Destroyer Captain Lessons Of A First Command:

Destroyer Captain James Stavridis, 2014-09-15 This memoir of James Stavridis two years in command of the destroyer USS Barry reveals the human side of what it is like to be in charge of a warship for the first time and in the midst of international crisis From Haiti to the Balkans to the Arabian Gulf Barry was involved in operations throughout the world during his 1993 1995 tour Drawing on daily journals he kept for the entire period the author reveals the complex nature of those deployments in a real time context and describes life on board the Barry and liberty ashore for sailors and officers alike With all the joy doubt self examination hope and fear of a first command he offers an honest examination of his experience from the bridge to help readers grasp the true nature of command at sea The window he provides into the personal lives of the crew illuminates not only their hard work in a ship that spent more than 70 percent of its time underway but also the sacrifices of their families ashore Stavridis credits his able crew for the many awards the Barry won while he was captain including the Battenberg Cup for top ship in the Atlantic Fleet Naval aficionados who like seagoing fiction will be attracted to the book as will those fascinated by life at sea Officers from all the services especially surface warfare naval officers aspiring to command will find these lessons of a first command by one of the Navy's most respected admirals both entertaining and instructive

Questioning the Carrier Jeff Vandenengel, 2023-11-15 Winner of The Navy League's 2024 Alfred Thayer Mahan Award for Literary Achievement The nuclear powered aircraft carrier is naval history's most powerful and versatile warship It is the reason the U S Navy is the predominant force at sea today Throughout its illustrious history the carrier has overcome serious flaws including its expense vulnerability centralization of combat power and its airwing's short range The U S Navy always accepted those flaws because the carrier was the best means of delivering firepower Today's technologies however provide key opportunities for the U S Navy to move beyond the limitations of a carrier centric fleet by redesigning its force structure Questioning the Carrier examines how the U S Navy can embrace the Age of the Missile network the distributed fleet and diversify to develop a fleet that benefits from the aircraft carrier's many strengths without being wholly dependent on them By acting on those opportunities the U S Navy can develop a structure that performs the carrier centric fleet's functions more effectively using a force consisting of more platforms with less total risk and within the same long term budget As adversaries are improving their ability to deter the carrier thus causing its utility to wane the author examines the Navy's past successes to show how it can overcome institutional resistance to change and continue to rule the seas

U.S. Naval Tsunami Donald J. Meyers , 2015-05-12 In December 1941 Japanese naval bombers destroyed the United States Pacific battleship fleet at Pearl Harbor unleashed a rampage of conquest in the Pacific Ocean and Rim and invaded the Dutch East Indies and New Guinea The battered United States Pacific Fleet was then confronted by the formidable Japanese naval superiority in quality and quantity of warships planes pilots and torpedoes but staggered up from its flaming decks to first check and then dominate a samurai warrior obsessed foe which killed between 28 63 million Asians Author Don Meyers analyzes the main causes of the remarkable comeback victory at the amazingly low cost of less than 0.2% of all military fatalities in WWII Not least among them was the skill and courage of fewer than 100 pilots and sub skippers who sank all 22 Japanese aircraft carriers and nearly 3 million tons of their Merchant Marine leading to their unconditional surrender There has never been a war like World War II in the Pacific **Japanese Destroyer Captain** Tameichi Hara, 2011-08-15 This

highly regarded war memoir was a best seller in both Japan and the United States during the 1960s and has long been treasured by historians for its insights into the Japanese side of the surface war in the Pacific. The author was a survivor of more than one hundred sorties against the Allies and was known throughout Japan as the Unsinkable Captain. A hero to his countrymen, Capt Hara exemplified the best in Japanese surface commanders: highly skilled, he wrote the manual on torpedo warfare, hard driving and aggressive. Moreover, he maintained a code of honor worthy of his samurai grandfather, and as readers of this book have come to appreciate, he was as free with praise for American courage and resourcefulness as he was critical of himself and his senior commanders. **Naval War College Review**, 2009 **USN Destroyer vs IJN Destroyer** Mark Stille, 2012-11-20. This book covers the fierce night naval battles fought between the US Navy and the Imperial Japanese Navy during late 1943 as the Allies advanced slowly up the Solomons Islands toward the major Japanese naval base at Rabaul. During this period, several vicious actions were fought featuring the most modern destroyers of both navies. Throughout most of 1942, the Imperial Navy had held a marked edge, and a key ingredient of these successes was their destroyer force, which combined superior training and tactics with the most capable torpedo in the world. Even into 1943, mixed Allied light cruiser destroyer forces were roughly handled by Japanese destroyers. After these battles, the Americans decided to stop chasing Japanese destroyers with cruisers, so the remainder of the battles in 1943, with one exception, were classic destroyer duels. This book explores the Americans' technical edge, provided to them by radar and now added new more aggressive tactics. The final result was the defeat of the Imperial Navy's finely trained destroyer force and the demonstration that the Japanese were unable to stop the Allies' advance. **Naval War College Review** Naval War College (U.S.), 1997 Military History, 2008-03 **The Journal of Military History**, 2008-07 *Die Autobiografie von Jean-Luc Picard* David Goodman, 2024-01-02. Die Autobiographie von Jean Luc Picard erzählt die Geschichte einer der berühmtesten Personen in der Geschichte der Sternenflotte. Sein außergewöhnliches Leben und seine Karriere sind eine dramatische Lektüre. Mitleid, unerwiderte Liebe, Gefangennahme und Folterung durch die Cardassianer, Assimilierung durch die Borg und unzählige Begegnungen als Captain des berühmten Raumschiffs Enterprise. **Proceedings of the United States Naval Institute** United States Naval Institute, 2016 **Papers and Proceedings** United States Naval Institute, 1972 **The Art of Command** Harry S. Laver, Jeffrey J. Matthews, 2017-12-08. What essential leadership lessons do we learn by distilling the actions and ideas of great military commanders such as George Washington, Dwight D. Eisenhower, and Colin Powell? The Art of Command demonstrates that great leaders become great through a commitment not only to develop vital skills but also to surmount personal shortcomings. In the second edition of this classic resource, Harry S. Laver, Jeffrey J. Matthews, and the other contributing authors identify eleven core characteristics of highly effective leaders, such as integrity, determination, vision, and charisma, and eleven significant figures in American military history who embody those qualities. Featuring new chapters on transitional leadership, innovative leadership, and authentic leadership, this insightful book offers valuable

perspectives on the art of military command in American history
