the five central poems that comprise Chaucer's Dream Poetry and shows his role as a leading adapter of European literary tradition into English literature. The poems discussed are The Book of the Duchess, The Legend of Good Women, The Legend of Dido, The Parliament of Fowls and The House of Fame. Each has an introduction setting the poem within the context of Dream Poetry and Chaucer's own work. Appendices of proper names, pronunciation and criticism are also given. This volume is unique in presenting the poems.
