Confronting The Yugoslav Controversies A Scholars Initiative Central European Studies:

Confronting the Yugoslav Controversies Charles Ingrao, Thomas A. Emmert, 2012-12-15 It has been two decades since Yugoslavia fell apart. The brutal conflicts that followed its dissolution are over, but the legacy of the tragedy continues to unsettle the region. Reconciliation is a long and difficult process that necessitates a willingness to work together openly and objectively in confronting the past. Over the past ten years, the Scholars Initiative has assembled an international consortium of historians, social scientists, and jurists to examine the salient controversies that still divide the peoples of former Yugoslavia. The findings of its eleven research teams represent a direct assault on the proprietary narratives and interpretations that nationalist politicians and media have impressed on mass culture in each of the successor states. Given gaps in the historical record and the existence of sometimes contradictory evidence, this volume does not pretend to resolve all of the outstanding issues. Nevertheless, this second edition incorporates new evidence and major developments that have taken place in the region since the first edition went to press. At the heart of this project has always been the insistence of the authors that they would continue to reconsider their analyses and conclusions based on credible new evidence. Thus, in this second edition, the work of the Scholars Initiative continues. The broadly conceived synthesis will assist scholars, public officials, and the people they represent both in acknowledging inconvenient facts and in discrediting widely held myths that inform popular attitudes and the electoral success of nationalist politicians who profit from them. Rather than rely on special pleading and appeals to patriotism that have no place in scholarship, the volume vests its credibility in the scientific credentials of its investigators, the transparent impartiality of its methodology, and an absolute commitment to soliciting and examining evidence presented by all sides.

Confronting the Yugoslav Controversies Charles W. Ingrao, Thomas Allan Emmert, 2013 This collection of essays examines Yugoslavia's dissolution and the subsequent wars. *The Treaties of Carlowitz (1699)*, 2020-01-20 The Treaties of Carlowitz 1699 includes recent studies on the Lega Sacra War of 1683-1699 against the Ottoman Empire, the Peace treaties of Carlowitz 1699, and on the general impact of the conflict upon Modern Europe and the Balkans. With its contributions written by well-known international specialists in the field, the volume demonstrates that sometimes important conflicts tend to be forgotten with time, overshadowed by more spectacular wars, peace congresses, or diplomatic alliances. The Long War of 1683-1699 is a case in point. By rethinking and re-writing the history of the conflict and the subsequent peacemaking between a Christian alliance and the Ottoman state at the end of the 17th century, new perspectives stretching into the present era for the history of Europe, the Balkans, and the Near East are brought into discussion. Bosnia Remade Gerard Toal, Carl T. Dahlman, 2011-02-16 Bosnia Remade is an authoritative account of ethnic cleansing and its partial undoing from the onset of the 1990s Bosnian wars up through the present. Gerard Toal and

Carl Dahlman combine a bird's eye view of the entire war from onset to aftermath with a micro level account of three towns that underwent ethnic cleansing and later the return of refugees There have been two major attempts to remake the ethnic geography of Bosnia since 1991 In the first instance ascendant ethno nationalist forces tried to eradicate the mixed ethnic geographies of Bosnia's towns villages and communities These forces devastated tens of thousands of homes and lives but they failed to destroy Bosnia Herzegovina as a polity In the second attempt which followed the war the international community in league with Bosnian officials endeavored to reverse the demographic and other consequences of this ethnic cleansing While progress has been uneven this latter effort has transformed the ethnic demography of Bosnia and moved the nation beyond its recent segregationist past By showing how ethnic cleansing was challenged Bosnia Remade offers more than just a comprehensive narrative of Europe's worst political crisis of the past two decades It also offers lessons for addressing an enduring global problem

Debating the End of Yugoslavia Florian Bieber, Armina Galijaš, 2016-05-13

Countries rarely disappear off the map In the 20th century only a few countries shared this fate with Yugoslavia The dissolution of Yugoslavia led to the largest war in Europe since 1945 massive human rights violations and over 100 000 victims Debating the End of Yugoslavia is less an attempt to re write the dissolution of Yugoslavia or to provide a different narrative than to take stock and reflect on the scholarship to date New sources and data offer fresh avenues of research avoiding the passion of the moment that often characterized research published during the wars and provide contemporary perspectives on the dissolution The book outlines the state of the debate rather than focusing on controversies alone and maps how different scholarly communities have reflected on the dissolution of the country what arguments remain open in scholarly discourse and highlights new innovative paths to study the period

How Generations Remember Monika Palmberger, 2016-12-07 This book is open access under a CC BY 4.0 license This book provides a profound insight into post war Mostar and the memories of three generations of this Bosnian Herzegovinian city Drawing on several years of ethnographic fieldwork it offers a vivid account of how personal and collective memories are utterly intertwined and how memories across the generations are reimagined and rewritten following great socio political change Focusing on both Bosniak dominated East Mostar and Croat dominated West Mostar it demonstrates that even in this ethno nationally divided city with its two divergent national historiographies generation specific experiences are crucial in how people ascribe meaning to past events It argues that the dramatic and often brutal transformations that Bosnia and Herzegovina has witnessed have led to alterations in memory politics not to mention disparities in the life situations faced by the different generations in present day post war Mostar This in turn has created variations in memories along generational lines which affect how individuals narrate and position themselves in relation to the country's history This detailed and engaging work will appeal to students and scholars of anthropology sociology political science history and oral history particularly those with an interest in memory post socialist Europe and conflict studies

History Education and Post-Conflict

Reconciliation Karina Korostelina, Simone Lässig, 2013-04-02 This book analyses the role of history education in conflict and post conflict societies describing common history textbook projects in Europe the Balkans the Caucasus the Far East and the Middle East Ever since the emergence of the modern school system and the implementation of compulsory education textbooks have been seen as privileged media The knowledge they convey is relatively persistent and moreover highly selective every textbook author must choose and omit condense structure reduce and generalize information Within this context history textbooks are often at the centre of interest There are unquestionably significant differences regarding homogeneity or plurality of interpretations when concepts of history education are compared internationally This volume conducts a comparative analysis of common history projects in different countries and provides conceptual frameworks and methodological tools for enhancing the roles of these projects in the processes of conflict prevention and resolution This book is timely as issues of history education in conflict and post conflict societies are becoming more popular with the increased realisation that unresolved disagreements about historical narratives can and often do lead to renewed conflict or even violence This book will be of interest to students of peace studies and conflict resolution political science history sociology anthropology social psychology and international relations in general

Prosecuting War Crimes James Gow, Rachel Kerr, Zoran Pajic, 2013-09-23 This volume examines the legacy of the International Criminal Tribunal for the former Yugoslavia ICTY which was created under Chapter VII of the UN Charter as a mechanism explicitly aimed at the restoration and maintenance of international peace and security As the ICTY has now entered its twentieth year this volume reflects on the record and practices of the Tribunal Since it was established it has had enormous impact on the procedural jurisprudential and institutional development of international criminal law as well as the international criminal justice project This will be its international legacy but its legacy in the region where the crimes under its jurisdiction took place is less clear research has shown that reactions to the ICTY have been mixed among the communities most affected by its work Bringing together a range of key thinkers in the field Prosecuting War Crimes explores these findings and discusses why many feel that the ICTY has failed to fully engage with people s experiences and meet their expectations This book will be of much interest to students of war crimes international criminal law Central and East European politics human rights and peace and conflict studies

the United Kingdom Death and Burial in Socialist Yugoslavia Carol S. Lilly, 2024-02-08 Across the globe memorial and grave sites are being increasingly weaponized in conflicts and politicized by parties to advance agendas Here Carol S Lilly examines ideas of death politics memory ideology and nationalism in the former Yugoslav republics of Bosnia Hercegovina Croatia and Serbia to shine fresh light on cemetery culture in 20th century Europe More specifically Death and Burial in Socialist Yugoslavia argues that while the CPY created its own communities of the dead in postwar Partisan Cemeteries it failed to do the same for civilian cemeteries in ways that might reinforce its ideals of secularism pluralism and brotherhood and unity Moreover the communist regime left the previous system of ethno religious segregation in place further isolating Catholics Orthodox Muslims and Jews who continued to be buried in separate locations Finally it explicitly politicized burial rites and grave markers making cemeteries into legitimate spaces of political discourse As a result by the time Yugoslavia disintegrated in the early 1990s dead bodies and cemeteries had become a concerted weapon of war in the ongoing ethnic conflict Ultimately then this timely study reveals for the first time the extent to which the communist regime not only failed to created their own communities of the dead but also further divided and alienated living communities in Yugoslavia

Jugoslavia sognata Egidio Ivetic, 2012 **Perspectives in Waging Conflicts Constructively** Bruce W. Dayton, Louis Kriesberg, 2017-01-12 Perspectives in Waging Conflicts Constructively offers diverse perspectives on how large scale conflicts can be conducted with more positive benefits minimizing their destructiveness Distinguished analysts and practitioners review the core ideas of the innovative constructive conflict approach and examine cases where conflicts have been waged with fewer destructive consequences An introduction presents key concepts in constructive conflict resolution and chapters offer cases of these theories in action Cases feature both global and regional examples ranging from Israel to North Korea The book also contains recommendations for policy makers non governmental organizations and citizens about how stakeholders at all levels might help avoid destructive patterns that are common in large scale conflict while working for positive change Contributors include Patrick G Coy Esra Cuhadar Bruce W Dayton Martina Fischer Galia Golan Louis Kriesberg Christopher Mitchell Robert Murrett Thania Paffenholz Lee Smithey and Steven Zunes **Ethnic Cleansing During the Cold War** Tomasz Kamusella, 2018-07-17 In mid 1989 the Bulgarian communist regime seeking to prop up its legitimacy played the ethnonational card by expelling 360 000 Turks and Muslims across the Iron Curtain to neighboring Turkey It was the single largest ethnic cleansing during the Cold War in Europe after the wrapping up of the postwar expulsions population transfers of ethnic Germans from Central Europe in the latter half of the 1940s Furthermore this expulsion of Turks and Muslims from Bulgaria was the sole unilateral act of ethnic cleansing that breached the Iron Curtain The 1989 ethnic cleansing was followed by an unprecedented return of almost half of the expellees after the collapse of the Bulgarian communist regime The return which partially reversed the effects of this ethnic cleansing was the first ever of its kind in history Despite the unprecedented character of this 1989 expulsion and the subsequent return not a single research

article let alone a monograph has been devoted to these momentous developments yet. However, the tragic events shape today's Bulgaria while the persisting attempts to suppress the remembrance of the 1989 expulsion continue sharply dividing the country's inhabitants. Without remembering about this ethnic cleansing, it is impossible to explain the fall of the communist system in Bulgaria and the origins of ethnic cleansing during the Yugoslav wars. Faltering Yugoslavia's future ethnic cleansers took a good note that neither Moscow nor Washington intervened in neighboring Bulgaria to stop the 1989 expulsion, which in light of international law was then still the legal instrument of population transfer. The as yet unhealed wound of the 1989 ethnic cleansing negatively affects the Bulgaria's relations with Turkey and the European Union. It seems that the only way out of this debilitating conundrum is establishing a truth and reconciliation commission that at long last would ensure transitional justice for all Bulgarians irrespective of language, religion, or ethnicity.

Philosophical Dimensions of Human Rights Claudio Corradetti, 2011-10-29. This book presents a unique collection of the most relevant perspectives in contemporary human rights philosophy. Different intellectual traditions are brought together to explore some of the core postmodern issues challenging standard justifications. Widely accessible also to non-experts, contributions aim at opening new perspectives on the state of the art of the philosophy of human rights. This makes this book particularly suitable to human rights experts as well as master and doctoral students. Further, while conceived in a uniform and homogeneous way, the book is internally organized around three central themes: an introduction to theories of rights and their relation to values; a set of contributions presenting some of the most influential contemporary strategies; and finally, a number of articles evaluating those empirical challenges springing from the implementation of human rights. This specific set-up of the book provides readers with a stimulating presentation of a growing and interconnecting number of problems that post-natural law theories face today. While most of the contributions are new and specifically conceived for the present occasion, the volume includes also some recently published influential essays on rights, democracy, and their political implementation.
