Cemetery Walk Minda Powers-Douglas,2005-01 Do you wish you could swim Do you wish you could rely on yourself for your safety rather than on the bottom or the side of the pool or on strokes Safety comes from knowing how the water works with your body and knowing how to be yourself in the water calm and in control which prevents panic Get to the heart of the problem Anyone can learn to swim but you have to be confident in water first Confidence comes from learning to trust yourself in the water by having many small successes which lead to bigger ones Further overcoming fear requires understanding the steps of remaining in control They are easy Chances are you've never heard of these steps But everyone recognizes them when they see them in this book They are the universal steps of learning You cannot fail to learn to swim using these steps You cannot fail to learn anything using these steps What is swimming First

it's freedom in water. Once you master your safety, you can learn any stroke you desire because you're no longer focused on survival. Conquer Your Fear of Water advances these ideas: 1. Learning to swim requires comfort and confidence in water. 2. Learning to swim comes before learning strokes. 3. Learning to swim and learning strokes are two different processes for adults. 4. Overcoming fear is a simple, fascinating personal process. 5. Learning to swim is fun. 6. If you start at the beginning and skip no steps, you cannot fail to learn to swim. Every step you need is presented in the book. Formal strokes are not part of this book. Readers wrote: "I really like that you stress having fun first and being comfortable. The book is full of fantastic advice. It's working for me. I now know I will not pass on my fear to my children. You will make a difference in millions of lives." D. K. This book is very, very impressive and leaves no doubt in my mind why your system works. The book does a tremendous job of sharing your method. The concepts, the language, and the detailed steps are easy to understand. You anticipate and explain in great detail a lot of the things that happen in the water that scare novices. Your book answered a lot of questions I have had and explained a lot of what I have experienced in the water. S. N. No matter where you are with your swimming today, it's just the right place to begin. To move from here to there in water with ease and the ability to stop and rest without needing the bottom or the side of the pool, start at the beginning and skip no steps. This course has been honed since 1983 by Miracle Swimming Institute, 21st Century Swimming Lessons, Inc. in the San Francisco Bay Area and in Sarasota, Florida. It is now in 19 cities around the world. It sets a new standard for all teaching.
