

CSI Geometry: Logic & Reasoning

Detectives,

Who's another month without a series of high profile robberies at the hands of the Mathemagicians? The evil genius terrorist group has pulled off another elaborate crime spree that has left the country of France in dismay. As the Mathemagicians work to build their world conquering device, our investigators are trying to piece together the thefts by an anonymous associate, Quasi Truthful.

Codry as always, the Mathemagicians have left behind a trail of mathematical puzzles and a cryptic text message that must be solved. After solving the puzzles, you can decode the message which will lead to Quasi's favorite number. So far there are six suspects that police have questioned. It is hoped that someone with relatively strong geometry and reasoning skills can crack the codes that have puzzled the detectives on the case so far.

Since you are being brought in as a specialist you have to have definite proof in order for any arrest to hold up in court. You need to be prepared to state your case and demonstrate your understanding of the following skills that Quasi is known to use in the notes.

- Logic and Conjectures
- Compound Statements
- Venn Diagrams
- Deductive Reasoning

Be sure to include:

- Other examples of the concepts
- Definitions
- Any other relevant information.

Keep in mind, the slightest miscalculation or illegible footnote could result in a not guilty verdict. Oh, did I mention that use of a calculator might prematurely set off his world conquering device?

Good luck to you, gunshooter.
