are commonplace in our society Through Anti Vax Hausman wants to engage public health officials the media and each of us in a public dialogue about the relation of individual bodily autonomy to the state s responsibility to safeguard citizens health We need to know more about the position of each side in this important stand off so that public decisions are made through understanding rather than stereotyped perceptions of scientifically illiterate antivaxxers or faceless bureaucrats Hausman reveals that vaccine skepticism is in part a critique of medicalization and a warning about the dangers of modern medicine rather than a glib and gullible reaction to scaremongering and misunderstanding **Sequels** Janet G.
