**The New Deal's Forest Army** Benjamin F. Alexander, 2018-02-01 How the Civilian Conservation Corps constructed rejuvenated and protected American forests and parks at the height of the Great Depression Propelled by the unprecedented poverty of the Great Depression President Franklin D Roosevelt established an array of massive public works programs designed to provide direct relief to America's poor and unemployed The New Deal's most tangible legacy may be the Civilian Conservation Corps's network of parks national forests scenic roadways and picnic shelters that still mark the country's landscape CCC enrollees most of them unmarried young men lived in camps run by the Army and worked hard for wages most of which they had to send home to their families to preserve America's natural treasures In The New Deal's Forest Army Benjamin F Alexander chronicles how the corps came about the process applicants went through to get in and what jobs they actually did He also explains how the camps and the work sites were run how enrollees spent their leisure time and how World War II brought the CCC to its end Connecting the story of the CCC with the Roosevelt administration's larger initiatives Alexander describes how FDR's policies constituted a mixed blessing for African Americans who even while singled out for harsh treatment benefited enough from the New Deal to become an increasingly strong part of the electorate behind the Democratic Party The CCC was the only large scale employment program whose existence FDR foreshadowed in speeches during the 1932 campaign and the dearest to his heart throughout the decade that it lasted Alexander reveals how the work itself left a lasting imprint on the country's terrain as the enrollees planted trees fought forest fires landscaped public parks restored historic battlegrounds and constructed dams and terraces to prevent floods A uniquely detailed exploration of life in the CCC The New Deal's Forest Army compellingly demonstrates how one New Deal program changed America and gave birth to both contemporary forestry and the modern environmental movement **The Square Deal**, 1910

The green deal Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2013-05-22 Three years into the life of this Parliament Ministers are unable to define what they hope to achieve through one of the Coalition's flagship policies It's impossible to assess policy if the Government itself cannot explain precisely what it is hoping to achieve At a time when gas and electricity bills are on the rise improving the energy efficiency of our homes could not be more important The Committee plans to monitor progress of the Green Deal over the coming years This report sets out seven key areas in which it will focus its scrutiny public awareness and communications take up levels energy and carbon savings financial savings and value for money access to the Green Deal and ECO customer satisfaction and supply chain and job creation It identifies a number of potential challenges which could lead to low take up of the Green Deal For example people in rented accommodation might have difficulty gaining consents from their landlords households might find the hassle of building works too much to want to upgrade their property or cheaper sources of finance might be available from other sources If take up levels are low it will be important to understand why this is so that the policy can be improved The report

calls on the Government to publish information showing how well the Green Deal is progressing The Committee also says that DECC should seek opportunities to collaborate with research organisations to maximise its understanding of whether the scheme is working well      **ECAI 2010** European Coordinating Committee for Artificial Intelligence,2010 LC copy bound in 2 v v 1 p 1 509 v 2 p 509 1153      **Reorganization Plan No. 1 of 1952** United States.
