Construction Procedures Manual Vander Kooi, Charles, Gary S. Goldman, 1989

**Post L Group Construction's Standard Operating Procedure Manual** The Meditative Coach, Jeffrey B Postell, 2024-11-11

The Standard Operating Procedures Manual is provided to all managers of Post L Group Construction to ensure that they demonstrate and communicate the company's high ethical standard of conduct to all employees. This Policy and Procedure Manual has been created to outline the expectations that Executive Leadership has for our team members as well as what our team members can expect from their leaders. Management has established a system of internal controls that provide reasonable assurance that in all material respects assets of the company are maintained and accounted for in accordance with management's authorization and that transactions are recorded accurately on the books of the company. Our internal controls provide for appropriate separation of duties and responsibilities and in areas where duties cannot be separated compensating controls are in place. The procedures define the internal controls in place and the plan for augmenting controls as the company grows. Our aim is to ensure that each team member's experience with Post L Group is both fulfilling and enjoyable while maintaining safety and quality work at a profit.

Construction Process Planning and Management Sidney M Levy, 2009-09-24

By their very nature construction projects can create seemingly endless opportunities for conflict. Written by a best-selling author with over 40 years of experiences in the construction and general contracting business, *Construction Process Planning and Management* provides you with the necessary tools to save time and money on your construction project. In this book, Sid Levy provides valuable advice for avoiding or working through the common problems that are a result of the long-term nature of construction projects: failure to select a project delivery system appropriate to the project; incomplete drawing and specifications; unrealistic scheduling; poor communication and coordination among participants; and inadequate contract administration. From project genesis through design development to contractor and contract selection on to construction oversight, punch list and successful project close-out, this book will point out those pitfalls to avoid and offer practical advice at every step along the way. Administer the general construction process including solicitation of contractor's qualifications, pre-qualify bidders, comparative analysis of bid packages, recommendation for contract award, contract document negotiation and documentation of job change orders. Provide Project Planning and on-site management and coordination of all construction projects. Ensure compliance of building construction rules and regulations and collaborate with chief engineers to monitor quality of construction. Conduct technical plan review of construction documents and submit written responses identifying required corrections or changes. Design, implement and

oversee Company standards for construction policies practices and processes Pennsylvania State University. Department of Architectural Engineering,1971
