Fascism A Very Short Introduction

D. J. Mulloy

Fascism A Very Short Introduction:

Fascism Kevin Passmore, 2014-05 Kevin Passmore shows how fascism used and uses propaganda and popular culture to propagate itself and how it exported its ideas outside Europe through Nazi and Spanish post war escape routes to Latin America for instance [A Brief History of Fascist Lies](#) Federico Finchelstein, 2022-05-03 There is no better book on fascism s complex and vexed relationship with truth Jason Stanley author of *How Fascism Works* The Politics of Us and Them In this short companion to his book *From Fascism to Populism in History* world renowned historian Federico Finchelstein explains why fascists regarded simple and often hateful lies as truth and why so many of their followers believed the falsehoods Throughout the history of the twentieth century many supporters of fascist ideologies regarded political lies as truth incarnated in their leader From Hitler to Mussolini fascist leaders capitalized on lies as the base of their power and popular sovereignty This history continues in the present when lies again seem to increasingly replace empirical truth Now that actual news is presented as fake news and false news becomes government policy *A Brief History of Fascist Lies* urges us to remember that the current talk of post truth has a long political and intellectual lineage that we cannot ignore *From Hitler to Codreanu* Carlos Manuel Martins, 2020-12-30 This book examines fascist ideology in seven leaders of parties and movements in the interwar period It makes use of the conceptual morphological approach focused on core and adjacent concepts as well as on the interlinkages between them With such an approach the book seeks to offer an innovative perspective on fascism and arrive at a conceptual configuration of fascist ideology capable of highlighting its main concepts and combinations Furthermore it examines the major texts of seven leaders from Germany Italy the UK Portugal Spain France and Romania Adolf Hitler Benito Mussolini Oswald Mosley Rol o Preto Primo de Rivera Marcel D at and Corneliu Codreanu With the conceptual approach the book reasserts the possibility of finding a definition of generic fascism at the same time as depicting the ideological varieties espoused by each leader This title will be of interest to students and scholars of fascism extremism and the far right *Fascist Interactions* David D. Roberts, 2016-05-01 Although studies of fascism have constituted one of the most fertile areas of historical inquiry in recent decades more and more scholars have called for a new agenda with more research beyond Italy and Germany less preoccupation with definition and classification and more sustained focus on the relationships among different fascist formations before 1945 Starting from a critical assessment of these imperatives this rigorous volume charts a historiographical path that transcends rigid distinctions while still developing meaningful criteria of differentiation Even as we take fascism seriously as a political phenomenon such an approach allows us to better understand its distinctive contradictions and historical variations *The Oxford Handbook of the Radical Right* Jens Rydgren, 2018-02-01 The resurgence of strong radical right wing parties and movements constitutes one of the most significant political changes in democratic states during the past several decades particularly in Europe The radical right s comeback has notably attracted interest from political scientists sociologists and historians although the majority of past

research focuses on party and electoral politics In contrast The Oxford Handbook of the Radical Right not only covers existing literature but also shows how the radical right forms movements rather than parties Editor Jens Rydren has gathered an international cast of contributors to cover concepts and definitions ideologies and discourses and a range of contemporary issues such as religion globalization gender and activism Further this volume is one of few to provide a number of cases focusing on areas outside of Europe including Russia the US Australia Israel and Japan By integrating various strands of scholarship on the radical right that covers different regions and different research perspectives this Handbook provides an authoritative and state of the art overview of the topic and will set the agenda for scholarship on the radical right for years to come

Jabotinsky's Children Daniel Heller, 2019-11-19 How interwar Poland and its Jewish youth were instrumental in shaping the ideology of right wing Zionism By the late 1930s as many as fifty thousand Polish Jews belonged to Betar a youth movement known for its support of Vladimir Jabotinsky the founder of right wing Zionism Poland was not only home to Jabotinsky's largest following The country also served as an inspiration and incubator for the development of right wing Zionist ideas Jabotinsky's Children draws on a wealth of rare archival material to uncover how the young people in Betar were instrumental in shaping right wing Zionist attitudes about the roles that authoritarianism and military force could play in the quest to build and maintain a Jewish state Recovering the voices of ordinary Betar members through their letters diaries and autobiographies Jabotinsky's Children paints a vivid portrait of young Polish Jews and their turbulent lives on the eve of the Holocaust Rather than define Jabotinsky as a firebrand fascist or steadfast democrat the book instead reveals how he deliberately delivered multiple and contradictory messages to his young followers leaving it to them to interpret him as they saw fit Tracing Betar's surprising relationship with interwar Poland's authoritarian government Jabotinsky's Children overturns popular misconceptions about Polish Jewish relations between the two world wars and captures the fervent efforts of Poland's Jewish youth to determine on their own terms who they were where they belonged and what their future held in store Shedding critical light on a vital yet neglected chapter in the history of Zionism Jabotinsky's Children provides invaluable perspective on the origins of right wing Zionist beliefs and their enduring allure in Israel today

Reactionary Nationalists, Fascists and Dictatorships in the Twentieth Century Ismael Saz, Zira Box, Toni Morant, Julián Sanz, 2019-07-23 This book provides a comparative study of fascisms and reactionary nationalisms It presents these as transnational political cultures and examines the dictatorships and regimes in which these cultures played significant roles The book is organised into three main sections focusing on nationalists fascists and dictatorships in turn The chapters range across French Italian Spanish Portuguese and German experiences and include a broader overview of the political cultures in Central and Eastern Europe as well as Latin America The chapters consider the identities organizations and evolution of the various cultures and specific political movements alongside the intersections between these movements and how they adapted to changing contexts By doing so the book offers a global view of fascisms and reactionary nationalisms and

promotes debate around these political cultures *The World of the John Birch Society* D. J. Mulloy, 2014-06-27 A Selection of the History Book Club Named One of Six Books for Insight on a Trump Presidency by the Washington Post As far as members of the hugely controversial John Birch Society were concerned the Cold War revealed in stark clarity the loyalties and disloyalties of numerous important Americans including Dwight Eisenhower John Kennedy and Earl Warren Founded in 1958 as a force for conservative political advocacy the Society espoused the dangers of enemies foreign and domestic including the Soviet Union organizers of the US civil rights movement and government officials who were deemed soft on communism in both the Republican and Democratic parties Sound familiar In *The World of the John Birch Society* author D J Mulloy reveals the tactics of the Society in a way they've never been understood before allowing the reader to make the connections to contemporary American politics up to and including the Tea Party These tactics included organized dissemination of broad based accusations and innuendo political brinksmanship within the Republican Party and frequent doomsday predictions regarding world events At the heart of the organization was Robert Welch a charismatic writer and organizer who is revealed to have been the lifeblood of the Society's efforts The Society has seen its influence recede from the high water mark of 1970s but the organization still exists today Throughout *The World of the John Birch Society* the reader sees the very tenets and practices in play that make the contemporary Tea Party so effective on a local level Indeed without the John Birch Society paving the way the Tea Party may have encountered a dramatically different political terrain on its path to power Political Theory Scott John Hammond, 2008-11-30 Liberty Justice Nature Law First formulated millennia ago by the founding philosophers of the Western tradition these basic concepts of human thought remain central to our conception of ourselves our place in the world and our relationships with others that is our politics Readers encountering such broad political concepts their practical expressions in political movements and systems of government the ideas of influential ancient and modern political thinkers or simply familiar or unfamiliar catchphrases for which they would like a succinct yet informative explanation will welcome this accessible encyclopedic guide The major political concepts themes issues movements groups and schools that have developed over time and shaped our modern world appear here in all their diversity along with biographical entries and articles on the principal works of political theorists from Plato to John Rawls Further serious students and browsers alike will delight in the numerous entries on familiar quotations and political catchphrases from the banality of evil and Big Brother to the war of all against all The Coming of the Third Reich Richard J. Evans, 2005-01-25 The definitive account of Hitler's rise to power and the collapse of civilization in Nazi Germany from the author of *The Third Reich in Power* *The Third Reich at War* and *Hitler's People* The clearest and most gripping account I've read of German life before and during the rise of the Nazis A S Byatt Times Literary Supplement Impressive in its command of an immense literature perceptive in analysis fluent in style and humane in judgment this work could only have been produced by a master historian Sir Ian Kershaw Brilliant Richard Cohen The Washington Post There is no story in twentieth

century history more important to understand than Hitler's rise to power and the collapse of civilization in Nazi Germany. With *The Coming of the Third Reich*, Richard J. Evans, one of the world's most distinguished historians, has written the definitive account for our time. A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations, Evans's history restores drama and contingency to the rise to power of Hitler and the Nazis even as it shows how ready Germany was by the early 1930s for such a takeover to occur. *The Coming of the Third Reich* is a masterwork of the historian's art and the book by which all others on the subject will be judged. **The Vigilante Thriller**

Cary Edwards, 2022-03-24. This is a detailed examination of vigilantism in 1970s American film from its humble niche beginnings as a response to relaxing censorship laws to its growth into a unique subgenre of its own. Cary Edwards explores the contextual factors leading to this new cycle of films ranging from *Joe* (1970) and *The French Connection* (1971) to *Dirty Harry* (1971) and *Taxi Driver* (1976), all of which have been challenged by contemporary critics for their gratuitous copycat inspiring violence. Yet close analysis of these films reveals a recurring focus on the emerging moral panic of the 1970s, a problematisation of Law and Order's role in contemporary society and an increasing awareness of the impossibility of American myths of identity. *This American Moment*, Caron E. Gentry, 2018-08-07. According to this book, the United States is currently in a moment of crisis fomented by anxieties around race and gender politics. Unlike fear, which is usually focused on a particular object, anxiety is indeterminate and uncertain. It is also the emotion that led to the election and continued support of President Trump. But Caron Gentry says that we can deal with this anxiety in a productive way. To do so, she turns to Reinhold Niebuhr, whose philosophy of Christian realism has been an abiding influence on foreign policy since the Cold War. According to Niebuhr, man's capacity for justice makes democracy possible, but man's inclination to injustice makes democracy necessary. Anxiety is central to Niebuhr's ideas, an emotion that is abiding because we lack control over the circumstances of our lives. In turn, anxiety prompts a desire for unity but also an intolerance for difference. Niebuhr suggests that anxiety can be dealt with destructively or creatively and that power must be balanced to prevent destructive action. Gentry is critical of Niebuhr, saying that he gives in to destructive tendencies in humans by elevating power above other, more creative solutions. In *This American Moment*, she offers feminist Christian realism as an alternate approach to anxiety in international politics. Gentry's feminist Christian realism differentiates itself from Niebuhr's Christian realism by re-engaging the importance of love and relationships over power. It suggests that we can arrive at creative solutions to anxiety through a conversation about the imago dei and the inherent commitments to community borne of one's relationship with God, including the recognition of obligation in the face of vulnerability. Throughout, Gentry applies her ideas to the problems of police brutality, women's reproductive health, and the rise in fascist politics. **Fascism without Borders**, Arnd

Bauerkämper, Grzegorz Rossoliński-Liebe, 2017-05-01. It is one of the great ironies of the history of fascism that despite their fascination with ultra-nationalism, its adherents understood themselves as members of a transnational political movement.

While a true Fascist International has never been established European fascists shared common goals and sentiments as well as similar worldviews They also drew on each other for support and motivation even though relations among them were not free from misunderstandings and conflicts Through a series of fascinating case studies this expansive collection examines fascism's transnational dimension from the movements inspired by the early example of Fascist Italy to the international antifascist organizations that emerged in subsequent years

Using Political Ideas Barbara Goodwin, 2016-12-19 *Using Political Ideas* is a unique blend of political philosophy political theory and history of political thought It combines a critique of the major ideologies of recent and contemporary society with an analysis of the ideas that form the very stuff of political debate By exposing the interplay between ideas and ideologies it shows why political opponents often speak at cross purposes and why rational agreement is so hard to achieve in politics The sixth edition of this well respected and widely known text will be welcomed by those interested in questions such as Is equality more important than personal freedom Does the majority have the right to dictate to the minority in multicultural society Is nationalism a progressive force in the world Politics does not stand still there are always new controversies and ideological conflicts and the climate of discussion changes The 6th edition of this best selling book is fully updated and includes a new chapter on authoritarian ideologies to reflect the growing extreme right wing politics in parts of Europe This edition also provides a variety of new learning features a comprehensive glossary detailed lists of further reading and a list of questions for discussion

Rationing Earth Herb Bentz, 2016-12-12 Our economy has spiralled out of control with too much focus on the quantity of production The way to reduce this wasteful overproduction of goods and services is to increase their quality In this groundbreaking book industrial designer Herb Bentz explains how to fix the economy and break the environment versus economy deadlock Bentz tells us how the use of good design can improve the quality of what we produce and how a beneficial growth in quality can substitute for the destructive increase in quantity Tying together many diverse aspects of the economy economic growth unemployment the welfare state and the need to ration *Rationing Earth* provides a critical analysis and a way forward at this crucial moment Despite high wealth in rich countries there is still poverty and inadequate funding for social programs This unjustified austerity has resulted in a persistence of economic insecurity the proliferation of poor quality products and inadequate action on environmental problems Bentz provides an economic solution from a designer's perspective By using elements of design thinking to achieve an overarching synthesis of the world's challenging problems including effectiveness of government the opposing demands of capital and labour positive and negative effects of technology and the absolute boundaries of a finite earth he presents practical solutions to the conflicting needs for economic growth full employment and reduced consumption In each of these areas *Rationing Earth* addresses the toughest questions How will we adapt to less economic growth How do we solve unemployment What is the proper role of government And how can we create an economy that effectively rations scarce resources without reducing prosperity Bentz blends an entertaining style with a concise but

broad analysis that is provocative informative and pertinent to anyone interested in economic change that has a positive impact on the environment

Eoin O'Duffy Fearghal McGarry,2005-09-22 Eoin O Duffy was one of the most controversial figures of modern Irish history A leader of the Irish revolution and protégé of Michael Collins he commanded the Irish police and defence forces before emerging as Ireland's leading fascist politician in the 1930s A crusading moralist obsessed with the need to counter public immorality and a closet homosexual and alcoholic O Duffy's remarkable life was characterised by self aggrandisement fantasy and contradiction

Strong, Beautiful and Modern Charlotte Macdonald,2013 In this highly original account Charlotte Macdonald shows how governments became convinced they must encourage citizens to be healthier and more active and how these efforts reinforced the cultural ties of the Empire Alongside these state sponsored efforts was a growing emphasis from business the medical establishment and popular culture on the importance of having a better body

Rosary, the Republic and the Right Karl J. Trybus,2014-08-01 The birth of the Second Spanish Republic in April 1931 ushered in a period of possible secularisation to Spain Liberals welcomed legal changes while conservatives feared the special privileges they enjoyed would end The Catholic Church remained a central focus of left wing antagonism and right wing allegiances and conflicts surrounding the future of religion grew severe While members of the Spanish Catholic hierarchy had clearly supported the right and disdained the left the actions and opinions of the Vatican and its hierarchy stationed in Spain were much more nuanced Similarly when conservative military action plunged Spain into a Civil War in July 1936 the majority of the Spanish Catholic hierarchy openly supported their victory but the highest levels of the Vatican remained silent This book explores the unique position and specialised reactions of the Vatican concerning the Second Republic and Civil War For the Holy See the conflict in Spain was not an isolated event at the edge of the continent but part of a larger narrative of ideological and political tension swirling across Europe Any public statement by the Vatican concerning the Spanish Republic or Civil War could be misconstrued as support for one side or another and threaten the Church True the Vatican often remained silent and some have suggested this supports the conclusion that the Church worked for Franco but by accessing previously unavailable sources directly from the Vatican this book can help to clarify the difficult options that awaited the Holy See during this disastrous period Similarly this book works to highlight the fact that the Catholic Church was not some monolithic entity but men like Pope Pius XI and Secretary of State Pacelli had their own understandings of spirituality and politics

New Political Ideas in the Aftermath of the Great War Alessandro Salvador,Anders G. Kjøstvedt,2016-11-10 This edited collection presents new research on how the Great War and its aftermath shaped political thought in the interwar period across Europe Assessing the major players of the war as well as more peripheral cases the contributors challenge previous interpretations of the relationship between veterans and fascism and provide new perspectives on how veterans tried to promote a new political and social order Those who had frontline experience of the First World War committed themselves to constructing a new political and social order in war torn Europe

shaped by their experience of the war and its aftermath A number of them gave voice to the need for a world order free from political and social conflict and all over Europe veterans imagined a third way between capitalist liberalism and state controlled socialism By doing so many of them moved towards emerging fascist movements and became in some case unwillingly the heralds of totalitarian dictatorships

Keywords for American Cultural Studies, Third Edition Bruce Burgett, Glenn Hendler, 2020-11-24 Introduces key terms research traditions debates and histories for American Studies and Cultural Studies in an updated edition Since its initial publication scholars and students alike have turned to *Keywords for American Cultural Studies* as an invaluable resource for understanding key terms and debates in the fields of American studies and cultural studies As scholarship has continued to evolve this revised and expanded third edition offers indispensable meditations on new and developing concepts used in American studies cultural studies and beyond Designed as a uniquely print digital hybrid publication this *Keywords* volume collects 114 essays each focused on a single term such as America culture diversity or religion More than forty of the essays have been significantly revised for this new edition and there are nineteen completely new keywords including crucial additions such as biopolitics data debt and intersectionality Throughout the volume interdisciplinary scholars explore these terms and others as nodal points in many of today's most dynamic and vexed discussions of political and social life both inside and outside of the academy The *Keywords* website features forty eight essays not in the print volume it also provides pedagogical tools for instructors using print and online keywords in their courses The publication brings together essays by interdisciplinary scholars working in literary studies and political economy cultural anthropology and ethnic studies African American history and performance studies gender studies and political theory Some entries are explicitly argumentative others are more descriptive All are clear challenging and critically engaged As a whole *Keywords for American Cultural Studies* provides an accessible A to Z survey of prevailing academic buzzwords and a flexible tool for carving out new areas of inquiry

This is likewise one of the factors by obtaining the soft documents of this **Fascism A Very Short Introduction** by online. You might not require more times to spend to go to the books introduction as competently as search for them. In some cases, you likewise do not discover the proclamation Fascism A Very Short Introduction that you are looking for. It will certainly squander the time.

However below, gone you visit this web page, it will be consequently entirely simple to get as with ease as download lead Fascism A Very Short Introduction

It will not undertake many epoch as we notify before. You can accomplish it while feign something else at house and even in your workplace. thus easy! So, are you question?
