In other words, you say how the evidence justifies your conclusions (and the thesis).                                        |

|            |          |                          |                                                                                                                                                                                                                                                  |
|------------|----------|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Conclusion | <b>T</b> | <b>Thesis</b>            | Restate the Thesis, perhaps in a slightly different form to that used in the introduction.                                                                                                                                                       |
|            | <b>A</b> | <b>Arguments</b>         | Make clear the separate arguments that were presented in the essay, including the way each point is interrelated and/or linked.                                                                                                                  |
|            | <b>G</b> | <b>General statement</b> | End your essay with a final, summarising statement (try and avoid quotes, they can be very clichéd) that re-contextualises your main arguments into the broader ideas of the field of study / how this is a significant topic for investigation. |
