## **Deer Hunting With Jesus Dispatches From Americas Class War:**

**Deer Hunting with Jesus** Joe Bageant, 2008-06-24 Years before Hillbilly Elegy and White Trash a raucous truth telling look at the white working poor and why they have learned to hate liberalism What it adds up to he asserts is an unacknowledged class war By turns tender incendiary and seriously funny this book is a call to arms for fellow progressives with little real understanding of the great beery NASCAR loving church going gun owning America that has never set foot in a Starbucks Deer Hunting with Jesus is Joe Bageant s report on what he learned when he moved back to his hometown of Winchester Virginia Like countless American small towns it is fast becoming the bedrock of a permanent underclass Two in five of the people in his old neighborhood do not have high school diplomas or health care Alcohol overeating and Jesus are the preferred avenues of escape He writes of His childhood friends who work at factory jobs that are constantly on the verge of being outsourced The mortgage and credit card rackets that saddle the working poor with debt The ubiquitous gun culture and why the left doesn t get it Scots Irish culture and how it played out in the young life of Lyndie England **They Rule** Paul Street, 2015-11-17 They Rule reflects on key political questions raised by the Occupy movement showing how similar questions have been raised by previous generations of radical activists who really owns and rules the US Does it matter that the nation is divided by stark class disparities and a concentration of wealth in the hands of a few Along the way this book sharpens readers sense of who the US oligarchy are including how their fortunes have changed over the course of US history how they live and think and how to detect and de cloak them They Rule is a masterful historical and political analysis revealing what lies beneath the surface of US society and what ordinary people can do to bring about social change **Meth Wars** Travis Linnemann, 2018-08-28 How the War on Drugs is maintained through racism authority and public opinion From the hit television series Breaking Bad to daily news reports anti drug advertising campaigns and highly publicized world wide hunts for narcoterrorists such as Joaquin El Chapo Guzman the drug methamphetamine occupies a unique and important space in the public s imagination In Meth Wars Travis Linnemann situates the meth epidemic within the broader culture and politics of drug control and mass incarceration Linnemann draws together a range of examples and critical interdisciplinary scholarship to show how methamphetamine and the drug war more generally are part of a larger governing strategy that animates the politics of fear and insecurity and links seemingly unrelated concerns such as environmental dangers the politics of immigration and national security policing tactics and terrorism The author s unique analysis presents a compelling case for how the supposed meth epidemic allows politicians small town police and government counter narcotics agents to engage in a singular policing project in service to the broader economic and geostrategic interests of the United States **Outclassed** Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the

next pandemic Yes changing the class dynamics driving American politics The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands In *Outclassed* Joan C Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more Williams demonstrates how working class values reflect working class lives Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice *Outclassed* offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals

Gratitude, Injury, and Repair in a Pandemic Age Michael Reid Trice, Patricia O'Connell Killen, 2025-01-02 Scholarly insight and reflection on finding meaning in the psychological impact of the COVID 19 pandemic The COVID 19 pandemic caused a horrific loss of life and had tremendous long lasting psychological effects Diagnoses of anxiety and mental illness are now at much higher levels than they were in 2019 For believers the pandemic raised questions about the nature of God increasing the need for pastoral care and resources to make sense of such a deep disruption *Gratitude Injury and Repair in a Pandemic Age* presents twelve reflections on the pandemic and its impact from the Jewish Muslim Hindu nonbelieving and Christian traditions The chapters offer scholarly insight and rigor while also incorporating personal reflections on what it means to work through such a life changing event and make meaning in the moments when life confronts us as partial fragmented and fragile This edited volume will be valuable for students and scholars of multiple faith traditions as well as those engaged in interreligious dialogue and theology *Change They Can't Believe In* Christopher S. Parker, Matt A.

Barreto, 2014-10-26 How the political beliefs of Tea Party supporters are connected to far right social movements Are Tea Party supporters merely a group of conservative citizens concerned about government spending Or are they racists who refuse to accept Barack Obama as their president because he's not white *Change They Can't Believe In* offers an alternative argument that the Tea Party is driven by the reemergence of a reactionary movement in American politics that is fueled by a fear that America has changed for the worse Providing a range of original evidence and rich portraits of party sympathizers as well as activists Christopher Parker and Matt Barreto show that the perception that America is in danger directly informs how Tea Party supporters think and act In a new afterword Parker and Barreto reflect on the Tea Party's recent initiatives including the 2013 government shutdown and evaluate their prospects for the 2016 election Going to My Father's House

Patrick Joyce, 2021-07-27 A historian's personal journey into the complex questions of immigration home and nation From Ireland to London in the 1950s Derry in the Troubles to contemporary de industrialised Manchester Joyce finds the ties of

place family and the past are difficult to break Why do certain places continue to haunt us What does it mean to be British after the suffering of Empire and of war How do we make our home in a hypermobile world without remembering our pasts Patrick Joyce s parents moved from Ireland in the 1930s and made their home in west London But they never really left the homeland And so as he grew up among the streets of Paddington and Notting Hill and when he visited his family in Ireland he felt a tension between the notions of home nation and belonging Going to My Father s House charts the historian s attempt to make sense of these ties and to see how they manifest in a globalised world He explores the places the house the street the walls and the graves that formed his own identity He ask what place the ideas of history heritage and nostalgia have in creating a sense of our selves He concludes with a plea for a history that holds the past to account but also allows for dynamic inclusive change

Family History and Historians in Australia and New Zealand Malcolm Allbrook, Sophie Scott-Brown, 2021-06-27 Since the turn of the twenty first century family history is the place where two great oceans of research are meeting family historians outside the academy with traditionally trained often university employed historians This collection is both a testament to dialogue and an analysis of the dynamics of recent family history that derives from the confluence of professional historians with family historians their common causes and conversations It brings together leading and emerging Australian and New Zealand scholars to consider the relationship between family history and the discipline of history and the potential of family history to extend the scope of historical inquiry even to revitalise the discipline In Anglo Western culture the roots of the discipline s professionalisation lay in efforts to reconstruct history as objective knowledge to extend its subject matter and to enlarge the scale of historical enquiry Family history almost by definition is often inescapably personal and localised How then have historians responded to this resurgence of interest in the personal and the local and how has it influenced the thought and practice of historical enquiry

**Useful Enemies** David Keen, 2012-07-31 Keen investigates why conflicts are so prevalent and so intractable even when one side has much greater military resources He asks who benefits from wars whether economically politically or psychologically and argues that in order to bring them successfully to an end we need to understand the complex vested interests on all sides

**Strangers in Their Own Land** Arlie Russell Hochschild, 2018-02-20 The National Book Award Finalist and New York Times bestseller that became a guide and balm for a country struggling to understand the election of Donald Trump A generous but disconcerting look at the Tea Party This is a smart respectful and compelling book Jason DeParle The New York Times Book Review When Donald Trump won the 2016 presidential election a bewildered nation turned to Strangers in Their Own Land to understand what Trump voters were thinking when they cast their ballots Arlie Hochschild one of the most influential sociologists of her generation had spent the preceding five years immersed in the community around Lake Charles Louisiana a Tea Party stronghold As Jedediah Purdy put it in the New Republic Hochschild is fascinated by how people make sense of their lives Her attentive detailed portraits reveal a gulf between Hochschild s strangers in their own land and a new elite Already a favorite common

read book in communities and on campuses across the country and called humble and important by David Brooks and masterly by Atul Gawande Hochschild's book has been lauded by Noam Chomsky New Orleans mayor Mitch Landrieu and countless others The paperback edition features a new afterword by the author reflecting on the election of Donald Trump and the other events that have unfolded both in Louisiana and around the country since the hardcover edition was published and also includes a readers group guide at the back of the book     Putting Inequality in Context Christopher Ellis, 2021-03-11 Rising income inequality is highlighted as one of the largest challenges facing the United States affecting civic participation and political representation Although the wealthy often can and do exert more political influence this is not always the case To fix political inequality it is important to understand exactly how class divisions manifest themselves in political outcomes and what factors serve to enhance or depress inequalities in political voice Christopher Ellis argues citizens and legislators views of class politics are driven by lived experience in particular communities While some experience is formally political on an informal basis citizens learn a great deal about their position in the broader socioeconomic spectrum and the social norms governing how class intersects with day to day life These factors are important for policymakers since most legislators do not represent the public at large but specific constituencies Focusing on U S congressional districts as the contextual unit of interest Ellis argues individuals political behavior cannot be separated from their environment and shows how income's role in political processes is affected by the contexts in which citizens and legislators interact Political inequality exists in the aggregate but it does not exist everywhere It is rather a function of specific arrangements that depress the political influence of the poor Identifying and understanding these factors is a crucial step in thinking about what reforms might be especially helpful in enhancing equality of political voice     *Global Elites* A. Kakabadse, 2011-12-12 Exploring the nature configuration and influence of global elites this book examines the impact of elites on transnational policy development and strategically on corporations as board members of PLCs and international joint ventures Overall the book provides a balanced view of how our present day elites operate     *The Anti-Education Era* James Paul Gee, 2013-01-08 One of the first champions of the positive effects of gaming reveals the dark side of today's digital and social media Today's schools are eager to use the latest technology in the classroom but rather than improving learning the new e media can just as easily narrow students horizons Education innovator James Paul Gee first documented the educational benefits of gaming a decade ago in his classic *What Video Games Have to Teach Us About Learning and Literacy* Now with digital and social media at the center of modern life he issues an important warning that groundbreaking new technologies far from revolutionizing schooling can stymie the next generation's ability to resolve deep global challenges The solution and perhaps our children's future lies in what Gee calls synchronized intelligence a way of organizing people and their digital tools to solve problems produce knowledge and allow people to count and contribute Gee explores important strategies and tools for today's parents educators and policy makers including virtual worlds artificial tutors and ways to

create collective intelligence where everyday people can solve hard problems By harnessing the power of human creativity with interactional and technological sophistication we can finally overcome the limitations of today's failing educational system and solve problems in our high risk global world The Anti Education Era is a powerful and important call to reshape digital learning engage children in a meaningful educational experience and bridge inequality What Is a Human? James Paul Gee, 2020-09-17 In a sweeping synthesis of new research in a number of different disciplines this book argues that we humans are not who we think we are As he explores the interconnections between cutting edge work in bioanthropology evolutionary biology neuroscience human language and learning and beyond James Paul Gee advances also a personal philosophy of language learning and culture informed by his decades of work across linguistics and the social sciences Gee argues that our schools institutions legal systems and societies are designed for creatures that do not exist thus resulting in multiple interacting crises such as climate change failing institutions and the rise of nationalist nationalism As Gee constructs an understanding of the human that takes into account our social collective and historical nature as established by recent research he inspires readers to reflect for themselves on the very question of who we are a key consideration for anyone interested in society government schools health activism culture and diversity or even just survival **Man on Fire** Humphrey Hawksley, 2021-06-01 A tense firefight on the Russian American border heralds the start of a terrifying high stakes mission for special forces agent Major Rake Ozenna in this gripping espionage thriller Instructed to guide in a speed boat crossing from Russia in the Bering Strait special forces Major Rake Ozenna watches in horror as the operation culminates in a fatal firefight and the loss of vital intelligence of a deadly new weapon A weapon of unimaginable power A weapon that if it were unleashed would cripple civilization as we know it But who sabotaged the mission Who possesses the weapon and what is their ultimate goal Rake's search takes him to the remote outpost of Uelen on the Russian coast and the discovery that he is up against a formidable enemy from his past As world leaders gather in Bonn for the signing of the new European security treaty Rake enters a desperate race against time to prevent a catastrophe beyond imagining This fast paced impeccably researched highly topical thriller is perfect for readers of CLIVE CUSSLER LEE CHILD and ROBERT LUDLUM **International Politics and Inner Worlds** Kurt Jacobsen, 2017-06-28 This book takes radical aim at the conventional conduct of international relations analysis It reexamines the role of ideas the usefulness of psychoanalysis the rage for and at rational choice the influence of the public on foreign policy counterinsurgency evangelism and development orthodoxies at the national and genetic levels Drawing a bead on conceptual blind spots prevalent both inside and outside the academy the book urges scholars to reflect on how inner worlds shape the actions of their subjects and their own research analyses as well Media Capitalism Thomas Klikauer, 2022-01-01 This book argues that media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism

also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass poverty rising inequalities and the acceleration of global warming To illuminate this the book s historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society

**More Than Title IX** Katherine Hanson,Vivian Guilfooy,Sarita Pillai,2009-07-16 Women in America have come a long way in the last hundred years from lacking the right to vote to holding some of the highest profile positions in the country But this change has not come without struggle More Than Title IX highlights the impact of one of the most powerful instruments of change education The book takes readers behind the scenes of some of the most influential moments for gender equity in education and tells the dramatic stories of the women and men who made these changes possible The narrative blends historical analysis with dynamic interview excerpts with people whose actions made a difference in both educational equity and in the country as a whole By showing how hard won changes in education have improved life for women and men in America over the past century the authors remind readers not to take freedoms for granted

**How to Think about the Climate Crisis** Graham Parkes,2020-11-26 Choice Outstanding Academic Title 2021 Coping with the climate crisis is the greatest challenge we face as a species We know the main task is to reduce our emissions as rapidly as possible to minimise the harm to the world s population now and for generations to come What on earth can philosophy offer us In this compelling account of a problem we think we know inside out the philosopher Graham Parkes outlines the climatic predicament we are in and how we got here and explains how we can think about it anew by considering the relevant history science economics politics and for the first time the philosophies underpinning them Introducing the reality of global warming and its increasingly dire consequences he identifies the immediate obstructions to coping with the problem outlines the libertarian ideology behind them and shows how they can be circumvented Drawing on

the wisdom of the ancients in both the East Asian and Western traditions as embodied in such figures as Confucius Laozi Zhuangzi Dogen Plato Epicurus Marcus Aurelius and Nietzsche Parkes shows how a greater awareness of non Western philosophies and especially the Confucian political philosophy advocated by China can help us deal effectively with climate change and thrive in a greener future If some dominant Western philosophical ideas and their instantiation in politics and modern technology got us into our current crisis Parkes demonstrates persuasively that expanding our philosophical horizons will surely help get us out
