Search and research Ana GARCÍA-VALCÁRCEL, Francisco José GARCÍA PEÑALVO, Marta MARTÍN DEL POZO, 2017-06-27 Descripci n Resumen Ingl s The present volume represents a compilation of international teacher education practice and research with a focus on Teacher Education for Contemporary Contexts It draws upon the diverse educational perspectives teaching procedures knowledge and situated contexts where the discipline takes shape The sections of this book comprise research papers accepted for presentation during the 18th International Study Association on Teachers and Teaching ISATT Biennial Conference that will take place from July 3rd to July 7th in Salamanca Spain Around 300 delegates from 57 countries across the globe and a large Scientific Committee of 80 colleagues have contributed academically and professionally to support our ability to share the contents of this volume The main conference topic is search and research Searching is the action of looking carefully at people objects and situations in order to find something concealed or to discover something beyond the ordinary This is what teachers do in their classrooms and primarily search represents their endeavours to construct professional knowledge as a result of developing practice Researching is systematic inquiry that intends to discover new knowledge and or to refute educational theories a process typically rendered by teacher

educators and other researchers The focus of this 18th biennial ISATT conference is to bring together both search and research connecting practice and theory or praxis with the purpose of offering relevant solutions to realistic classroom problems The editorial process followed three differentiated phases The first phase required abstract submission with the purpose of being accepted for the conference A double or triple blind review was conducted to evaluate whether the papers submitted were suitable for the conference A rate of 87% of the papers were accepted for presentation The second phase encouraged authors to voluntarily submit a full paper of 3 000 words A total of 111 full papers were then subjected to an open review process with the main purpose of suggesting to authors ways of further improving the presentation of their valuable research A third phase not yet completed and therefore beyond the scope of this book was the review and selection of the outstanding papers papers that were deemed eligible for the post proceeding publication i e less than 15% of the total The central intent of the book is to contribute to fostering scholarly discussions and to inform future teaching trajectories strengthen lines of research in teacher education and demonstrate the opportunities and constraints in our professional work Its added value highlights the commonplace in international research that serves to depict how the field of teacher education is moving forward in an increasingly global society All in all teachers teacher educators and researchers learn by effective communication processes whether in in personal professional interactions or in the use of digital technologies Positive interactions lead to building strong communities of learners which in turn leads to the production of valuable knowledge and better understandings about learning and teaching With the upcoming commemoration of its 800th anniversary in the year 2018 the University of Salamanca as the oldest university in operation in Spain is proud to host the ISATT 18th biennial conference and to support the exceptional work of many researchers in the field of Teacher Education by compiling and editing the work in this volume Furthermore the local Organizing Committee and the ISATT Executive Committee hope you will experience a rewarding intellectual experience as a result of your contributions and knowledge as both academics and practitioners Thank you very much for providing us this exciting opportunity to work with you We warmly welcome you to Salamanca a truly historic and a contemporary context

Descripci n Resumen Espa ol Castellano El presente volumen est integrado por una recopilaci n de pr cticas e investigaciones internacionales de formaci n docente centradas en la formaci n de profesores en la sociedad actual Se basa en las diversas perspectivas educativas los procedimientos de ense anza conocimiento y contextos sociales Las secciones de este libro comprenden trabajos de investigaci n aceptados para su exposici n en las XVIII Conferencia Bienal Internacional de Estudios de Profesores y Ense anza ISATT que tendr lugar del 3 al 7 de julio en Salamanca Espa a Alrededor de 300 delegados de 57 pa ses de todo el mundo y un gran Comit Cient fico de 80 colegas han contribuido acad mica y profesionalmente en favor de este evento El tema principal de la conferencia es la b squeda y la investigaci n Buscar es la acci n de mirar cuidadosamente a las personas objetos y situaciones para encontrar algo escondido o descubrir algo m s all de lo ordinario Esto es lo que los maestros hacen en sus clases y sobre todo la b

squeda representa sus esfuerzos para construir conocimiento profesional como resultado del desarrollo de la práctica cotidiana. La investigación es una investigación sistemática que pretende descubrir nuevos conocimientos y o refutar teorías educativas un proceso que suelen dar los educadores de profesores y de otros investigadores. El objetivo de esta 18 conferencia ISATT es reunir tanto la búsqueda como la investigación conectando la práctica y la teoría o praxis con el propósito de ofrecer soluciones relevantes a los problemas reales de la clase. El proceso editorial siguió tres fases diferenciadas: 1. Requerir el envío de resúmenes con el propósito de que fuesen aceptados para la ser expuestos en la conferencia. Se realizó una revisión doble ciego o triple para evaluar si los artículos presentados eran adecuados. Se aceptó una tasa de 87% de los trabajos para su presentación. 2. La segunda fase requirió de los autores en envío en período voluntario de un trabajo completo de 3 000 palabras. Un total de 111 trabajos fueron sometidos a un proceso de revisión abierta con el propósito principal de sugerir a los autores formas de mejora. 3. Una tercera fase aún inconclusa y por lo tanto fuera del alcance de este libro fue la revisión y selección de los documentos pendientes; los documentos que se consideraron electos para la publicación posterior al procedimiento es decir menos del 15% del total. La intención central de esta obra es contribuir a fomentar el debate académico e informar sobre futuras trayectorias de enseñanza fortalecer las líneas de investigación en la formación del profesorado y demostrar las oportunidades y limitaciones en nuestro ámbito. Su valor es el de destacar el lugar común en la investigación internacional que sirve para describir cómo el campo de la formación de maestros avanza en una sociedad cada vez más global. En general los maestros los educadores de educadores y los investigadores aprendan mediante procesos de comunicación eficaces ya sea en interacciones personales profesionales o en el uso de tecnologías digitales. Las interacciones conducen a la construcción de comunidades fuertes de estudiantes que a su vez conduce a la producción de conocimientos valiosos y mejores sobre el aprendizaje y la enseñanza. Con la próxima conmemoración de su 800 aniversario en el año 2018 la Universidad de Salamanca como la decana de las españolas se enorgullece en acoger la XVIII Conferencia Bienal de ISATT y apoyar el trabajo excepcional de muchos investigadores en el campo del Profesor Educación Investigador editando la obra. Además el Comité Organizador Local y el Comité Ejecutivo de ISATT esperan que experimente una lectura gratificante como resultado de sus contribuciones y conocimientos tanto académicos como profesionales. Muchas gracias por brindarnos esta emocionante oportunidad de trabajar con usted. Les damos la bienvenida a Salamanca un contexto verdaderamente histórico y a su vez contemporáneo.
