Dying to Eat Candi K. Cann, 2018-01-05 Food has played a major role in funerary and memorial practices since the dawn of the human race In the ancient Roman world for example it was common practice to build channels from the tops of graves into the crypts themselves and mourners would regularly pour offerings of food and drink into these conduits to nourish the dead while they waited for the afterlife Funeral cookies wrapped with printed prayers and poems meant to comfort mourners became popular in Victorian England while in China Japan and Korea it is customary to offer food not only to the bereaved but to the deceased with ritual dishes prepared and served to the dead Dying to Eat is the first interdisciplinary book to examine the role of food in death bereavement and the afterlife The contributors explore the phenomenon across cultures

and religions investigating topics including tombstone rituals in Buddhism Catholicism and Shamanism the role of death in the Moroccan approach to food and the role of funeral casseroles and church cookbooks in the Southern United States This innovative collection not only offers food for thought regarding the theories and methods behind these practices but also provides recipes that allow the reader to connect to the argument through material experience Illuminating how cooking and corpses both transform and construct social rituals Dying to Eat serves as a fascinating exploration of the foodways of death and bereavement

Leadership in Extreme Situations Michael Holenweger, Michael Karl Jager, Franz Kernic, 2017-04-25 This book covers various aspects of leadership in critical situations and under extreme conditions Today's leaders often face challenging situations or unexpected difficulties and mastering these requires a wide spectrum of competencies such as creativity courage and empathy Therefore this book provides an interdisciplinary

approach including both theoretical concepts and practical findings relevant to optimizing leadership in extreme situations. Issues such as why people act as they do in stressful and extreme situations or what constitutes the nexus between leadership, followership, organizations and culture etc are addressed. Leadership under extreme conditions is a very complex topic and one that has been approached from a variety of perspectives. The contributions to this volume thus originate from various academic disciplines including political science, social sciences, psychology and philosophy. Insights from the study of in extremis leadership can help researchers and practitioners understand the individual, team and contextual factors that influence leadership and ultimately organizational efficiency and effectiveness. Leadership in Extreme Situations is a collection of contributions by selected scholars and field experts. It addresses key issues of leadership, morale and cohesion as well as ethical questions, provides an ideal entry into the complex world of advanced leadership and serves as a practical guide for the successful implementation of modern leadership.

Psychology: An Introduction for Health Professionals

Debra O'Kane, 2023-09-01. Understanding the basics of psychology, what drives human choices and behaviours underpins good practice in health. Psychology: An Introduction for Health Professionals presents the latest relevant theories and concepts as well as their application to specific health issues and clinical practice. Written by Deb O'Kane and other leading experts in the field, this book will help you understand more about why people act in certain ways related to their health and wellbeing, from diagnoses, health interventions and outcomes. For example, why does a person not complete a full course of antibiotics or how can you expect someone to respond to stress, loss or pain? Scenarios and reflection questions help to bring important psychology concepts to life. The book is written specifically for health science and nursing students undertaking discrete units of study in psychology but will also be applicable to practitioners in their daily work. Includes relevant theories and concepts in psychology incorporating latest evidence. Focus on application to practice suitable for both students and health practitioners. Covers the lifespan from birth to ageing. Suite of 55 scenarios with reflection questions, additional 55 available on Evolve bringing theory to life. Suitable for students in multiple different health disciplines. Instructor resources on Evolve: PowerPoints, Testbank, Image Collection, Answer Key, Student Practice Questions, Additional Discipline specific Case Studies. Updated to reflect priority issues impacting individuals and health practice such as COVID-19. Content divided into three sections for easy navigation: from theories and underpinning knowledge through to application to health issues and discipline specific cases. Addition of crisis health including major disasters and the pandemic.

The Crafting of Grief

Lorraine Hedtke, John Winslade, 2016-07-15. Many books on grief lay out a model to be followed either for bereaved persons to live through or for professionals to practice and usually follow some familiar prescriptions for what people should do to reach an accommodation with loss. The Crafting of Grief is different; it focuses on conversations that help people chart their own path through grief. Authors Hedtke and Winslade argue convincingly that therapists and counselors can support people more by helping them craft their own responses to bereavement rather than trying to squeeze experiences into a model. In the

pages of this book readers will learn how to develop lines of inquiry based on the concept of continuing bonds and they will discover ways to use these ideas to help the bereaved craft stories that remember loved ones' lives Death, Dying, and Bereavement in a Changing World Alan Kemp, 2018-11-02 In this introductory text on thanatology Alan Kemp continues to take on the central question of mortality the centrality of death coupled with the denial of death in the human experience Drawing from the work of Ernest Becker *Death Dying and Bereavement in a Changing World* provides a multidisciplinary and multidimensional approach to the study of death putting extra emphasis on the how death takes place in a rapidly changing world This new second edition includes the most up to date research data and figures related to death and dying New research on the alternative death movement natural disaster related deaths and cannabis as a form of treatment for life threatening illnesses and updated research on physician assisted suicide as well as on grief as it relates to the DSM 5 have been added **End-of-Life Care, Dying and Death in the Islamic Moral Tradition**, 2022-12-05 Modern biomedical technologies managed to revolutionise the End of Life Care EoLC in many aspects The dying process can now be engineered by managing the accompanying physical symptoms or by prolonging hastening death itself Such interventions questioned and problematised long established understandings of key moral concepts such as good life quality of life pain suffering good death appropriate death dying well etc This volume examines how multifaceted EoLC moral questions can be addressed from interdisciplinary perspectives within the Islamic tradition Contributors Amir Abbas Alizamani Beate Anam Hamed Arezaei Asma Asadi Pieter Coppens Hans Daiber Khalid Elzamzamy Mohammed Ghaly Hadil Lababidi Shahaboddin Mahdavi Aasim Padela Rafaqat Rashid and Ayman Shabana **The Deceased-focused Approach to Grief** Frank E. Eyetsemitan, 2022-04-22 Conventional grief models focus on the bereaved including actions that they need to take to get back to normalcy following the death of a loved one This book suggests that it might be helpful in the grieving process to focus on the deceased instead Research points to the benefits of altruistic acts and thoughts including improvements in mood Altruistic acts and thoughts also could be extended to the deceased who in death has experienced a loss as well By taking on the perspective of and being empathic toward the deceased a response shift occurs that could result in mood improvement and happiness in the bereaved The book provides guidelines for this alternative grief model in the death of a child of a teenager of a spouse partner and of a sibling and in multiple deaths and in persistent grief experience among others Based on motivational principles a workbook is also provided for monitoring progress in coping with bereavement Comprehension questions and additional readings are provided in each chapter to help the reader further explore the topic at hand This book would be useful in a course on death dying and bereavement to healthcare practitioners bereavement counsellors and to scholars in death dying and bereavement across different fields including psychology sociology social work public health and religion Most grief models focus on the bereaved including actions the survivor needs to take to get back to normalcy after a loss However in the grieving process it might be helpful if attention is shifted to the deceased instead The bereaved by doing

things she or he perceives as pleasing to the deceased might receive healing and satisfaction in return Lisa Farino 2010 notes that there is no shortage of research pointing to the beneficial effects of focusing on others In a study by Carolyn Schwartz and Rabbi Meir Sendor 1999 lay people with a chronic disease were trained to provide compassionate unconditional regard to others who had the same illness The results showed that the providers of care and compassion reported better quality of life than the recipients of care and compassion even though both givers and receivers had the same disease The givers showed profound improvements in confidence self awareness self esteem depression and in role functioning The researchers emphasized the beneficial importance of response shift the shifting of internal standards values and concept definition of health and well being in dealing with one s own adversity Farino 2010 notes that this research is profound because in western culture the belief is that feeling happy tends to be getting something for yourself There are biological origins to the notion that it s better to give than to receive Using the functional magnetic resonance imaging fMRI researchers were able to demonstrate a connection between brain activity and giving People who gave voluntarily and also for a good cause experienced more activation of the part of brain that controls for pleasure and happiness e g Harbaugh Mayr Burghart 2007 Studies show that about 7% of the US population experience complicated or prolonged grief disorder e g Kersting et al 2011 This is persistent grief that does not go away and many parents tend to experience this after the loss of a child In their study Catherine Rogers and colleagues 2008 found bereaved parents reporting more depressive symptoms poorer well being and more health problems after a child s loss almost 20 years later Survivors usually show concern about how their deceased loved ones felt prior to death and if happy or not in the afterlife e g Eyetsemitan Eggleston 2002 A study reported respondents used emotion discrete terms such as sad happy or angry to describe the faces of deceased persons The researchers suggested that the perceived emotional state of a deceased loved one could impact on the survivor s mourning trajectory e g Eyetsemitan Eggleston 2002 The bereavement model of placing focus on the deceased instead provides an alternative to existing bereavement models in helping the survivor to cope with a loss EMDR Therapy Treatment for Grief and Mourning Roger M. Solomon,2024 Roger M Solomon examines how EMDR Eye Movement Desensitization and Reprocessing therapy can help process the trauma of loss and the obstacles that interfere with the grief and mourning process highlighting how EMDR can help a mourner experience a positive sense of connection through heartfelt meaningful memories *Supporting Pet Owners Through Grief* Ryane E. Englar,Jill Englar,Teresa Graham Brett,2023-10-31 An empathic and emotional exploration of the inevitable subject of grief that veterinarians will regularly encounter throughout their relationships with clients on their journey through the care and management of animal patients The authors take an informed and supportive look at the philosophical and psychological impacts of grief emphasizing the individual experiences of clients while also addressing the impacts on the veterinarian and veterinary team Chapters cover the importance of the human animal bond unique circumstances relating to grief practical tool kit approaches that help the vet work alongside the

client in a way that is supportive and practically helpful self management resources for a veterinary centric view of managing the process of euthanasia death and grief Supporting Pet Owners Through Grief provides practitioners and students alike with tools to better understand grief and its impact on the human animal bond Veterinary team members will also learn how to navigate their own mix of emotions as they themselves experience and process recurrent grief that can contribute to compassion fatigue and burnout 5m Books

Handbook of Social Justice in Loss and Grief Darcy L. Harris,Tashel C. Bordere,2016-02-05 The Handbook of Social Justice in Loss and Grief is a scholarly work of social criticism richly grounded in personal experience evocative case studies and current multicultural and sociocultural theories and research It is also consistently practical and reflective challenging readers to think through responses to ethically complex scenarios in which social justice is undermined by radically uneven opportunity structures hierarchies of voice and privilege personal and professional power and unconscious assumptions at the very junctures when people are most vulnerable at points of serious illness confrontation with end of life decision making and in the throes of grief and bereavement Harris and Bordere give the reader an active and engaged take on the field enticing readers to interrogate their own assumptions and practices while increasing chapter after chapter their cultural literacy regarding important groups and contexts The Handbook of Social Justice in Loss and Grief deeply and uniquely addresses a hot topic in the helping professions and social sciences and does so with uncommon readability

International Perspectives on End-of-Life Law Reform Ben P. White,Lindy Willmott,2021-12-09 Much has been written about whether end of life law should change and what that law should be However the barriers and facilitators of such changes law reform perspectives have been virtually ignored Why do so many attempts to change the law fail but others are successful International Perspectives on End of Life Law Reform aims to address this question by drawing on ten case studies of end of life law reform from the United Kingdom the United States Canada the Netherlands Belgium and Australia Written by leading end of life scholars the book s chapters blend perspectives from law medicine bioethics and sociology to examine sustained reform efforts to permit assisted dying and change the law about withholding and withdrawing life sustaining treatment Findings from this book shed light not only on changing end of life law but provide insight more generally into how and why law reform succeeds in complex and controversial social policy areas
