Farmers Markets Success Failure And Management Ecology:

Farmers' Markets Garry Owen Stephenson, 2008 *Farmers Markets Success Failure and Management Ecology* is the only book presently available that investigates the current phenomenal growth of farmers markets in the U S The research is a reflection of a period marked by growing consumer interest in locally produced foods a resistance toward a globalizing food system and seemingly boundless interest in and support for farmers markets Using an ecological approach the book explores historic trends related to growth and decline in market numbers examines the management organization associated with markets of specific sizes analyzes the characteristics and issues associated with markets that fail and offers a model that illustrates how farmers market organizers successfully adapt to barriers and challenges in their environment The book engages a node in the food system that has implications for the economic health of small farms and the social and economic life of communities The book incorporates both the academic and the practical It will be an important reference to students and researchers across disciplines with interests in food system research as well as practitioners managing or working with farmers markets As an applied study the book provides information and recommendations to assist markets with decision making and strategic planning Although the focus of this research is on one area in the United States the findings have broad application The foreword to this study is by distinguished scholar and food system analyst Gail Feenstra of the Sustainable Agriculture Research and Education Program SAREP at the University of California Davis

Success, Failure and the Management Ecology of Oregon's Farmers' Markets Garry Owen Stephenson, 2006 **Farmers' Markets**, *The SAGE Encyclopedia of Food Issues* Ken Albala, 2015-03-27 The SAGE Encyclopedia of Food Issues explores the topic of food across multiple disciplines within the social sciences and related areas including business consumerism marketing and environmentalism In contrast to the existing reference works on the topic of food that tend to fall into the categories of cultural perspectives this carefully balanced academic encyclopedia focuses on social and policy aspects of food production safety regulation labeling marketing distribution and consumption A sampling of general topic areas covered includes Agriculture Labor Food Processing Marketing and Advertising Trade and Distribution Retail and Shopping Consumption Food Ideologies Food in Popular Media Food Safety Environment Health Government Policy and Hunger and Poverty This encyclopedia introduces students to the fascinating and at times contentious and ever so vital field involving food issues Key Features Contains approximately 500 signed entries concluding with cross references and suggestions for further readings Organized A to Z with a thematic Reader's Guide in the front matter grouping related entries by general topic area Provides a Resource Guide and a detailed and comprehensive Index along with robust search and browse functionality in the electronic edition This three volume reference work will serve as a general non technical resource for students and researchers who seek to better understand the topic of food and the issues surrounding it

Globalizing Organic Rafi Groszlik, 2021-02-01 *Globalizing Organic* focuses on the globalization of a culture of eating for change and the ways in which

local meanings attached to the production of foods embed ecological and social values Rafi Groszlik examines how organic agriculture was integrated in Israel a state in which agriculture was a key mechanism in promoting Jewish nationalism and in time has become highly mechanized and technologically sophisticated He explores how organic food which signifies environmental protection and social equity has been realized in a country where environmental issues are perceived as less pressing compared to inner political conflicts the Israeli Arab conflict and recurrent wars Based on more than a decade of ethnographic fieldwork interviews and analysis of historical documents and media Groszlik traces how alternative food movements are affected by global and local trends He covers a wide range of topics including the ethos of halutzim pioneers Zionist ideological farmers and workers the utopian visions of the Israeli kibbutz indigeneity that is claimed both by Palestinians and Jewish settlers in the Gaza Strip and in the West Bank biblical meanings that have been ascribed to environmental and countercultural ideas the Americanization of Israeli society and its neoliberalized economy **Selling**

Local Jennifer Meta Robinson, James Robert Farmer, 2017-04-17 In an era bustling with international trade and people on the move why has local food become increasingly important How does a community benefit from growing and buying its own produce rather than eating food sown and harvested by outsiders *Selling Local* is an indispensable guide to community based food movements showcasing the broad appeal and impact of farmers markets community supported agriculture programs and food hubs which combine produce from small farms into quantities large enough for institutions like schools and restaurants After decades of wanting food in greater quantities cheaper and standardized Americans now increasingly look for quality and crafting Grocery giants have responded by offering simple and organic food displayed in folksy crates with seals of organizational approval while only blocks away a farmer may drop his tailgate on a pickup full of freshly picked sweet corn At the same time easy up umbrellas are likely to unfurl over multi generational farmers markets once or twice a week in any given city or town Drawing on prodigious fieldwork and research experts Jennifer Meta Robinson and James Robert Farmer unlock the passion for and promise of local food movements show us how they unfold practically in towns and on farms and make a persuasive argument for how much they deeply matter to all of us *Food and Drink in American History* Andrew F. Smith, 2013-10-28 This three volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses covering topics ranging from early American Indian foods to mandatory nutrition information at fast food restaurants The expression you are what you eat certainly applies to Americans not just in terms of our physical health but also in the myriad ways that our taste preferences eating habits and food culture are intrinsically tied to our society and history This standout reference work comprises two volumes containing more than 600 alphabetically arranged historical entries on American foods and beverages as well as dozens of historical recipes for traditional American foods and a third volume of more than 120 primary source documents Never before has there been a reference work that coalesces this diverse range of information into a single set The entries in this

set provide information that will transform any American history research project into an engaging learning experience Examples include explanations of how tuna fish became a staple food product for Americans how the canning industry emerged from the Civil War the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages and how taxation on beverages like tea rum and whisky set off important political rebellions in U S history *Choice*, 2008 *Market failure?* Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2009-07-23 Market Failure Can the traditional market survive ninth report of session 2008 09 Vol 2 Oral and written Evidence **Book Review Index - 2009 Cumulation** Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year

Markets and the Environment, Second Edition Nathaniel O. Keohane, Sheila M. Olmstead, 2016-01-05 A clear grasp of economics is essential to understanding why environmental problems arise and how we can address them Now thoroughly revised with updated information on current environmental policy and real world examples of market based instruments The authors provide a concise yet thorough introduction to the economic theory of environmental policy and natural resource management They begin with an overview of environmental economics before exploring topics including cost benefit analysis market failures and successes and economic growth and sustainability Readers of the first edition will notice new analysis of cost estimation as well as specific market instruments including municipal water pricing and waste disposal Particular attention is paid to behavioral economics and cap and trade programs for carbon Publisher's web site **Industrial Farm Animal Production, the Environment, and Public Health** James Merchant, Robert Martin, 2024-09-24 Essential essays on the environmental impacts of factory farms on public health The rapid and relatively recent concentration of food animal production into factory farms makes meat plentiful and cheap but this type of agriculture comes at a great cost to human health and the environment In *Industrial Farm Animal Production the Environment and Public Health* editors James Merchant and Robert Martin bring together public health experts to explore the most critical topics related to industrial farm animal production The environmental impacts of these concentrated animal feeding operations endanger the health of farm and meatpacking workers neighbors and surrounding communities Factory farms create public health hazards such as antibiotic resistant bacteria due to the overuse of antibiotics in livestock as well as water polluted with nitrates microbes and other harmful chemicals Despite the clear need for greater worker protection and oversight to mitigate the environmental harms of these practices factory farms are notoriously difficult to regulate Industrial animal operations are located

predominantly in rural areas often next to poor communities and communities of color Food companies have driven independent producers nearly to extinction sapped the economic vitality of rural communities and amassed sweeping political influence at both the state and national levels to effectively prevent mitigation efforts Essays in this volume cover pertinent topics such as the history structure and trends in the factory farming industry water and air pollution infectious disease health effects community and social impacts environmental justice and sustainable agriculture and the impacts of COVID 19 among meatpacking workers Agricultural Globalization Trade and the Environment Charles B. Moss, Gordon C. Rausser, Andrew Schmitz, Timothy G. Taylor, David Zilberman, 2012-12-06 The relative prosperity in U S agriculture that attended the passage of the Federal Agriculture Improvement and Reform Act of 1996 was followed by a general decline in U S agricultural prices from 1998 to 2000 This trend in declining prices continues through the year 2001 despite the movement toward more liberalized agricultural trade Trade liberalization has been the result of a variety of factors including the implementation of the Uruguay Round Agreement and the establishment of a variety of regional trade agreements such as the North America Free Trade Agreement Needless to say in the face of falling agricultural prices and increasingly liberalized agricultural trade the agricultural policy scene is an extremely complex one both locally and globally The chapters in this volume look to understand this complexity by addressing the interaction between trade the economic well being of the farm sector and the possibilities for future policy reform The chapters collected here explore a number of different issues including the operation of the tariff rate quotas established under the Uruguay Round Agreement the implications of sanitary and phytosanitary restrictions on trade and the growing controversy over genetically modified organisms In addition several chapters analyze the interaction between agricultural trade and environmental concerns

Environment Glenn Adelson, James Engell, Kevin P. Van Anglen, Brent Ranalli, 2008-01-01 This major anthology is the first to apply a fully interdisciplinary approach to environmental studies A comprehensive guide to environmental literacy the book demonstrates how the sciences social sciences and humanities all contribute to understanding our interrelationships with the natural world Though not specialized Environment is a book that even specialists can learn from Ten innovative case studies climate shock species endangerment nuclear power biotechnology sustainable development deforestation environmental security globalization wilderness and the urban environment are followed by readings from specific disciplines These can be integrated with the case studies to shape individual interests and teaching strategies The volume presents an imaginative array of texts from scientific papers to poetry legal decisions to historical accounts personal essays to economic analysis Taken together these selections provide a balanced authoritative and up to date treatment of key issues in environmental studies
