**George R. R. Martin Starter Pack 4-Book Bundle** George R. R. his most devoted fans A GAME OF THRONES The only fantasy series I'd put on a level with J.R.R. Tolkien's The Lord of the Rings It's a fantasy series for hip smart people even those who don't read fantasy Chicago Tribune In a land where summers can last decades and winters a lifetime trouble is brewing As sinister forces mass beyond the kingdom's protective Wall the king's powers are failing his most trusted adviser is dead and his enemies are emerging from the shadows of the throne At the center of the conflict lie the Starks of Winterfell a family as harsh and unyielding as the frozen land they were born to Now Lord Eddard Stark is reluctantly summoned to serve as the king's new Hand an appointment that threatens to sunder not only his family but the kingdom itself DREAMSONGS VOLUME I The ideal way to discover a master of science fiction fantasy and horror Martin is a writer like no other The Guardian U.K. Gathered here are the very best of Martin's early works including his Hugo Nebula and Bram Stoker award winning stories cool fan pieces and the original novella The Ice Dragon from which his New York Times bestselling children's book of the same title originated With extensive author commentary Dreamsongs Volume I is a rare treat offering fascinating insights into Martin's journey from young writer to award winning master FEVRE DREAM An adventure into the heart of darkness that transcends even the most inventive vampire novels Los Angeles Herald Examiner Abner Marsh a struggling riverboat captain suspects that something's amiss when he is approached by a wealthy aristocrat with a lucrative offer The hauntingly pale steely eyed Joshua York doesn't care that the icy winter of 1857 has wiped out all but one of Marsh's dilapidated fleet Not until the maiden voyage of Fevre Dream does Marsh realize that he has joined a mission both more sinister and perhaps more noble than his most fantastic nightmare and humankind's most impossible dream THE ARMAGEDDON RAG The best novel concerning the American pop music culture of the sixties I've ever read Stephen King Onetime underground journalist Sandy Blair has come a long way from his radical roots in the sixties until he's drawn back by the bizarre and brutal murder of a rock promoter who made millions with a band called the Nazg l As Sandy investigates the crime he finds himself drawn back into his own past For a new messiah has resurrected the Nazg l along with a requiem of demonism mind control and death whose apocalyptic tune only Sandy may be able to change **Speaking Beyond Earth** Paul E. Quast, David Dunér, 2024-04-03 Since the dawn of the Space Age small cohorts of humanity have broadcast signals towards other stars fabricated space time capsules to speak for Earth aboard interstellar probes deposited collections of space oddities on other astronomical bodies and permanently incised the memory of our species across the deep time legacy of the Sol System Many of these purposeful messages are the consequence of age old behaviors traditions and material practices using modern aerospace technologies Most attempt to preserve narratives of human experience in social exchange devices for imagined exotic audiences Looking back upon this accumulative history of messaging from Earth how do we begin to interpret such an eclectic portrait of Earth for ourselves Surveying and cataloguing the variety of these artifacts through a series of interdisciplinary essays and visual documentation this volume chronicles our changing relationships customs and assumptions made within this material culture for our own eyes What do

these autobiographical accounts tell us about Terrans and our minds set against the backdrop of our planetary history

Comics and Stuff Henry Jenkins, 2020-04-14 Considers how comics display our everyday stuff junk drawers bookshelves attics as a way into understanding how we represent ourselves now For most of their history comics were widely understood as disposable you read them and discarded them and the pulp paper they were printed on decomposed over time Today comic books have been rebranded as graphic novels clothbound high gloss volumes that can be purchased in bookstores checked out of libraries and displayed proudly on bookshelves They are reviewed by serious critics and studied in university classrooms A medium once considered trash has been transformed into a respectable if not elite genre While the American comics of the past were about hyperbolic battles between good and evil most of today's graphic novels focus on everyday personal experiences Contemporary culture is awash with stuff They give vivid expression to a culture preoccupied with the processes of circulation and appraisal accumulation and possession By design comics encourage the reader to scan the landscape to pay attention to the physical objects that fill our lives and constitute our familiar surroundings Because comics take place in a completely fabricated world everything is there intentionally Comics are stuff comics tell stories about stuff and they display stuff When we use the phrase and stuff in everyday speech we often mean something vague something like etcetera In this book stuff refers not only to physical objects but also to the emotions sentimental attachments and nostalgic longings that we express or hold at bay through our relationships with stuff In Comics and Stuff his first solo authored book in over a decade pioneering media scholar Henry Jenkins moves through anthropology material culture literary criticism and art history to resituate comics in the cultural landscape Through over one hundred full color illustrations using close readings of contemporary graphic novels Jenkins explores how comics depict stuff and exposes the central role that stuff plays in how we curate our identities sustain memory and make meaning Comics and Stuff presents an innovative new way of thinking about comics and graphic novels that will change how we think about our stuff and ourselves
