Decisions Of The Arbitration Panel For In Rem Restitution Volume 4:

Decisions of the Arbitration Panel for In Rem Restitution Josef Aicher, Erich Kussbach, August Reinisch, 2011-11-01 The series *Decisions of the Arbitration Panel for In Rem Restitution* documents one of Austria's most recent compensation measures dealing with the consequences of the National Socialist era. For property which was seized during the National Socialist era and is now publicly owned, the possibility of in rem restitution was provided for in the Washington Settlement Agreement of 17 January 2001. The Arbitration Panel for In Rem Restitution established with the General Settlement Fund in Vienna decides on applications for restitution. For the most part, the applications concern real estate that was confiscated between 1938 and 1945, was publicly owned on the Agreement cut-off day 17 January 2001, and in many cases had already been the subject of restitution proceedings after 1945. Since 2003, the Arbitration Panel has decided on a great number of applications and has recommended the restitution of property to the legal successors of former owners in several cases. In the course of these decisions based on the General Settlement Fund Law, the Arbitration Panel has developed a complex case law. Volume 4 contains twelve decisions of the Arbitration Panel from 2006, each in the German original and with the English translation.

From Bilateralism to Community Interest Ulrich Fastenrath, 2011. This festschrift dedicated to Judge Bruno Simma traces the development of international law from regulating bilateral state to state relationships towards strengthening the entire international community by protecting human security, the global environment, and human rights. It provides both theoretical and practical insights into these sometimes conflicting goals, their basis in international law, and the

role played by international institutions charged with upholding these values and interests The work thus examines the mechanism by which international law contributes to the realization not only of individual State interests but the interests of the international community as a whole From this vantage point it looks at the various functions that international law fulfills in the international community from law making and institution building towards adjudication and the securing of human rights Taken together the contributions to this book paints a detailed but nevertheless comprehensive picture of the realization of community interest in contemporary international law As professor and judge Bruno Simma has contributed to all of these tasks providing ground breaking theoretical work serving in the International Law Commission and in the Committee for Economic Social and Cultural Rights and finally as a judge at the International Court of Justice in The Hague The three introductory chapters express this unity of life and work
