Death And Denial Interdisciplinary Perspectives On The Legacy Of Ernest Becker:

Death and Denial Daniel Liechty, 2002-12-30 The theory of Generative Death Anxiety GDA suggests that at the deepest level human behavior is motivated by the unavoidable need to shield oneself from consciousness of human mortality Recognition that fear of death and its consequences necessarily colors the affairs of humans clearly runs through the history of religion and philosophy from the most ancient sources to the present GDA theory is a developing body of research and writing that stands in this line of human thinking about death giving prominent focus especially to pervasive human mortality anxiety in the range of its symbolic expressions and the behavioral consequences of this anxiety *Interdisciplinary Perspectives on Mortality and its Timings* Shane McCorristine, 2017-09-19 This book is open access under a CC BY 4.0 license This volume provides a series of illuminating perspectives on the timings of death through in depth studies of Shakespearean tragedy criminal execution embalming practices fears of premature burial rumours of Adolf Hitler's survival and the legal concept of brain death In doing so it explores a number of questions including how do we know if someone is dead or not What do people experience at the moment when they die Is death simply a biological event that comes about in temporal stages of decomposition or is it a social event defined through cultures practices and commemorations In other words when exactly is death Taken together these contributions explore how death emerges in a series of stages that are uncertain paradoxical and socially contested *The Ernest Becker Reader* Daniel Liechty, 2017-09-01 Ernest Becker 1924-1974 was an astute observer of society and human behavior during America's turbulent 1960s and 1970s Trained in social anthropology and driven by a transcending curiosity about human motivations Becker doggedly pursued his basic research question What makes people act the way they do Dissatisfied with what he saw as narrowly fragmented methods in the contemporary social sciences and impelled by a belief that humankind more than ever needed a disciplined rational and empirically based understanding of itself Becker slowly created a powerful interdisciplinary vision of the human sciences one in which each discipline is rooted in a basic truth concerning the human condition That truth became an integral part of Becker's emerging social science Almost inadvertently he outlined a perspective on human motivations that is perhaps the most broadly interdisciplinary to date His perspective traverses not only the biological psychological and social sciences but also the humanities and educational political and religious studies Ernest Becker is best known for the books written in the last few years before his death from cancer including the highly praised Pulitzer Prize winning volume *The Denial of Death* 1974 and *Escape from Evil* 1975 These late works however were built on a distinguished body of earlier books essays and reviews The power and strength of Becker's ideas are fully present in his early works which underlie his later contributions and give direction for interpreting the development of his ideas Although Ernest Becker's life and career were cut short his major writings have remained continually in print and have captured the interest of subsequent generations of readers *The Ernest Becker Reader* makes available for the first time in one volume much of Becker's early work and thus places his later work in

proper context It is a major contribution to the ongoing interest in Becker's ideas

Death, Dying, Culture: An Interdisciplinary Interrogation Lloyd Steffen, Nate Hinerman, 2019-01-04 This volume was first published by Interdisciplinary Press in 2013 This inter and multi disciplinary volume examines how culture impacts care for the dying the overall experience of dying and ways the dead are remembered Over the past three decades scholarship in thanatology has increased dramatically This text localizes a broad array of perspectives that research analyze and interpret the many interrelations and interactions that exist between death and culture Culture not only presents and portrays ideas about a good death and norms that seek to achieve it but culture also operates as both a vehicle and medium through which meaning about death is communicated and understood Sadly too culture sometimes facilitates death through violence

Making Sense Of: Dying and Death, 2004-01-01 This book aims to extend upon the growing body of literature concerned with dying and death The book analyses various experiences and representations of dying and death from the perspective of academic disciplines as diverse as theology philosophy sociology anthropology and literature The rationale for this is simple As objects of study dying and death cannot be usefully reduced to a single academic perspective One cannot hope to gain a deep and comprehensive understanding of dying and death by gazing at them through a single lens Bringing various perspectives in a single volume aims to both accurately record those enduring properties of the phenomena such as mourning and fear whilst simultaneously analysing the diversity and heterogeneity of human beings attempts to come to terms with this most forbidding of existential horizons

The Psychology of Death in Fantasy and History Jerry Piven, 2004-03-30 This volume investigates the impact of death consideration on such phenomena as Buddhist cosmology the poetry of Rilke cults and apocalyptic dreams Japanese mythology creativity and even psychotherapy Death is seen as a critical motivation for the genesis of artistic creations and monuments of belief systems fantasies delusions and numerous pathological syndromes Culture itself may be understood as the innumerable ways that societies defend themselves against helplessness and annihilation how they mould and recreate the world in accordance with their wishes and anxieties the social mechanisms employed to deny annihilation and death Whether one speaks of the construction of massive burial tombs magical transformations of death into eternal life afterlives or resurrections the need to cope with death and deny its terror and effect are the sine qua non of religion culture ideology and belief systems in general

Death, Dying, and Mysticism T. Cattoi, C. Moreman, G. C. Harcourt, 2015-04-01 This volume offers a sample of reflections from scholars and practitioners on the theme of death and dying from scholars and practitioners ranging from the Christian tradition to Hinduism Lacanian psychoanalysis while also touching on the themes of the afterlife and near death experiences

Facing Up to Mortality Daniel Liechty, 2021-10-21 Exploring a new approach to interfaith interreligious communication the contributors to this collection seek to interact from the perspective of their own tradition or academic discipline with Ernest Becker's theory on the relationship between religion culture and the human awareness of death and mortality While much interfaith interreligious

dialogue focuses on beliefs and practices thus delineating areas of disagreement as a starting point these chapters foster interactive communication rooted in areas of the universal human experience Thus by demonstration these authors argue for the integrity and efficacy of this approach for pursuing intercultural and interdisciplinary communication

Our Changing Journey to the End Christina Staudt, J. Harold Ellens, 2013-11-12 This novel cross disciplinary collection explains how dying death and grieving have changed in America for better or worse since the turn of the millennium What does dying with dignity mean in a diverse society with rapidly advancing technology an aging population and finite resources In this fascinating collection scholars from across the nation illuminate the remarkable changes that have taken place in recent years are now underway and loom on the horizon as they lead readers on an exploration of the ways Americans think about and handle dying and death Volume 1 New Paths of Engagement addresses changes in the circumstances and expressions of death dying and grief in 21st century America Volume 2 New Venues in the Search for Dignity and Grace delves into the challenges inherent in creating a medical and social system that allows for an optimal end of life experience for all and proposes ways in which society can be reshaped to move toward that ideal

Terrorism, Political Violence, and Extremism Chris E. Stout Ph.D., 2017-05-24 A must read for psychologists clinical and academic alike as well as for political scientists policy analysts and others working in the realm of terrorism political violence and extremism this book carefully explores the theories observations and approaches of authorities in the field and addresses how and why terrorism has perpetuated for so long Terrorism is now a regular topic in the news rather than a rare or an unusual occurrence The possibility of violent terrorist acts constitutes a legitimate safety concern regardless of one's country of residence no longer can anyone assume that their location is beyond the reach or outside the targeted areas of any number of terrorist groups Terrorism Political Violence and Extremism New Psychology to Understand Face and Defuse the Threat examines why the number of terrorist attacks has greatly increased since the attacks on September 11 2001 including well known events such as the Madrid train bombings 2004 the London Underground bombings 2005 the San Bernardino and Paris attacks 2015 and countless others particularly in the Middle East and Africa Beyond providing a careful and up to date assessment of the state of terrorism worldwide which includes coverage of the religious and political origins of terrorist activities the book pinpoints less recognized and rarely studied aspects of terrorism such as terrorism hysteria sexuality shame and rape The diverse perspectives within this unified volume are relevant to a breadth of subject areas such as international psychology military psychology political science political theory religious studies military theory peace studies military sciences law enforcement public health sociology anthropology social work law and feminist theory

A Social History of Dying Allan Kellehear, 2007-02-12 Our experiences of dying have been shaped by ancient ideas about death and social responsibility at the end of life From Stone Age ideas about dying as otherworld journey to the contemporary Cosmopolitan Age of dying in nursing homes Allan Kellehear takes the reader on a 2 million year journey of discovery that covers the major challenges we

will all eventually face anticipating preparing taming and timing for our eventual deaths This book first published in 2007 is a major review of the human and clinical sciences literature about human dying conduct The historical approach of this book places our recent images of cancer dying and medical care in broader historical epidemiological and global context Professor Kellehear argues that we are witnessing a rise in shameful forms of dying It is not cancer heart disease or medical science that presents modern dying conduct with its greatest moral tests but rather poverty ageing and social exclusion **The Routledge Handbook of Mass Media Ethics** Lee Wilkins, Clifford G. Christians, 2020-03-13 This fully updated second edition of the popular handbook provides an exploration of thinking on media ethics bringing together the intellectual history of global mass media ethics over the past 40 years summarising existing research and setting future agenda grounded in philosophy and social science This second edition offers up to date and comprehensive coverage of media ethics including the ethics of sources social media the roots of law in ethics and documentary film The wide range of contributors include scholars and former professionals who worked as journalists public relations professionals and advertising practitioners They lay out both a good grounding from which to begin more in depth and individualized explorations and extensive bibliographies for each chapter to aid that process For students and professionals who seek to understand and do the best work possible this book will provide both insight and direction Standing apart in its comprehensive coverage The Routledge Handbook of Mass Media Ethics is required reading for scholars graduate students and researchers in media mass communication journalism ethics and related areas Beyond Death Anxiety Robert Firestone, Joyce Catlett, 2009-07-20 This book fruitfully serves those looking to apply Ernest Becker's ideas psychotherapeutically in individual counseling or in group therapy A capstone to Robert Firestone's 50 years of work in psychotherapy psychoanalysis and psychiatry and to the numerous books written by these authors Firestone and Catlett show how to apply the themes and implications of the ideas of Ernest Becker in everyday life Their basic premise is that accepting death is part of developing an affirming and meaningful experience of life Contributing to the credibility of their presentation is the wealth of clinical evidence and personal experience Firestone and Catlett incorporate The Ernest Becker Foundation Fascinating and an enjoyable read steeped in well researched and relevant psychological and sociological perspectives applicable to all social studies areas Carol Lloyd University of Chichester Firestone and Catlett's work is a marvelous achievement This volume is both innovative and intrepid Firestone and Catlett challenge prevailing psychoanalytic views on death and they demolish many of the accepted canons of thanatology and existential psychology This is required reading for anyone who purports to talk about death Jerry Piven PhD Author of *Death and Delusion A Freudian Analysis of Mortal Terror* A towering synthesis of personal and clinical wisdom about death with a superb overview of the psychology of death and death anxiety Dr Firestone draws on the best of the existential humanistic as well as the psychoanalytic thinkers to address a flourishing path toward self realization Kirk J Schneider PhD Author *Existential Integrative Psychotherapy and Awakening to Awe* From the Foreword

Firestone and Catlett's groundbreaking volume assists mental health practitioners in helping their clients learn to accept and face their mortality. They describe the many defenses of death anxiety that keep individuals from achieving personal fulfillment and also suggest methods to cope directly with fears of death, an approach that ironically can lead to more satisfaction, more freedom, and a greater appreciation for the gift of life. This book examines the many destructive consequences of death anxiety, including introversion, depression, and withdrawal from life. Throughout the book, the authors demonstrate the importance of achieving what they call life-affirming death awareness. Key topics include: The dawning awareness of death and its impact on the developing child; Literal and symbolic defenses against death anxiety; Separation theory and the fantasy bond; Challenging the defenses that interfere with living fully; Microsuicide: the death of the spirit; Breaking with limiting religious dogma and cultural worldviews. With this book, mental health practitioners and their clients will be able to better understand death awareness, overcome the defenses against death anxiety, and ultimately lead richer, more fulfilling lives.

Ambrose Bierce and the Dance of Death Sharon Talley, 2009-12-15 Ambrose Bierce and the Dance of Death uses psychoanalytic theory in combination with historical, cultural, and literary contexts to examine the complex motif of death in a full range of Bierce's writings. Scholarly interest in Bierce, whose work has long been undervalued, has grown significantly in recent years. This new book contributes to the ongoing reassessment by providing new contexts for joining the texts in his canon in meaningful ways. Previous attempts to consider Bierce from a psychological perspective have been superficial, often reductive. Freudian readings of individual stories such as *An Occurrence at Owl Creek Bridge* and *The Death of Halpin Frayser*. This new volume not only updates these interpretations with insights from post-Freudian theorists but uses contemporary death theory as a framework to analyze the sources and expressions of Bierce's attitudes about death and dying. This approach makes it possible to discern links among texts that resolve some of the still puzzling ambiguities that have until now precluded a fuller understanding of both the man and his writings. Lively and engaging, *Ambrose Bierce and the Dance of Death* adds valuable new insights not only to the study of Bierce but to that of nineteenth-century American literature in general.

The Handbook of Mass Media Ethics Lee Wilkins, Clifford G. Christians, 2008-09-17 This Handbook encapsulates the intellectual history of mass media ethics over the past twenty-five years. Chapters serve as a summary of existing research and thinking in the field, as well as setting agenda items for future research. Key features include up-to-date and comprehensive coverage of media ethics, one of the hottest topics in the media community; one-stop shopping for historical and current research in media ethics; experienced top-tier editors, advisory board, and contributors. It will be an essential reference on media ethics theory and research for scholars, graduate students, and researchers in media, mass communication, and journalism.

The Self Under Siege Robert Firestone, Lisa A. Firestone, Joyce Catlett, 2013 Noted clinical psychologist Robert Firestone and his co-authors explore the struggle that all of us face in striving to retain a sense of ourselves as unique individuals.
