

ENGLISH FUNDAMENTALS 1

Just like other languages, English has its own grammar rules. These rules are the foundation of the language and help us to understand and use it correctly.

Grammar is the study of the structure of a language. It includes the rules for how words are used to form sentences and how sentences are put together to form paragraphs.

There are many different types of grammar rules, but they all follow the same basic principles. Understanding these rules is essential for anyone who wants to learn a new language.
