Eloquent Science David Schultz, 2013-01-16 Mary Grace Soccio. My writing could not please this kindhearted woman no matter how hard I tried. Although Gifted and Talented seventh grade math posed no problem for me, the same was not true for Mrs. Soccio's English class. I was frustrated that my first assignment only netted me a C. I worked harder, making revision after revision, a concept I had never really put much faith in before. At last, I produced an essay that seemed the apex of what I was capable of writing. Although the topic of that essay is now lost to my memory, the grade I received was not a B. The best I could do was a B. The realization sank in that maybe I was not such a good writer. In those days, my youthful hubris did not understand about capacity building. In other words, being challenged would result in my intellectual growth, an academic restatement of Nietzsche's "What does not destroy me makes me stronger." Consequently, I asked to be withdrawn from Gifted and Talented English in the eighth grade.
