Coming of Age in Contemporary American Fiction Kenneth Millard, 2007-04-18 This book explores the ways in which a range of recent American novelists have handled the genre of the coming of age novel or the Bildungsroman. Novels of this genre characteristically dramatise the vicissitudes of growing up and the trials and tribulations of young adulthood often presented through depictions of immediate family relationships and other social structures. This book considers a variety of different American cultures in terms of race class and gender and a range of contemporary coming of age novels so that aesthetic judgements about the fiction might be made in the context of the social history that fiction represents. A series of questions are asked: Does the coming of age moment in these novels coincide with an interpretation of the fall of America? What kind of national commentary does it therefore facilitate? Is the Bildungsroman a quintessentially American genre? What can it usefully tell us about contemporary American culture? Although the focus is on the content
