Study Guide to Forensic Psychiatry Robert I. Simon, Liza H. Gold, 2006 Study Guide to Forensic Psychiatry is a question and answer companion that allows you to evaluate your mastery of the subject matter as you progress through The American Psychiatric Publishing Textbook of Forensic Psychiatry. The Study Guide is made up of 115 questions divided into 23 individual quizzes of 5-10 questions each that correspond to chapters in the Textbook. Questions are followed by an Answer Guide that references relevant text including the page number in the Textbook to allow quick access to needed information. Each answer is accompanied by a discussion that not only addresses the correct response but also explains why other responses are not correct. The Study Guide is a companion to The American Psychiatric Publishing Textbook of Forensic Psychiatry. It is the first reference designed and written for both the general clinician and the experienced forensic psychiatrist. Twenty-eight recognized experts introduce the forensic subjects that commonly arise in clinical practice. Each chapter is organized around case examples and includes a review of key concepts, practical guidelines, and references for further reading. This practical textbook makes this interesting specialty accessible to trainees and seasoned practitioners.

California Law Enforcement Vehicle Pursuit Guidelines Training Syllabus, 1996 Penal Code Section 13519.8 requires the Commission on Peace Officer Standards and Training to establish guidelines and training for law enforcement's response to vehicle pursuits. This document contains the training syllabus. The training regulations and curricula are published separately. The Law Enforcement Vehicle Pursuit Guidelines were developed for use by the policy maker in developing an agency's pursuit policy. This document broadly explores the issues the trainer may consider when examining agency policy and developing a course outline to address the many critical considerations encountered during a pursuit. To facilitate use of the syllabus, it is structured to mirror the layout of the vehicle pursuit guidelines. It describes training factors, legal considerations, learning points, and other significant issues. It addresses consideration of the possibility of use of deadly force firearms during or immediately following a pursuit. It highlights those guidelines that reflect a requirement that an agency's pursuit policy contain certain subject areas: public agency immunity issues, Vehicle Code Sections 17004 through 17004.7.
