## The productivity frontier and best practice (ppt)

**Productivity frontier:** an economic concept that represents the current level of best practice

Defined as: maximum value a company can deliver at a given cost, given the best available technology, units and management techniques by Porter

If an organisation is efficient - it will sit on the efficient frontier. However, most organisations sit below the frontier and strive to improve their performance to improve efficiency and effectiveness of what they do with their resources. It is necessary to adopt new practices and technology that are available to competitors in the industry.

## Differentiating strategy from tactics (ppt)

	Overview	Example
Tactics	Operational effectiveness to improve the performance of activities Short-term improvement	A car insurer that improves its customer claims process saves the customer time and the organisation money, which results in an overall business improvement. Risks: would expect competitors to then take the same steps
Strategy	Competitive strategy to transform the activities performed, so that they differ from rivals or are completed in a different manner to standard practice in the market. Long-term improvement	A strategic move could be for the car insurer to start offering health insurance as well. This involves the car insurer entering into a new market and differentiating itself from other traditional car insurers. Strategy is about 'thinking outside the box' and expanding into new products and markets

**Communication in Accounting Education** Richard M.S. Wilson,F. Elizabeth Gray,Lynn Hamilton,2016-04-14 Accounting often described as the language of business requires a diverse set of written listening and oral communication skills if those who practise it are to be effective Given the pace of change relating to for example the evolution of international accounting standards and the demands for greater transparency accountants must be clear responsive and audience focussed communicators Employers of accountants consistently comment on the need for their new graduate recruits and trainees to have strong written oral and interpersonal communication skills In this light accounting educators face the challenge of designing and delivering programmes that reflect professional expectations on the part of employers and clients and educating students on how to make informed communication choices in order to achieve desired results and to build good working relationships The chapters in this book deal with such topics as accounting students perceptions of oral communication skills competence based writing skills and the development of listening skills This book was originally published as Accounting Education an international journal

**The Family Business Suicide Prevention Guide** Dr Marc Dussault,2014-09-15 First the Bad News Family businesses make up the vast majority of the economy yet their failure rates are just as high as non family firms The tragedy is that when a family business goes under an entire family s legacy is lost often with traumatic consequences Now for the Good News Family business suicides CAN be prevented but not without 1 Identifying each of the many factors involved 2 Discovering the complexity of the context of your particular situation and 3 Understanding the dynamics of the people involved Based on well documented and extensive academic research and more than 20 years of practical coaching and mentoring experience this book will Highlight the key differentiators between corporate versus family firm succession processes so you can better understand the scientifically established principles to improve the chance of success within your family firm Help you as the next generation heir ascend to the throne without wreaking havoc within your family there is no point in saving the business if you destroy your family in the process Help guide you if you are a non family member in a family run firm so you won t feel helpless the next time a

family issue spills over into the business Give you advice on transferring family ownership to outsiders even though this might not be your first choice it might be an unavoidable reality that requires you to be ready to transition properly if you are to maximise your exit strategy Help you avoid the most common mistakes and missteps that claim too many family firms The suggestions and advice are based on cutting edge research combined with practical tips you can apply in your business immediately The Only Cure for Family Business Suicide is Prevention Admittedly the book s title is provocative It was chosen in part to get you to pick it up off the bookshelf but more importantly to bring much needed attention to an increasingly alarming problem the preventable failure of family businesses Family dynamics are messy complex and complicated by the inclusion and sometimes exclusion of family members in the business This book takes a uniquely different approach to reveal a multitude of perspectives to look at the various sources of conflict involved so they can be identified isolated and dealt with strategically diplomatically and effectively This thoroughly documented expose brings decades of academic research and literature to you the small family business owner in a format that is easy to digest with practical recommendations you can implement immediately Sadly many family businesses fail not because their issues were insurmountable but rather because they were unaware of the most common mistakes and how they could have been easily avoided In the case of family business suicide the only cure is prevention This book is the first step in administering the cure the vaccine against the infection that afflicts too many families and their businesses Suggestion from the author Buy one book for each family member to avoid conflict Conflict prevention is the cure remember

**The Interface of Accounting Education and Professional Training** Elaine Evans,Roger Juchau,Richard M.S. Wilson,2014-07-16 Over many decades the global development of professional accounting education programmes has been undertaken by higher education institutions professional accounting bodies and employers These institutions have sometimes co operated and sometimes been in conflict over the education and or training of future accounting professionals These ongoing problems of linkage and closure between academic accounting education and professional training have new currency because of pressures from students and employers to move accounting preparation onto a more efficient economic and practical basis The Interface of Accounting Education and Professional Training explores current elements of the interface between the academic education and professional training of accountants in Australia New Zealand South Africa and the UK It argues for a reassessment of the considerations and requirements for developing professional accounting programs which can make a student capable of being an accountant the academy ready to be an accountant the workplace and professional in being an accountant the professional bodies This book was originally published as a special issue of Accounting Education An International Journal
