**Shocking and Sensational** Julian Upton, 2018-06-08 Already part of a genre known for generating controversy some true crime and scandal books have wielded a particular power to unsettle readers provoke authorities and renew interest in a case The reactions to such literature have been as contentious as the books themselves clouding the truth with myths and inaccuracies From high profile publishing sensations such as *Ten Rillington Place Fatal Vision* and *Mommie Dearest* to the wealth of writing on the JFK assassination the death of Marilyn Monroe and the Black Dahlia murder this book delves into that hard copy era when crime and scandal books had a cultural impact beyond the genre's film and TV documentaries fueling outcries that sometimes matched the notoriety of the cases they discussed and leaving legacies that still resonate today *Perfect Victims* Bill James, 2011-07-07 The Black Dahlia case The Manson murders The Zodiac Killer The slaughter of JonBenet Ramsay These killings among many others in Bill James's astonishing chronicle of the history of American crime have all created a frenzy of interest and speculation about human nature And while many of us choose to avoid the news about gruesome murders Bill James contends that these crime stories which create such frenzy and have throughout history are as important to understanding our society culture and history as anything we may consider to be a more serious subject The topic envelopes our society so completely we almost forget about it James looks at the ways in which society has changed by examining the development of how crimes have been committed investigated and prosecuted The book takes on such issues as the rise of an organized police force the controversial use of the death penalty the introduction of evidence such as fingerprinting and DNA and the unexpected ways in which the most shocking crimes have shaped the criminal justice system and our perceptions of violence *The Origins of Life* Anna-Teresa Tymieniecka, 2013-03-09 Life appears ungraspable yet its understanding lies at the heart of current preoccupations In our attempt to understand life through its origins the ambition of the present collection is to unravel the network of the origin of the various spheres of sense that carry it onwards The primogenital matrix of generation Tymieniecka elaborated as the fulcrum of this collection elucidates the main riddles of the scientific philosophical controversies concerning the status of various spheres that seek to make sense of life **A Wilderness of Error** Errol Morris, 2014-01-22 Soon to be an FX Docuseries from Emmy Award Winning Producer Marc Smerling The Jinx featuring the author Errol Morris Academy Award winning filmmaker Errol Morris examines one of the most notorious and mysterious murder trials of the twentieth century In this profoundly original meditation on truth and the justice system Errol Morris a former private detective and director of *The Thin Blue Line* delves deeply into the infamous Jeffrey MacDonald murder case MacDonald whose pregnant wife and two young daughters were brutally murdered in 1970 was convicted of the killings in 1979 and remains in prison today The culmination of an investigation spanning over twenty years and a masterly reinvention of the true crime thriller *A Wilderness of Error* is a shocking book because it shows that everything we have been told about the case is deeply unreliable and that crucial elements of case against MacDonald are simply not true *A Question of Evidence* Colin Evans, 2003-01-30 Scientific sleuthing and slip ups in the investigations of

fifteen famous cases Ranging from the Turin Shroud and the suspicious death of Napoleon Bonaparte to the murder cases of Dr Sam The Fugitive Sheppard and O J Simpson A Question of Evidence takes readers inside some of the most vexing forensic controversies of all time In each case Colin Evans lays out the conflicting medical and scientific evidence and shows how it was used or mishandled in reaching a verdict Among the other cases the assassination of JFK the strange history of Alfred Packer the only convicted American cannibal the death of Vatican banker Roberto Calvi and the trials of Lindy Chamberlain the dingo baby case and Dr Jeffrey MacDonald the case recounted in Fatal Vision Though the science of forensics has helped solve a huge number of crimes it s clear from A Question of Evidence that many cases are more open than shut Colin Evans Pembroke UK is the author of the popular Casebook of Forensic Detection Wiley 0 471 28369 X as well as Great Feuds in History Wiley 0 471 38038 5
